

NAS JIAXING

ENGLISH DEPARTMENT

STAGE 7

Complete Grammar Book

ANSWER BOOK

Full student pages with answers and scoring guidance shown in red.

CLASSROOM EDITION v0.2

Prepared for classroom use and sample-group testing

How to use this answer book

This volume reproduces the complete student book. Every printed answer or scoring note is added directly to the learner page in red.

For fixed-answer items, the expected answer is shown beside the response space. For open tasks, the red note gives a model, acceptable response type, or scoring criteria.

Keep the student book separate during first attempts. Use this answer volume for checking, feedback, reteaching and moderation.

Equivalent accurate British-English responses are acceptable unless an item is testing a specific contrast.

Page numbers match the student book exactly, so both books can be used side by side.

How each module works

LEARN

Meet meaning in context.

NOTICE

Find the useful pattern.

BUILD

Assemble it with support.

CHOOSE

Discriminate between options.

USE

Communicate for a purpose.

CHECK

Diagnose the first attempt.

RETRIEVE

Return without the rule box.

REFLECT

Name progress and next steps.

Do not erase useful errors: correct them beside the first attempt so progress remains visible.

What would count as real progress for me:

Sentence building blocks

LEARN → NOTICE → BUILD → CHOOSE → USE → CHECK → RETRIEVE → REFLECT

Your goals

- ☐ I can find the subject and finite verb in a simple statement.
- ☐ I can distinguish a complete sentence, a phrase and a dependent-clause fragment.
- ☐ I can repair an unfinished message.
- ☐ I can write complete classroom and personal-information sentences without the rule box.

Name: _____ Class: _____ Date: _____

A01 · Learn · Complete message or unfinished piece?

Read each line. Decide whether the listener receives a complete message. Do not use grammar labels yet.

A01-01. The new student

Answer: No - unfinished; we do not know what happens.

A01-02. The new student smiled.

Answer: Yes - complete message.

A01-03. Because the new student smiled

Answer: No - it begins a reason but does not finish the main message.

A01-04. The bell rang.

Answer: Yes - complete message.

A02 · Learn · Three kinds of building block

Compare the three examples. Say what each one can do in a message.

A02-01. after the final lesson

Answer: Phrase: a useful group of words, but no complete subject-verb structure.

A02-02. the bell rang

Answer: Clause: the bell is the subject and rang is the verb. It can stand alone here.

A02-03. because the bell rang

Answer: Subordinate clause: it has a subject and verb but cannot usually stand alone.

A03 · Notice · The smallest useful rule

Use the box to connect word jobs with sentence jobs.

A03-01. Core statement pattern

Answer: Subject + finite verb (+ object when the verb needs one).

A03-02. Subject

Answer: Who or what the clause is about.

A03-03. Verb

Answer: The action or state; a finite verb helps anchor a clause.

A03-04. Object

Answer: The person or thing receiving the action when the verb takes an object.

A03-05. Accuracy guardrail

Answer: This module practises statements. Commands may have an understood subject, and questions can use a different word order.

A03-06. Word-job bank

Answer: noun = person/place/thing/idea; verb = action/state; adjective = describes a noun; adverb = adds information such as how; pronoun = replaces a noun; preposition = shows a relationship such as place/time; conjunction = joins ideas; determiner = comes before a noun; quantifier = shows how much/how many.

A04 · Notice · Find the jobs inside the message

Use the word-job bank. Then mark S (subject), V (finite verb) and O (object) where possible.

A04-01. In "The careful student answered quickly", label careful, student, answered and quickly.

Answer: careful = adjective; student = noun; answered = verb; quickly = adverb.

A04-02. In "Lina waited under the tree because it was raining", label Lina, under, because and it.

Answer: Lina = noun/name; under = preposition; because = conjunction; it = pronoun.

A04-03. In "Those books are new", label those and books.

Answer: those = determiner; books = noun.

A04-04. In "A few students stayed", identify the quantifier.

Answer: a few

A04-05. Mark S, V and O in "Mina opened the window".

Answer: S = Mina; V = opened; O = the window.

A04-06. Mark S and V in "The baby slept". Is an object required?

Answer: S = The baby; V = slept; no object is required.

A05 · Build · Build complete statements

Put the word groups in a natural order. Add a capital letter and full stop.

A05-01. after class / the team / practised

Answer: The team practised after class.

A05-02. opened / Leo / the red box

Answer: Leo opened the red box.

A05-03. the new teacher / smiled

Answer: The new teacher smiled.

A05-04. quietly / the students / entered / the library

Answer: The students entered the library quietly.

A05-05. our group / a poster / designed / for the event

Answer: Our group designed a poster for the event.

A06 · Choose · Sentence, phrase or clause fragment?

Choose A, B or C. A = complete sentence. B = phrase or group without a full subject-verb pair. C = clause fragment with a subject and verb but an unfinished link.

A06-01. The science club meets on Tuesdays.

A B C

Answer: A

A06-02. under the old wooden bridge

A B C

Answer: B

A06-03. because the bus was late

A B C

Answer: C

A06-04. our new art teacher

A B C

Answer: B

A06-05. We finished the poster before lunch.

A B C

Answer: A

A06-06. when the bell rings

A B C

Answer: C

A06-07. speaks quietly after lunch

A B C

Answer: B

A06-08. My friends and I practised outside.

A B C

Answer: A

A07 · Use · Repair and write for real meaning

Work in English without the box. Repair the three unfinished messages, then write three true sentences of your own.

A07-01. Repair: My best friend from Grade 6.

Answer: Any natural complete sentence with the phrase as subject, e.g. My best friend from Grade 6 loves basketball. | Criteria: Visible subject + finite verb; complete meaning.

A07-02. Repair: Plays basketball every Friday.

Answer: Add a subject, e.g. My cousin plays basketball every Friday. | Criteria: Add a clear subject; keep subject-verb agreement.

A07-03. Repair: Because our bus arrived late.

Answer: Add a main clause or remove because, e.g. We missed the starter because our bus arrived late. | Criteria: Complete the dependent link.

A07-04. Write one true sentence about a routine.

Answer: Open response - Complete sentence with subject + finite verb; meaning is clear.

A07-05. Write one classroom sentence with an object.

Answer: Open response - Subject + transitive verb + object; meaning is clear.

A07-06. Write one true sentence whose verb needs no object.

Answer: Open response - Subject + intransitive or linking verb; complete meaning.

A08 · Check · Repair the decision

Decide whether each line is complete. If it is not, diagnose the missing decision and repair it.

A08-01. The tall boy near the gate.

Answer: Fragment: add a finite verb and complete the meaning.

A08-02. Carries the equipment after lunch.

Answer: Fragment in this statement context: add a subject.

A08-03. When our science lesson ended.

Answer: Dependent-clause fragment: add a main clause or remove when if the meaning permits.

A08-04. Our class planted trees.

Answer: Complete: S = Our class; V = planted; O = trees.

A08-05. The students happy today.

Answer: Fragment: add the finite verb are.

A09 · Check · Use your error code and retry

Choose one error you made. Follow its route: read the cue, compare the contrast, retry the original item, then check the explanation.

A09-01. Record the error code, your repaired answer and your next route.

Answer: Open response using SB-M01 to SB-M07. | Criteria: Learner records a code, retries and selects continue/repeat/revisit/teacher route.

A10 · Retrieve · Do it without the box

Close or cover all earlier explanations. Complete from memory.

A10-01. What two core jobs anchor a simple statement clause?

Answer: A subject and a finite verb.

A10-02. What extra job may follow a verb such as open, design or plant?

Answer: An object.

A10-03. Classify: under the table

Answer: Phrase / incomplete group.

A10-04. Classify: the table moved

Answer: Complete sentence / main clause.

A10-05. Classify: because the table moved

Answer: Clause fragment / subordinate clause.

A10-06. Write one new complete sentence and mark S, V and O if it has one.

Answer: Open response - English only; no model copied; accurate function labels.

A11 · Reflect · What clue did you use?

Reflect briefly. Confidence changes the next route, not the mastery result.

A11-01. Name the most useful clue for distinguishing a phrase from a clause.

Answer: A clause has a subject + finite verb structure; a phrase does not.

A11-02. Complete: I first thought ____, but now I know ____.

Answer: Open response - Names a genuine correction or distinction.

A11-03. Choose confidence 1-4 and the evidence that supports it.

Answer: Open response - Confidence is paired with an example, correction or retrieval result.

A11-04. Choose next route: continue, repeat mixed choice, revisit the box or ask the teacher.

Answer: Open response - Selected route matches the learner's recorded performance, error pattern and confidence evidence.

L0 · Retrieve · Same-session exit without notes

Complete after the earlier page is closed. No grammar heading or word bank is shown.

L0-01. during the long break

Answer: Phrase.

L0-02. the long break ended

Answer: Complete sentence / main clause.

L0-03. although the long break ended

Answer: Clause fragment / subordinate clause.

L0-04. Repair: Our new classroom near the library.

Answer: Add a finite verb, e.g. Our new classroom is near the library.

L0-05. Repair: Carries the sports bags every Monday.

Answer: Add a subject.

L0-06. Write a complete message about today.

Answer: Open response - English only; subject + finite verb; complete meaning.

L1 · Retrieve · Return in approximately 1-3 days

Complete without reopening Module 1.

L1-01. before the morning meeting

Answer: Phrase.

L1-02. our teacher checked the list

Answer: Complete sentence / main clause.

L1-03. when our teacher checked the list

Answer: Clause fragment / subordinate clause.

L1-04. Repair: The school garden very quiet.

Answer: The school garden is very quiet.

L1-05. Identify S, V and O: Our monitor collected the books.

Answer: S = Our monitor; V = collected; O = the books.

L1-06. Write one new sentence with an object.

Answer: Open response - English only; accurate subject, finite verb and object.

L2 · Retrieve · Return in S7-M03 or approximately 7-14 days

Complete this mixed return among questions, pronouns and frequency work. The old target is not named.

L2-01. Does your brother walk to school?

Answer: Complete sentence (question order differs, but the message is complete).

L2-02. your brother after school

Answer: Phrase.

L2-03. because she studies at home

Answer: Clause fragment / subordinate clause.

L2-04. Repair: My sister very patient.

Answer: My sister is very patient.

L2-05. Identify the subject and finite verb: She usually studies at home.

Answer: Subject = She; finite verb = studies.

L2-06. Write one sentence about a habit, then mark its subject and finite verb.

Answer: Open response - English only; accurate present-simple sentence and function labels.

L3 · Retrieve · Return in S7-M07 or approximately 21-35 days

Edit the short school report, then write a transfer message. This is the delayed retention gate.

L3-01. Edit: After lunch. Our class practised a play. Because the hall was free. The teacher moved the chairs.

Answer: One strong repair: After lunch, our class practised a play because the hall was free. The teacher moved the chairs. | Criteria: Repairs both fragments while preserving the intended meaning.

L3-02. In the repaired report, identify one subject-verb pair and one object.

Answer: Examples: class-practised; teacher-moved; object = the chairs.

L3-03. Write a two-sentence report about a school event. Include one subject-verb-object sentence and one clause joined with because, when or while.

Answer: Open response - English only; unseen context; complete sentences; accurate clause attachment; independently checked.

L3-04. State the clue you used and confidence 1-4.

Answer: Open response - Reason and confidence recorded separately from performance.

Module progress check

Complete this after your first attempt and again after feedback.

☐ Not yet ☐ Nearly ☐ Secure I can find the subject and finite verb in a simple statement.

☐ Not yet ☐ Nearly ☐ Secure I can distinguish a complete sentence, a phrase and a dependent-clause fragment.

☐ Not yet ☐ Nearly ☐ Secure I can repair an unfinished message.

☐ Not yet ☐ Nearly ☐ Secure I can write complete classroom and personal-information sentences without the rule box.

One correction I can explain:

My next retrieval date: _____

This page is intentionally blank.

Present simple foundations

LEARN → NOTICE → BUILD → CHOOSE → USE → CHECK → RETRIEVE → REFLECT

Your goals

- ☐ I can use am/is/are and their negative forms for present facts and states.
- ☐ I can use present-simple lexical verbs and have/has with accurate subject agreement.
- ☐ I can form negatives with don't/doesn't + base form and avoid adding do/does to be.
- ☐ I can write a short routine profile with positive and negative facts.

Name: _____ Class: _____ Date: _____

A01 · Learn · Meet Leo through his routine

Read the four facts about Leo. Decide what each line tells us: a routine, a present state or something that is not true. Do not name a tense yet.

A01-01. Leo is quiet in the morning.

Answer: A present state.

A01-02. Leo walks to school every day.

Answer: A routine.

A01-03. Leo doesn't bring lunch on Fridays.

Answer: A negative routine - this does not happen on Fridays.

A01-04. Leo isn't at school today.

Answer: A negative present state - he is not at school today.

A02 · Learn · What changes when the sentence becomes negative?

Compare each pair. Say what stays the same and what changes in the message.

A02-01. Mina is helpful. / Mina isn't helpful.

Answer: The person and quality stay the same; the second sentence says the quality is not true.

A02-02. Kai plays chess after school. / Kai doesn't play chess after school.

Answer: The routine and time stay the same; the second sentence says the routine does not happen.

A02-03. The club has a piano. / The club doesn't have a piano.

Answer: The possession topic stays the same; the second sentence says the club has no piano.

A02-04. She walks home. / They walk home.

Answer: The routine stays the same; the verb form changes because the subject changes.

A03 · Notice · The present-simple decision box

Read the box. These are the target forms for this module.

A03-01. Meaning

Answer: Use the present simple for routines, repeated actions, facts and present states.

A03-02. Be — affirmative

Answer: I am; you/we/they are; he/she/it is.

A03-03. Be — negative

Answer: I am not; you/we/they aren't; he/she/it isn't. Do not add do or does.

A03-04. Lexical verb — affirmative

Answer: I/you/we/they play; he/she/it plays. Third-person singular usually takes -s, with spelling changes such as goes and studies.

A03-05. Lexical verb — negative

Answer: I/you/we/they don't play; he/she/it doesn't play. Use the base form after don't/doesn't.

A03-06. Have for possession

Answer: I/you/we/they have; he/she/it has. Target negative: don't/doesn't have.

A03-07. British-English alternative

Answer: Have got/has got and haven't got/hasn't got are also accurate for possession. They are valid alternatives but are not the scored target pattern here.

A03-08. Frequency position

Answer: Put usually/often/sometimes/rarely/hardly ever/never before a lexical verb but after be: She often reads; She is often early.

A03-09. Negative meaning

Answer: Never and hardly ever already carry negative meaning. Do not add don't/doesn't to the same verb: I never eat meat.

A04 · Notice · Find the subject, verb family and message type

For each sentence: name the subject; label the verb family BE, HAVE or LEXICAL; then label the message AFFIRMATIVE or NEGATIVE.

A04-01. Ava is usually early.

Answer: Subject: Ava; BE; affirmative. Usually follows be.

A04-02. They don't eat meat.

Answer: Subject: they; LEXICAL; negative. Don't supports the base form eat.

A04-03. My brother has two pets.

Answer: Subject: my brother; HAVE; affirmative. Third-person singular uses has.

A04-04. The library isn't open on Sundays.

Answer: Subject: the library; BE; negative. Isn't directly negates be.

A04-05. Sam rarely watches television.

Answer: Subject: Sam; LEXICAL; affirmative form with negative-frequency meaning. Rarely comes before watches.

A04-06. We don't have lessons on Saturday.

Answer: Subject: we; HAVE; negative. Don't supports the base form have.

A04-07. I am not tired.

Answer: Subject: I; BE; negative. The standard target form is am not.

A04-08. The bus normally stops here.

Answer: Subject: the bus; LEXICAL; affirmative. Normally comes before stops.

A05 · Build · Build accurate routine and fact sentences

Put the word groups in a natural order. Add capitals, punctuation and any apostrophe already shown by the contraction.

A05-01. usually / my father / gets up / at six

Answer: My father usually gets up at six.

A05-02. aren't / the classrooms / cold / in summer

Answer: The classrooms aren't cold in summer.

A05-03. doesn't / Mei / like / noisy games

Answer: Mei doesn't like noisy games.

A05-04. have / we / two science lessons / on Tuesday

Answer: We have two science lessons on Tuesday.

A05-05. Kai / doesn't have / a phone / at school

Answer: Kai doesn't have a phone at school.

A05-06. hardly ever / the bus / is / late

Answer: The bus is hardly ever late.

A05-07. studies / every day / Alia / after dinner

Answer: Alia studies every day after dinner.

A06 · Choose · Which sentence fits?

Choose the one accurate sentence in each set. The heading does not tell you which verb family to use.

A06-01. Nina's journey to school

A. Nina walks to school every day. B. Nina walk to school every day. C. Nina is walk to school every day.

Answer: A

A06-02. The students after lunch

A. The students don't hungry after lunch. B. The students aren't hungry after lunch. C. The students not hungry after lunch.

Answer: B

A06-03. Equipment in the art club

A. The art club isn't have a printer. B. The art club doesn't has a printer. C. The art club doesn't have a printer.

Answer: C

A06-04. My breakfast habit

A. I never eat breakfast on the bus. B. I don't never eat breakfast on the bus. C. I am never eat breakfast on the bus.

Answer: A

A06-05. A common feeling after training

A. My brother usually tired after training. B. My brother is usually tired after training. C. My brother usually be tired after training.

Answer: B

A06-06. One activity Chen avoids

A. Chen don't plays online games before school. B. Chen doesn't plays online games before school. C. Chen doesn't play online games before school.

Answer: C

A06-07. Our Tuesday timetable

A. We have two English lessons on Tuesday. B. We has two English lessons on Tuesday. C. We are have two English lessons on Tuesday.

Answer: A

A06-08. A teacher's weekly schedule

- A. My teacher not work at school on Saturday. B. My teacher doesn't work at school on Saturday. C. My teacher doesn't works at school on Saturday.

Answer: B

A06-09. The library's state on Friday evening

- A. The library doesn't be open on Friday evening. B. The library don't open on Friday evening. C. The library isn't open on Friday evening.

Answer: C

A06-10. A reliable bus

- A. The bus normally arrives before eight. B. The bus is normally arrive before eight. C. The bus normally arrive before eight.

Answer: A

A07 · Use · Write a routine profile

Work in English without the decision box. Write true or realistic information. Do not copy the examples.

A07-01. Write one affirmative sentence about your school-day routine.

Answer: Open response - One complete present-simple sentence with an appropriate subject and lexical verb; third-person agreement accurate if used.

A07-02. Write one negative sentence about a routine that does not happen.

Answer: Open response - Uses don't/doesn't + base form accurately, or an accurate never/hardly ever pattern without double negation.

A07-03. Write one affirmative fact or present state with be.

Answer: Open response - Uses am/is/are with accurate subject agreement and a complete meaningful complement.

A07-04. Write one negative fact or present state with be.

Answer: Open response - Uses am not/isn't/aren't directly; does not add do/does.

A07-05. Write a four-sentence profile of a classmate, family member or invented student. Include: one be sentence, one third-person routine, one negative lexical-verb or have sentence, and one frequency expression.

Answer: Open response - Four coherent present-simple sentences; every required feature present; accurate be/do choice, third-person form, negative construction and frequency position; meaning is clear.

A08 · Check · Diagnose and repair

Each sentence contains one target error. Name the error code if you can, then write the accurate sentence.

A08-01. My sister walk to school every day.

Answer: My sister walks to school every day.

A08-02. He doesn't plays basketball after school.

Answer: He doesn't play basketball after school.

A08-03. They don't tired after lunch.

Answer: They aren't tired after lunch.

A08-04. Mina isn't have a school lunch.

Answer: Mina doesn't have a school lunch.

A08-05. Our teacher not work on Sunday.

Answer: Our teacher doesn't work on Sunday.

A08-06. I don't never bring my phone to class.

Answer: I never bring my phone to class.

A09 · Check · Use the full repair route

Choose one error from A06, A07 or A08. Follow its route: diagnose, cue, contrast, retry, explain/reveal, then record the next route.

A09-01. Record: original response → error code → retry → what changed → continue/revisit/teacher route.

Answer: Open response - Includes an actual retry, states the decisive form/meaning change and records a justified next route.

A10 · Retrieve · Rebuild the pattern from memory

Cover all earlier explanations. Complete the items from memory.

A10-01. Complete the rule: With he/she/it, an affirmative lexical verb usually takes _____. After doesn't, use the _____ form.

Answer: -s or the appropriate third-person singular spelling; base.

A10-02. My cousin _____ (walk) to school every day.

Answer: walks

A10-03. My parents _____ not _____ (eat) meat.

Answer: do; eat

A10-04. The music room _____ not open after four.

Answer: is

A10-05. Reorder: often / is / our playground / busy / after lunch

Answer: Our playground is often busy after lunch.

A10-06. Nina _____ not _____ a bicycle. (have)

Answer: does; have

A10-07. Write two connected sentences about one person's routine: one affirmative and one negative.

Answer: Open response - Two connected, independent present-simple sentences; one affirmative and one negative; accurate subject agreement and be/do-support choice.

A11 · Reflect · What helped you choose?

Reflect briefly. Confidence helps select practice; it does not change the evidence result.

A11-01. What clue tells you whether to use be or do/does in a negative sentence?

Answer: Open response - Explains that be is negated directly, while lexical verbs and target have-negatives use do/does support.

A11-02. What happens to the main verb after doesn't?

Answer: Use the base form.

A11-03. Which error code do you most need to revisit, and why?

Answer: Open response - Names a relevant error code and links it to actual response evidence.

A11-04. Record confidence from 1-4, then choose: continue, repeat one contrast, revisit A03 or ask for teacher support.

Answer: Open response - Records both confidence and an evidence-based route; does not claim mastery from confidence alone.

L0 · Retrieve · L0 — same-session exit

Complete after the earlier pages are closed. No rule box or grammar heading is shown.

L0-01. Tariq ____ (study) in the library every afternoon.

Answer: studies

L0-02. We ____ not tired after art class.

Answer: are

L0-03. My sister doesn't ____ (have) lunch at school.

Answer: have

L0-04. Choose the accurate line.

A. Jo don't like early mornings. B. Jo doesn't like early mornings. C. Jo isn't like early mornings.

Answer: B

L0-05. Reorder: hardly ever / our coach / is / late

Answer: Our coach is hardly ever late.

L0-06. Repair: My friends not play games before school.

Answer: My friends don't play games before school.

L0-07. Write one accurate fact about a person and one negative routine.

Answer: Open response - Two independent present-simple sentences with accurate agreement and negative formation.

L1 · Retrieve · L1 — 1-3 day return

Complete without reopening Module 2. Route repeated errors to the matching contrast.

L1-01. The science club ____ (meet) on Wednesday.

Answer: meets

L1-02. Our classroom ____ not noisy in the morning.

Answer: is

L1-03. Luca ____ not ____ (bring) a laptop to school.

Answer: does; bring

L1-04. Choose the accurate Friday timetable line.

A. We are have music on Friday. B. We has music on Friday. C. We have music on Friday.

Answer: C

L1-05. Repair: Hana doesn't studies after ten o'clock.

Answer: Hana doesn't study after ten o'clock.

L1-06. Repair: They don't never use the old entrance.

Answer: They never use the old entrance.

L1-07. Write a three-sentence mini-profile containing be, a third-person routine and a negative.
Answer: Open response - Three coherent present-simple sentences; all required forms accurate without copied language.

L2 · Retrieve · L2 — routine or happening around now?

Complete this unsigned return inside Module 4 or the nearest timetable-equivalent session. Use the context, not the activity title alone.

L2-01. Every Monday, Eva ____ to choir practice.

Answer: goes

L2-02. Please be quiet; Eva ____ with the choir at the moment.

Answer: is practising

L2-03. Our PE teacher usually ____ outside, but today he is working in the hall.

Answer: teaches

L2-04. Choose the accurate routine sentence.

A. My brother is usually walk home. B. My brother usually walks home. C. My brother usually walk home.

Answer: B

L2-05. Repair the stable fact: The library doesn't quiet after lunch.

Answer: The library isn't quiet after lunch.

L2-06. Repair the routine: Sara is not bring a drink to training.

Answer: Sara doesn't bring a drink to training.

L2-07. Write one usual routine and one contrasting action happening around now.

Answer: Open response - Uses present simple accurately for the routine and present continuous accurately for the current action; contrast is meaningful and independently produced.

L3 · Retrieve · L3 — delayed transfer gate

Complete in Module 8 or the nearest 21-35 day session. Edit the club profile, then produce a new profile. An external checker must verify the evidence.

L3-01. Edit: The robotics club meet on Thursday and it don't have a large room.

Answer: The robotics club meets on Thursday and it doesn't have a large room.

L3-02. Edit: Its members are usually work in pairs, but the club isn't noisy.

Answer: Its members usually work in pairs, but the club isn't noisy.

L3-03. Choose the stable profile fact.

A. The club is meeting in Room 4 at the moment. B. The club has won two competitions this year. C. The club meets in Room 4 every Thursday.

Answer: C

L3-04. Write a new four-sentence profile for a real or invented school club. Include a stable be fact, a routine with a third-person subject, a negative with doesn't and a frequency expression.

Answer: Open response - Four coherent, independent sentences; all required present-simple contrasts accurate; no visible model copied; meaning fits a club profile.

L3-05. External check: record the mixed-editing result, production result and any retry before assigning a mastery state.

Answer: Open response - Checker records both mixed discrimination/editing and productive transfer. Retained is eligible only if both pass after any governed retry; confidence alone is ignored.

Module progress check

Complete this after your first attempt and again after feedback.

☐ Not yet ☐ Nearly ☐ Secure I can use am/is/are and their negative forms for present facts and states.

☐ Not yet ☐ Nearly ☐ Secure I can use present-simple lexical verbs and have/has with accurate subject agreement.

☐ Not yet ☐ Nearly ☐ Secure I can form negatives with don't/doesn't + base form and avoid adding do/does to be.

☐ Not yet ☐ Nearly ☐ Secure I can write a short routine profile with positive and negative facts.

One correction I can explain:

My next retrieval date: _____

This page is intentionally blank.

Questions, pronouns and frequency

LEARN → NOTICE → BUILD → CHOOSE → USE → CHECK → RETRIEVE → REFLECT

Your goals

- ☐ I can ask present-simple questions with be, do and does.
- ☐ I can use subject and object pronouns to keep people and things clear.
- ☐ I can ask and report how often habits happen.
- ☐ I can conduct and report a short habits survey without the decision box.

Name: _____ Class: _____ Date: _____

A01 · Learn · What do we want to find out?

Read each survey question and answer. Say what information the speaker wants: confirmation, a place, a time or frequency. Do not analyse the word order yet.

A01-01. Do you walk to school? — Yes, I do.

Answer: Confirmation about a routine.

A01-02. Where does Mina practise basketball? — At the sports centre.

Answer: A place.

A01-03. When do they finish homework? — Before dinner.

Answer: A time.

A01-04. How often is the library busy? — It is usually busy after lunch.

Answer: Frequency.

A02 · Learn · Keep the people and habits clear

Read each pair. Explain what the bold-style replacement or frequency expression helps the listener understand.

A02-01. Mina likes tennis. She plays it every Saturday.

Answer: The pronoun she replaces Mina; the pronoun it replaces tennis.

A02-02. The coach speaks to Leo and me. The coach speaks to us.

Answer: The pronoun us replaces Leo and me after to.

A02-03. Kai is usually early, but his friends are sometimes late.

Answer: Usually shows a common pattern; sometimes shows an occasional pattern.

A02-04. Do Ava and Ben read comics? — Yes, they do.

Answer: The pronoun they replaces Ava and Ben in the short answer.

A02-05. How often does Sara cycle? — She hardly ever cycles.

Answer: The question asks for frequency; hardly ever means almost never.

A03 · Notice · Question, pronoun and frequency decision box

Read the box. These are the neutral written patterns scored in this module.

A03-01. Present-simple question with be

Answer: Move am/is/are before the subject: Is Mina ready? Are they usually early?

A03-02. Present-simple yes/no question with a lexical verb

Answer: Use Do/Does + subject + base form: Do you walk? Does Mina walk?

A03-03. Wh-question with be

Answer: Use question word + be + subject: Where is the club? Why are they late?

A03-04. Wh-question with a lexical verb

Answer: Use question word + do/does + subject + base form: Where does Mina practise?

A03-05. How often

Answer: Use How often + do/does + subject + base form, or How often + be + subject: How often do you read? How often is the hall busy?

A03-06. Short answers

Answer: Repeat the helper, not the main verb: Yes, she does. No, they don't. Yes, he is. No, we aren't.

A03-07. Base form after does

Answer: Does carries the third-person agreement: Does he play? not Does he plays?

A03-08. Subject pronouns

Answer: Use I, you, he, she, it, we, they as the subject before the verb: She helps us.

A03-09. Object pronouns

Answer: Use me, you, him, her, it, us, them after a verb or preposition: She helps us; I sit beside him.

A03-10. Neutral frequency position

Answer: Usually/often/sometimes/rarely/hardly ever/never normally come before a lexical verb but after be: I often read; I am often tired.

A03-11. Accuracy guardrail

Answer: Subject questions such as Who walks to school? follow a different pattern and are not scored here. Some frequency adverbs can move for emphasis; scored items use unambiguous errors and the neutral target position.

A04 · Notice · Find the question route and the pronoun jobs

For each line: identify BE or DO/DOES; mark the subject; then explain the pronoun or frequency clue.

A04-01. Does Hana often bring lunch?

Answer: DOES; subject Hana; often comes before the lexical verb bring.

A04-02. Are they usually quiet after lunch?

Answer: BE are; subject they; the pronoun they is a subject pronoun and usually follows be.

A04-03. Where do you meet them?

Answer: DO; subject you; the pronoun them is an object pronoun after meet.

A04-04. How often is the art room open?

Answer: BE is; subject the art room; how often asks for frequency.

A04-05. Does Leo sit beside her?

Answer: DOES; subject Leo; the pronoun her is an object pronoun after beside.

A04-06. When do we practise?

Answer: DO; subject we; the pronoun we is a subject pronoun and when asks for time.

A04-07. Why is he late?

Answer: BE is; subject he; the pronoun he is a subject pronoun and why asks for a reason.

A04-08. Do the teachers know us?

Answer: DO; subject the teachers; the pronoun us is an object pronoun after know.

A05 · Build · Build survey questions and clear answers

Put the words in the neutral target order. Add capitals, punctuation and the accurate pronoun where requested.

A05-01. you / do / often / read / after dinner

Answer: Do you often read after dinner?

A05-02. where / does / Amir / play / chess

Answer: Where does Amir play chess?

A05-03. usually / are / your lessons / interesting

Answer: Are your lessons usually interesting?

A05-04. how often / the bus / is / late

Answer: How often is the bus late?

A05-05. when / they / do / practise / together

Answer: When do they practise together?

A05-06. Does Sara help Leo and me? Replace Leo and me in the answer.

Answer: Yes, she helps us. / Yes, she does; she helps us.

A05-07. Do Ava and Ben know Mina? Replace Ava and Ben, then Mina.

Answer: Yes, they know her.

A05-08. sometimes / my brother / walks / with / me

Answer: My brother sometimes walks with me.

A06 · Choose · Which line communicates the intended meaning?

Choose the one accurate neutral written line in each context. Use the intended meaning, not a grammar heading.

A06-01. Ask about Sora's way of travelling to school.

A. How does Sora get to school? B. How Sora gets to school? C. How do Sora get to school?

Answer: A

A06-02. Confirm whether Ali reads before bed.

A. Does Ali reads before bed? B. Does Ali read before bed? C. Is Ali read before bed?

Answer: B

A06-03. Ask whether the classmates are ready.

A. Do your classmates ready? B. Are ready your classmates? C. Are your classmates ready?

Answer: C

A06-04. Replace Mina after the preposition beside.

A. Leo sits beside her. B. Leo sits beside she. C. Her sits beside Leo.

Answer: A

A06-05. Replace Ava and Ben as the subject.

A. Them practise after school. B. They practise after school. C. Their practise after school.

Answer: B

A06-06. Replace my friends and me after to.

- A. The coach speaks to we. B. The coach speaks to they. C. The coach speaks to us.

Answer: C

A06-07. Describe Leo's common chess habit.

- A. Leo often plays chess after school. B. Leo plays often chess after school. C. Leo is often play chess after school.

Answer: A

A06-08. Describe the buses on most mornings.

- A. The buses usually full before eight. B. The buses are usually full before eight. C. The buses are usually be full before eight.

Answer: B

A06-09. Ask about practice frequency.

- A. How often you practise the piano? B. How often are you practise the piano? C. How often do you practise the piano?

Answer: C

A06-10. Give a short positive answer to Does Mei cycle to school?

- A. Yes, she does. B. Yes, she do. C. Yes, she is.

Answer: A

A06-11. Ask for the club's starting time.

- A. What time do the club start? B. What time does the club start? C. What time does the club starts?

Answer: B

A06-12. A learner attends art club on two of five school days.

- A. The learner never attends art club. B. The learner usually attends art club. C. The learner sometimes attends art club.

Answer: C

A07 · Use · Conduct and report a habits survey

Work in English without the decision box. You may interview classmates or invent realistic answers; nobody must reveal private information.

A07-01. Write one yes/no question with be about a routine-related state.

Answer: Open response - Accurate be-subject order; meaning is clear and appropriate for a non-private school habits survey.

A07-02. Write one yes/no question with do or does about a habit.

Answer: Open response - Uses do/does + subject + base form with accurate agreement.

A07-03. Write one where, when or what-time question about a habit.

Answer: Open response - Uses an appropriate question word and accurate be or do/does question order.

A07-04. Write one how often question.

Answer: Open response - Uses How often with accurate be or do/does order and a meaningful routine target.

A07-05. Record two complete or short answers. Use an accurate subject pronoun in each.

Answer: Open response - Two coherent responses; subject pronouns and repeated helpers are accurate.

A07-06. Write two report sentences about one respondent. Use one subject pronoun, one object pronoun and two different frequency expressions.

Answer: Open response - Two independent present-simple report sentences with clear pronoun reference and neutral frequency position.

A07-07. Write a five-sentence survey report. Include one question, its answer, two frequency findings and one comparison between respondents.

Answer: Open response - Five coherent independent sentences; required forms present; question order, pronoun case/reference and frequency meaning are accurate; no visible model copied.

A08 · Check · Diagnose and repair the decision

Each line has one target problem or one unclear reference. Name the error code if you can, then repair it.

A08-01. Where you play basketball after school?

Answer: Where do you play basketball after school?

A08-02. Does Amir walks to school?

Answer: Does Amir walk to school?

A08-03. Does your classroom quiet after lunch?

Answer: Is your classroom quiet after lunch?

A08-04. The answer is 'In the library.' Repair: When do you study after school?

Answer: Where do you study after school?

A08-05. Her often helps we with homework.

Answer: She often helps us with homework.

A08-06. Does Kai play often chess after school?

Answer: Does Kai often play chess after school?

A08-07. He doesn't never read on the bus.

Answer: He never reads on the bus.

A08-08. Does Mei bring lunch? — Yes, she is.

Answer: Does Mei bring lunch? - Yes, she does.

A08-09. The boys told the girls that they were early. The intended meaning is that the girls were early.

Answer: The boys told the girls that the girls were early.

A09 · Check · Use the full repair route

Choose one error from A06, A07 or A08. Follow its route: diagnose, cue, contrast, retry, explain/reveal, then record the next route.

A09-01. Record: original response → error code → retry → what changed → continue/revisit/teacher route.

Answer: Open response - Includes an actual retry, states the decisive question/pronoun/frequency change and records a justified next route.

A10 · Retrieve · Rebuild the survey language from memory

Cover all earlier explanations. Complete the items in English from memory.

A10-01. Complete the lexical-question pattern: question word + ____/____ + subject + ____ form.

Answer: do; does; base.

A10-02. Change to a question: Sara often reads after dinner.

Answer: Does Sara often read after dinner?

A10-03. Write the short negative answer: Are the students usually late?

Answer: No, they aren't. / No, they are not.

A10-04. Complete with pronouns: Mina knows Leo, and ____ often helps ____.

Answer: she; him

A10-05. Reorder: how often / your brother / does / cook / dinner

Answer: How often does your brother cook dinner?

A10-06. Reorder: our teacher / is / rarely / late

Answer: Our teacher is rarely late.

A10-07. Write one new how often question and an accurate short or complete answer.

Answer: Open response - Independent present-simple frequency question with accurate be/do/does order and a coherent answer.

A10-08. Write two report sentences about one person's habits using one subject pronoun, one object pronoun and two different frequency expressions.

Answer: Open response - Two independent, connected sentences; pronoun case/reference and neutral frequency position are accurate.

A11 · Reflect · What clue helped you choose?

Reflect briefly. Confidence helps select practice; it does not change the evidence result.

A11-01. What tells you to begin a question with be rather than do/does?

Answer: Use be first when am/is/are is the main verb; use do/does to support a lexical verb.

A11-02. How do you choose a subject pronoun or an object pronoun?

Answer: Use a subject pronoun as the sentence/clause subject; use an object pronoun after a verb or preposition.

A11-03. Which error code do you most need to revisit, and what evidence shows this?

Answer: Open response - Names a relevant code and links it to actual response/retry evidence.

A11-04. Record confidence from 1–4, then choose: continue, repeat one contrast, revisit A03 or ask for teacher support.

Answer: Open response - Records confidence and an evidence-based route; does not claim mastery from confidence alone.

L0 · Retrieve · L0 — same-session exit

Complete after the earlier pages are closed. No decision box or grammar heading is shown.

L0-01. ____ your friends usually ready before registration? (be)

Answer: Are

L0-02. ____ Hana walk home on Fridays? (do)

Answer: Does

L0-03. ____ does the music club meet? — In Room 6.

Answer: Where

L0-04. Complete with pronouns: Ava knows Ben, and ____ often sits beside ____.

Answer: she; him

L0-05. Reorder: sometimes / we / games / play / after lunch

Answer: We sometimes play games after lunch.

L0-06. Choose the accurate line.

A. Does Mina usually brings a snack? B. Does Mina usually bring a snack? C. Is Mina usually bring a snack?

Answer: B

L0-07. Repair: Do Leo often tired after training?

Answer: Is Leo often tired after training?

L0-08. Write two new survey questions and answer each with a clear pronoun.

Answer: Open response - Two independent questions with accurate written order and two coherent responses with clear pronoun reference.

L1 · Retrieve · L1 — 1-3 day return

Complete without reopening Module 3. Route repeated errors to the matching contrast.

L1-01. ____ often do the students use the library?

Answer: How

L1-02. What time ____ the first lesson start?

Answer: does

L1-03. ____ the art room usually quiet after lunch?

Answer: Is

L1-04. Replace the names: Kai speaks to Mina and me. Kai speaks to ____.

Answer: us

L1-05. Repair: Does your sister studies every evening?

Answer: Does your sister study every evening?

L1-06. Repair: I don't hardly ever take the bus.

Answer: I hardly ever take the bus.

L1-07. Give a short answer: Do Ava and Ben practise together? (yes)

Answer: Yes, they do.

L1-08. Write one question and a three-sentence report using they, them and two frequency expressions.

Answer: Open response - Independent question plus three coherent report sentences; they/them roles and frequency meanings are accurate.

L2 · Retrieve · L2 — routine or happening now?

Complete inside Module 5 or the nearest 7-14 day session. Use the context to choose the question and report form.

L2-01. Ask about Ava's normal travel habit.

Answer: How does Ava usually travel to school?

L2-02. Ask about Ava's action at this moment.

Answer: How is Ava travelling to school at the moment?

L2-03. Choose the routine question.

A. Is Ben practising every Tuesday? B. Does Ben practising every Tuesday? C. Does Ben practise every Tuesday?

Answer: C

L2-04. Complete with pronouns: The teacher is speaking to Ava and Ben. She is speaking to ____.

Answer: them

L2-05. Repair the neutral routine report: Leo plays often chess with his cousin.

Answer: Leo often plays chess with his cousin.

L2-06. Give a short answer: Is the hall usually busy at lunch? (yes)

Answer: Yes, it is.

L2-07. Write one routine question and one contrasting question about now.

Answer: Open response - Uses present simple accurately for the routine and present continuous accurately for the current action; both questions are meaningful and independent.

L2-08. Report both answers in two sentences with clear pronouns.

Answer: Open response - Two coherent independent sentences; pronoun reference is clear and present-time meanings remain distinct.

L3 · Retrieve · L3 — delayed interview transfer gate

Complete in Module 9 or the nearest 21-35 day session. Edit the interview, then produce a new report. An external checker must verify both evidence parts.

L3-01. Edit: How often Maya practises the guitar?

Answer: How often does Maya practise the guitar?

L3-02. Edit: Does she practises alone? — Yes, she does.

Answer: Does she practise alone? - Yes, she does.

L3-03. Edit for clear reference. Intended meaning: Maya's teacher gives Maya new songs. Maya's teacher gives her new songs, and she practises them at home.

Answer: Maya's teacher gives Maya new songs, and Maya practises them at home.

L3-04. Choose the neutral frequency report.

A. Maya is usually practise after dinner. B. Maya practises usually new songs after dinner. C. Maya usually practises new songs after dinner.

Answer: C

L3-05. Create an independent five-question habits interview and a five-sentence report. Include be and do/does questions, how often, subject/object pronouns and three different frequency expressions.

Answer: Open response - Independent interview and coherent report; all required forms present; question order, base forms, short answers, pronoun case/reference and frequency meanings accurate; no visible model copied.

L3-06. External check: record the mixed-editing result, production result and any governed retry before assigning a mastery state.

Answer: Open response - Checker records both mixed discrimination/editing and productive transfer. Retained is eligible only if both pass after retry; confidence alone is ignored.

Module progress check

Complete this after your first attempt and again after feedback.

- ☐ Not yet ☐ Nearly ☐ Secure I can ask present-simple questions with be, do and does.
- ☐ Not yet ☐ Nearly ☐ Secure I can use subject and object pronouns to keep people and things clear.
- ☐ Not yet ☐ Nearly ☐ Secure I can ask and report how often habits happen.
- ☐ Not yet ☐ Nearly ☐ Secure I can conduct and report a short habits survey without the decision box.

One correction I can explain:

My next retrieval date: _____

Present continuous: now and around now

LEARN → NOTICE → BUILD → CHOOSE → USE → CHECK → RETRIEVE → REFLECT

Your goals

- ☐ I can describe actions happening now with be + verb-ing.
- ☐ I can describe a temporary situation around now.
- ☐ I can contrast a routine or state with an action or temporary situation.
- ☐ I can ask, answer and write independently about a live scene.

Name: _____ Class: _____ Date: _____

A01 · Learn · What is happening, and what is changing?

Read each short message. Decide whether it describes an action happening now, a temporary situation around now, or a usual routine. Do not name the tense yet.

A01-01. Please be quiet. Hana is speaking to the class now.

Answer: An action happening now.

A01-02. Our hall is closed, so we are eating lunch in the library this week.

Answer: A temporary situation around now.

A01-03. Leo usually eats lunch in the hall.

Answer: A usual routine.

A01-04. Look! The rain is getting heavier.

Answer: An action or change happening now.

A02 · Learn · See the present from two viewpoints

Read each pair. Explain why the two sentences use different forms even though both connect to present time.

A02-01. Mina walks to school every day. Today, she is taking the bus.

Answer: Walks shows a routine; is taking shows today's action in progress.

A02-02. The art club usually works in the art room. This week, it is working in Room 8 while the art room is closed.

Answer: Usually works shows the normal situation; is working shows a temporary situation around now.

A02-03. I usually sit beside Amir. At the moment, I am sitting beside Mei.

Answer: Usually marks the normal pattern; at the moment marks the action now.

A02-04. Our teacher works in Room 4. She is working in Room 7 this week.

Answer: Works states the normal situation; is working presents a temporary situation.

A02-05. Kai knows the answer. Kai is writing the answer now.

Answer: Knows is a state; is writing is an observable action in progress.

A03 · Notice · Now and around-now decision box

Read the box. These are the neutral written patterns scored in this module.

A03-01. Meaning: happening now

Answer: Use the present continuous for an action in progress at or around the speaking time: Mei is reading now.

A03-02. Meaning: temporary around now

Answer: Use it for a limited present situation: We are using another classroom this week. The action need not happen at this exact second.

A03-03. Affirmative form

Answer: subject + am/is/are + verb-ing: I am reading; she is reading; they are reading.

A03-04. Negative form

Answer: subject + am/is/are + not + verb-ing: He is not sleeping; we aren't waiting.

A03-05. Question and short answer

Answer: am/is/are + subject + verb-ing? - Yes, subject + am/is/are; No, subject + am/is/are + not: Are they waiting? - No, they aren't.

A03-06. -ing spelling

Answer: Usually add -ing (play -> playing). Drop final silent e (write -> writing). Double the final consonant in common short stressed patterns (run -> running). Do not double in open -> opening.

A03-07. Present-simple contrast

Answer: Use the present simple for routines, repeated events, facts and stable states: She usually walks; he knows the answer.

A03-08. Time expressions are clues

Answer: Now and at the moment often support action-in-progress meaning; this week/currently/these days can support temporary meaning. Read the whole context before choosing.

A03-09. State-verb guardrail

Answer: In their ordinary state meanings, know, need, want and like normally use the present simple, not the continuous. Flexible verbs are not scored without a clear context.

A03-10. Scope guardrail

Answer: Future arrangements and special expressive uses of state verbs are valid English but are outside this scored pathway. The target is present action or temporary present situation.

A04 · Notice · Mark the helper, action form and time viewpoint

For each line, identify the be form, the -ing form and the meaning: NOW, TEMPORARY or ROUTINE/STATE.

A04-01. The students are waiting outside now.

Answer: are; waiting; NOW.

A04-02. I am staying with my aunt this week.

Answer: am; staying; TEMPORARY.

A04-03. Mina usually stays after school.

Answer: No continuous helper; no -ing verb; ROUTINE.

A04-04. Is Leo carrying the box at the moment?

Answer: is; carrying; NOW, in an interrogative form.

A04-05. We aren't using the sports hall currently.

Answer: are; using; TEMPORARY, in a negative form.

A04-06. Kai knows where the key is.

Answer: No continuous helper; knows; STATE.

A04-07. Why are the buses stopping here today?

Answer: are; stopping; TEMPORARY/current situation, in an interrogative form.

A04-08. The library normally closes at five.

Answer: No continuous helper; closes; ROUTINE.

A05 · Build · Build accurate present-time messages

Build the sentence or question. Use the context to choose present simple or present continuous and spell the verb accurately.

A05-01. Look! / Amir / run / towards the gate

Answer: Look! Amir is running towards the gate.

A05-02. our normal room is closed / this week / we / use / Room 6

Answer: Our normal room is closed, so this week we are using Room 6.

A05-03. Maya / not write / at the moment

Answer: Maya is not writing at the moment. / Maya isn't writing at the moment.

A05-04. the students / sit / quietly / now?

Answer: Are the students sitting quietly now?

A05-05. what / Leo / make / at the moment?

Answer: What is Leo making at the moment?

A05-06. Mina / usually / walk / home

Answer: Mina usually walks home.

A05-07. I / know / the answer

Answer: I know the answer.

A05-08. her normal room is closed / our teacher / work / in the library / this week

Answer: Her normal room is closed, so our teacher is working in the library this week.

A06 · Choose · Choose the line that fits the whole context

Choose the one accurate neutral written line. Use the meaning of the full context, not one time word alone.

A06-01. The teacher points to Leo, who has a book open in his hands.

A. Leo is reading now. B. Leo reading now. C. Leo does reading now.

Answer: A

A06-02. Mina takes the same bus from Monday to Friday.

A. Mina is taking the bus every weekday. B. Mina takes the bus every weekday. C. Mina taking the bus every weekday.

Answer: B

A06-03. Our usual room is closed for painting, so our location is temporary.

A. We use Room 8 this week. B. We are use Room 8 this week. C. We are using Room 8 this week.

Answer: C

A06-04. Ask about the action you can see at this moment.

A. What Leo is carrying? B. What is Leo carrying? C. What does Leo carrying?

Answer: B

A06-05. The girls are not waiting now.

A. The girls aren't waiting now. B. The girls don't waiting now. C. The girls are no waiting now.

Answer: A

A06-06. Choose the accurately spelt action in progress.

A. Amir is runing to the gate. B. Amir is run to the gate. C. Amir is running to the gate.

Answer: C

A06-07. Choose the accurate form for I.

A. I is making a poster. B. I am making a poster. C. I are making a poster.

Answer: B

A06-08. Kai understands the rule; this is a state, not an observable action in progress.

A. Kai understands the rule. B. Kai is understanding the rule. C. Kai understanding the rule.

Answer: A

A06-09. The activity happens at this exact moment.

A. The children plays outside now. B. The children is playing outside now. C. The children are playing outside now.

Answer: C

A06-10. Give a short negative answer to Is Hana speaking now?

A. No, she isn't. B. No, she doesn't. C. No, she not is.

Answer: A

A06-11. The time word could fit more than one form, so use the stated meaning: a temporary project around now.

A. These days, we build a garden for the science project. B. These days, we are build a garden for the science project. C. These days, we are building a garden for the science project.

Answer: C

A06-12. The action is a stable daily routine, not a temporary change.

A. Leo is walking to school every day. B. Leo walks to school every day. C. Leo walk to school every day.

Answer: B

A07 · Use · Describe a live scene and one temporary change

Work in English without the decision box. You may observe a safe classroom scene or invent one; nobody must be identified or photographed.

A07-01. Write two sentences about actions happening now. Use two different subjects.

Answer: Open response - Two coherent present-continuous affirmative sentences with accurate be agreement and -ing forms.

A07-02. Write one negative sentence about an action that is not happening now.

Answer: Open response - Accurate subject + be + not + verb-ing form with a plausible current meaning.

A07-03. Write one question about an action happening now and give an accurate short answer.

Answer: Open response - Accurate be-subject inversion, verb-ing form and matching be short answer.

A07-04. Write one pair contrasting a usual routine with what is happening now.

Answer: Open response - Present simple expresses the routine; present continuous expresses the action now; the contrast is meaningful.

A07-05. Write one sentence about a temporary change this week or these days.

Answer: Open response - Clear limited present context and accurate present-continuous form; no future-arrangement meaning.

A07-06. Write a five-sentence live-scene description. Include an affirmative, a negative, a question and short answer, and one routine contrast.

Answer: Open response - Five connected independent sentences; all required functions present; be agreement, -ing spelling and present-time meaning are accurate.

A07-07. Add one sentence explaining why one continuous form fits its context better than the present simple.

Answer: Open response - Names an action in progress or temporary situation and links that meaning to the chosen form without claiming every present-time action uses the continuous.

A08 · Check · Diagnose and repair the present-time choice

Each line has one target problem. Name the error code if you can, then repair it.

A08-01. Look! Mina carrying the chairs.

Answer: Look! Mina is carrying the chairs.

A08-02. The students are wait outside now.

Answer: The students are waiting outside now.

A08-03. I is sitting near the window.

Answer: I am sitting near the window.

A08-04. Amir is runing to the bus.

Answer: Amir is running to the bus.

A08-05. Maya is walking to school every day; this is her normal routine.

Answer: Maya walks to school every day.

A08-06. What Leo is writing now?

Answer: What is Leo writing now?

A08-07. The boys are no playing football at the moment.

Answer: The boys are not playing football at the moment. / The boys aren't playing football at the moment.

A08-08. I am knowing the answer.

Answer: I know the answer.

A08-09. The sentence 'She is studying this week' is chosen only because it contains this week; no temporary context is given.

Answer: Add a temporary context, for example: Her usual course has paused, so she is studying online this week. Otherwise choose the form that matches the intended meaning.

A09 · Check · Use the full repair route

Choose one error from A06, A07 or A08. Follow its route: diagnose, cue, contrast, retry, explain/reveal, then record the next route.

A09-01. Record: original response → error code → retry → what changed → continue/revisit/teacher route.
Answer: Open response - Includes an actual retry, states the decisive form or meaning change and records a justified next route.

A10 · Retrieve · Rebuild the present-time system from memory

Cover all earlier explanations. Complete the items in English from memory.

A10-01. Complete the form: subject + ____/____/____ + verb-____.
Answer: am; is; are; ing.

A10-02. Write the negative: Leo is carrying a box.
Answer: Leo is not carrying a box. / Leo isn't carrying a box.

A10-03. Change to a question: The students are working quietly.
Answer: Are the students working quietly?

A10-04. Spell the -ing forms: write; run; open.
Answer: writing; running; opening.

A10-05. Choose and complete: Mina usually ____ (walk), but today she ____ (take) the bus.
Answer: walks; is taking.

A10-06. Repair: We are need more time.
Answer: We need more time.

A10-07. Write one new question and short answer about an action happening now.
Answer: Open response - Independent present-continuous question with accurate be order, verb-ing and matching short answer.

A10-08. Write one routine/now contrast and one temporary-change sentence.
Answer: Open response - Independent present-simple/present-continuous contrast plus a clearly temporary present situation; accurate forms and meaning.

A11 · Reflect · Which meaning clue decided the form?

Reflect briefly. Confidence helps select practice; it does not change the evidence result.

A11-01. What two meanings does the present continuous target in this module?
Answer: An action happening now and a temporary situation around now.

A11-02. Why is one time expression not enough to prove the tense choice?
Answer: The whole context decides whether the meaning is routine, state, action in progress or temporary situation.

A11-03. Which error code do you most need to revisit, and what evidence shows this?
Answer: Open response - Names a relevant code and links it to actual response/retry evidence.

A11-04. Record confidence from 1-4, then choose: continue, repeat one contrast, revisit A03 or ask for teacher support.
Answer: Open response - Records confidence and an evidence-based route; does not claim mastery from confidence alone.

L0 · Retrieve · L0 — same-session exit

Close the module. Complete without notes or headings.

L0-01. Look! The dog ____ (run) across the field.

Answer: is running.

L0-02. Our normal room is closed, so we ____ (work) in the library this week.

Answer: are working.

L0-03. Mina ____ (know) the answer.

Answer: knows.

L0-04. Repair: Are Leo carrying the bags?

Answer: Is Leo carrying the bags?

L0-05. Write the short answer: Are the girls waiting? (negative)

Answer: No, they aren't. / No, they are not.

L0-06. Write one accurate sentence about an action happening now.

Answer: Open response - Unsupported accurate present-continuous form with plausible now meaning.

L0-07. Write one accurate sentence about a temporary situation around now.

Answer: Open response - Unsupported accurate present-continuous form with a clear limited present context.

L0-08. Write one routine/now contrast.

Answer: Open response - One present-simple routine and one present-continuous current action with a meaningful contrast.

L1 · Retrieve · L1 — 1-3-day return

Complete later without the decision box. Retry every routed error before recording evidence.

L1-01. The library normally stays open until five, but a power problem means it ____ (close) now.

Answer: is closing.

L1-02. Repair: What are Mina make at the moment?

Answer: What is Mina making at the moment?

L1-03. Repair: We are siting beside the door.

Answer: We are sitting beside the door.

L1-04. Choose the state form and explain: I need / am needing a pencil.

Answer: I need a pencil; need expresses a state here.

L1-05. Write one question about a visible action and answer it negatively.

Answer: Open response - Accurate unsupported present-continuous question and negative short answer.

L1-06. Write three linked sentences: a routine, a different action now and one temporary change.

Answer: Open response - Three independent coherent sentences with accurate simple/continuous choices and clear time viewpoints.

L2 · Retrieve · L2 — mixed return in S7-M06

In S7-M06 or the timetable equivalent, mix this module with earlier question and frequency work. No target heading is shown.

L2-01. Ask about the visible action: Leo is carrying a drum.

Answer: What is Leo carrying?

L2-02. Complete the contrast: We usually ____ (eat) in the hall, but this week we ____ (eat) outside.

Answer: eat; are eating.

L2-03. Repair: Does Mina writing now?

Answer: Is Mina writing now?

L2-04. Repair: The boys isn't waiting at the moment.

Answer: The boys aren't waiting at the moment. / The boys are not waiting at the moment.

L2-05. Write one how-often question about a routine and one question about an action now.

Answer: Open response - Accurate present-simple frequency question and present-continuous current-action question; meanings are distinct.

L2-06. Write a four-sentence report contrasting ordinary routines with today's temporary scene.

Answer: Open response - Coherent independent transfer with accurate questions or statements, agreement, -ing spelling and meaning choices.

L3 · Retrieve · L3 — 21-35-day retained-evidence gate

In S7-M10 or the timetable equivalent, complete the unseen scene task in English. An external checker must verify both mixed editing and independent production after any governed retry.

L3-01. Edit: Look! Mina carry a box, and the boys is waiting by the door.

Answer: Look! Mina is carrying a box, and the boys are waiting by the door.

L3-02. Edit for intended routine/now meaning: Leo is usually walking home, but today he takes the bus now.

Answer: Leo usually walks home, but today he is taking the bus.

L3-03. Edit: What does Hana making? — No, she doesn't.

Answer: What is Hana making? (A wh-question needs a complete information answer, for example: She is making a poster.)

L3-04. Write an unseen six-sentence scene report: two actions now, one negative, one question with answer, one routine contrast and one temporary change.

Answer: Open response - Externally checked independent transfer; all six functions present; accurate be agreement, -ing spelling, question/negative form and best-fit simple/continuous meaning.

L3-05. Record the external check, any diagnostic code and corrected retry. State whether both mixed editing and independent production passed.

Answer: Open response - Names checker evidence, records governed retry if needed and makes a Retained claim only when both delayed components pass.

Module progress check

Complete this after your first attempt and again after feedback.

- ☐ Not yet ☐ Nearly ☐ Secure I can describe actions happening now with be + verb-ing.
- ☐ Not yet ☐ Nearly ☐ Secure I can describe a temporary situation around now.
- ☐ Not yet ☐ Nearly ☐ Secure I can contrast a routine or state with an action or temporary situation.
- ☐ Not yet ☐ Nearly ☐ Secure I can ask, answer and write independently about a live scene.

One correction I can explain:

My next retrieval date: _____

This page is intentionally blank.

Present-time choices

LEARN → NOTICE → BUILD → CHOOSE → USE → CHECK → RETRIEVE → REFLECT

Your goals

- ☐ I can distinguish a routine or state from an action now or temporary situation.
- ☐ I can use the whole context instead of following one time word.
- ☐ I can choose accurate simple and continuous present forms in questions and statements.
- ☐ I can write two paragraphs contrasting usual life with this week.

Name: _____ Class: _____ Date: _____

A01 · Learn · What kind of present meaning is this?

Read each message. Decide whether it presents a routine, stable state, action happening now or temporary situation. Do not choose from a tense-labelled heading.

A01-01. Leo walks to school from Monday to Friday.

Answer: A routine.

A01-02. Please wait. Leo is talking to the teacher at the moment.

Answer: An action happening now.

A01-03. Our usual classroom is closed, so we are using Room 5 this week.

Answer: A temporary situation around now.

A01-04. I understand the instructions now.

Answer: A stable state at present; now does not automatically require the continuous.

A02 · Learn · The same time words can support different viewpoints

Read each pair. Explain the meaning contrast rather than naming only the verb form.

A02-01. Mina usually walks to school. This week, she is taking the bus because the road is closed.

Answer: Usually walks is the normal routine; is taking presents a temporary change.

A02-02. Kai needs help. The teacher is speaking to him now.

Answer: Needs is a state; is speaking is an observable action in progress.

A02-03. Mina usually practises after school. This week, she is practising at lunch every day for the concert.

Answer: The first sentence is a routine; the second is a temporary repeated activity. Every day does not mechanically force the present simple.

A02-04. The library normally uses the front entrance. It is using the side entrance currently while the front door is repaired.

Answer: Normally uses is the stable pattern; is using presents a temporary situation.

A02-05. I like art club. At the moment, I am making a poster for it.

Answer: Like is an ordinary state meaning; am making is an action happening now.

A03 · Notice · Meaning-first present-choice box

Read the box. Every scored decision uses the whole context.

A03-01. Routine or repeated event

Answer: Use the present simple: Mina usually walks; the club meets every Tuesday.

A03-02. Stable state

Answer: Use the present simple for ordinary meanings such as know, understand, need, want and like: I understand now.

A03-03. Action happening now

Answer: Use am/is/are + verb-ing: Leo is reading at the moment.

A03-04. Temporary situation around now

Answer: Use am/is/are + verb-ing when the context presents a limited current change: We are using Room 5 this week.

A03-05. Time words are evidence, not commands

Answer: Usually and often often support routines; now and currently often support current action or temporary meaning. Every day can occur inside a temporary period. Read the reason and viewpoint.

A03-06. Present-simple form

Answer: Affirmative: base form, with -s/-es for he/she/it. Negative/questions: do/does + base form. Be forms agree and invert without do/does.

A03-07. Present-continuous form

Answer: Affirmative/negative: subject + am/is/are (+ not) + verb-ing. Question: am/is/are + subject + verb-ing? Short answers repeat be.

A03-08. State-verb guardrail

Answer: The ordinary state meanings above normally use the present simple. Some verbs have other dynamic meanings, so flexible cases are not scored without decisive context.

A03-09. Paragraph control

Answer: Keep the usual-life time frame clear in one paragraph and signal the limited this-week frame in the other. Shift form only when the meaning shifts.

A03-10. Scope guardrail

Answer: Future arrangements, expressive state-verb uses and narrative present are valid English but outside this scored pathway.

A04 · Notice · Find the decisive meaning evidence

For each line, label ROUTINE, STATE, NOW or TEMPORARY. Then identify the words or context—not only one time expression—that support the choice.

A04-01. Maya often reads before bed.

Answer: ROUTINE; often plus the repeated before-bed context.

A04-02. Maya is reading a message at the moment.

Answer: NOW; the message is an action in progress at the stated moment.

A04-03. The school is using a smaller hall this month because the main hall is closed.

Answer: TEMPORARY; the closure creates a limited current change.

A04-04. I know the answer now.

Answer: STATE; know has its ordinary state meaning, despite now.

A04-05. This week, Leo is walking to school every day because his bus route is closed.

Answer: TEMPORARY; the closure limits the repeated action to this week.

A04-06. Leo walks to school every day; it is his normal journey.

Answer: ROUTINE; the sentence explicitly states the normal pattern.

A04-07. Are the students working in the library now?

Answer: NOW; the question asks about an action in progress.

A04-08. Does the library normally open at eight?

Answer: ROUTINE; normally asks about the usual schedule.

A05 · Build · Build the form from the meaning

Complete each message. The context decides the present form; then apply accurate agreement, question or spelling rules.

A05-01. usual routine: Mina ____ (walk) home after school.

Answer: walks.

A05-02. visible now: Look! Mina ____ (run) towards the gate.

Answer: is running.

A05-03. temporary reason: Our room is closed, so we ____ (work) in the library this week.

Answer: are working.

A05-04. ordinary state despite now: I ____ (understand) the rule now.

Answer: understand.

A05-05. temporary repeated action: This week, Leo ____ (practise) at lunch every day because the concert is near.

Answer: is practising.

A05-06. routine negative: Maya ____ (not/use) the bus normally.

Answer: does not use / doesn't use.

A05-07. action-now question: what / the students / make / at the moment?

Answer: What are the students making at the moment?

A05-08. two-frame contrast: normally / we / eat in the hall; this week / we / eat outside because the hall is closed

Answer: We normally eat in the hall, but this week we are eating outside because the hall is closed.

A06 · Choose · Choose from meaning, not a tense label

Choose the one accurate line for the full context. Every wrong option routes to a specific repair.

A06-01. This is Leo's normal journey from Monday to Friday.

A. Leo is taking the bus every weekday. B. Leo takes the bus every weekday. C. Leo take the bus every weekday.

Answer: B

A06-02. The teacher points to Mina, who has a book open and is looking at its pages.

A. Mina is reading now. B. Mina reads now. C. Mina reading now.

Answer: A

A06-03. The usual room is closed for one week.

A. We use Room 6 this week. B. We are use Room 6 this week. C. We are using Room 6 this week.

Answer: C

A06-04. Kai has the information in his mind; this is an ordinary state meaning.

A. Kai is knowing the answer. B. Kai knows the answer. C. Kai know the answer.

Answer: B

A06-05. The bus route is closed for this week only, so the repeated journey is temporary rather than Mina's normal routine.

A. This week, Mina is walking every day. B. Mina walks every day; this is her permanent routine. C. This week, Mina walking every day.

Answer: A

A06-06. The speaker has reached a stable understanding at this moment.

A. I am understand now. B. I am understanding now. C. I understand now.

Answer: C

A06-07. Ask about Maya's normal after-school routine.

A. Is Maya practise after school? B. Does Maya practise after school? C. Does Maya practises after school?

Answer: B

A06-08. The temporary action is not happening at this moment.

A. The students aren't working outside now. B. The students don't working outside now. C. The students are no work outside now.

Answer: A

A06-09. Choose the accurately formed and spelt current action.

A. Leo is runing to the gate. B. Leo is runs to the gate. C. Leo is running to the gate.

Answer: C

A06-10. Ask about an observable action happening now.

A. What do the students making? B. What are the students making? C. What the students are making?

Answer: B

A06-11. The class normally uses paper, but a one-month trial is changing that practice.

A. These days, the class is using tablets during the trial. B. The class normally uses tablets; this is not a trial. C. These days, the class are using tablets during the trial.

Answer: A

A06-12. This is a stable preference, not an observable action.

A. Mina is like art club. B. Mina is liking art club. C. Mina likes art club.

Answer: C

A07 · Use · Usual life and this week

Write in English without the decision box. You may use a real non-private school routine or invent a safe scenario.

A07-01. Plan two headings privately: USUAL LIFE and THIS WEEK. List three meaning points for each; do not write tense names as prompts.

Answer: Open response - Six meaning notes separate ordinary routines/states from limited current changes without answer-leaking tense labels in the final text.

A07-02. Write the usual-life paragraph in at least four sentences. Include two routines and one ordinary state.

Answer: Open response - Coherent paragraph with accurate present-simple routines/state and relevant frequency language.

A07-03. Write the this-week paragraph in at least four sentences. Include one temporary change and one action happening now.

Answer: Open response - Coherent limited current frame with accurate present-continuous temporary/current meanings.

A07-04. Include one sentence whose time expression could fit either form; make the reason or contrast decisive.

Answer: Open response - Full context—not the time expression alone—clearly supports the chosen viewpoint.

A07-05. Include one ordinary state sentence in either paragraph.

Answer: Open response - Uses a common state verb in the present simple with a clear ordinary state meaning.

A07-06. Add one question and appropriate answer about the current temporary situation.

Answer: Open response - Uses accurate be question order and a matching be short answer or requested information.

A07-07. Revise the complete two-paragraph contrast. Underline the meaning evidence for each form, then remove any tense-name scaffolds before submission.

Answer: Open response - Two independent connected paragraphs; at least eight sentences; routine/state vs action-now/temporary meanings, forms, agreement, spelling and time-frame signalling are accurate.

A08 · Check · Diagnose the present-time decision

Each item has one primary target problem. Name the error code, repair it and explain the meaning evidence.

A08-01. Maya is walking to school every day; the writer says this is her permanent normal routine.

Answer: Maya walks to school every day.

A08-02. I am liking this club.

Answer: I like this club.

A08-03. A learner says: 'These days always means present continuous.'

Answer: These days can support a routine, state or temporary situation; choose from the full context, not the expression alone.

A08-04. Does Mina walks home normally?

Answer: Does Mina walk home normally?

A08-05. The students working in Room 5 this week because their room is closed.

Answer: The students are working in Room 5 this week because their room is closed.

A08-06. Leo is runing towards the gate now.

Answer: Leo is running towards the gate now.

A08-07. The THIS WEEK paragraph says: 'We usually use Room 8' although Room 8 is a temporary one-week change.

Answer: This week, we are using Room 8.

A08-08. The writer intends to show a temporary change from classroom study but writes only: 'She studies online this week.'

Answer: Her classroom is closed, so she is studying online this week. The repair makes the intended temporary contrast explicit; the original could describe a schedule.

A08-09. Does Leo reading now? — Yes, he does.

Answer: Is Leo reading now? - Yes, he is.

A09 · Check · Use the full repair route

Choose one error from A06, A07 or A08. Follow Diagnose → Cue → Contrast → Retry → Explain/Reveal → Route.

A09-01. Record: original response → error code → retry → decisive meaning/form change → continue/revisit/teacher route.

Answer: Open response - Includes an actual retry, identifies the decisive contextual or form evidence and records a justified next route.

A10 · Retrieve · Reconstruct the present-choice system

Cover all explanations. Complete in English from memory.

A10-01. Name the four meaning categories used for present choices.

Answer: Routine/repeated event; stable state; action happening now; temporary situation around now.

A10-02. Complete: Mina usually ____ (walk), but this week she ____ (take) the bus because the road is closed.

Answer: walks; is taking.

A10-03. Repair: I am needing a pencil now.

Answer: I need a pencil now.

A10-04. Explain why every day does not decide the tense in: This week, Mina is practising every day for the concert.

Answer: The whole sentence presents a repeated action inside a limited temporary week.

A10-05. Repair: What does Leo carrying at the moment?

Answer: What is Leo carrying at the moment?

A10-06. Spell the forms: make → ____; run → ____; open → ____.

Answer: making; running; opening.

A10-07. Write one routine/state pair and one action-now/temporary pair without headings.

Answer: Open response - Four independent sentences with decisive meanings and accurate simple/continuous forms.

A10-08. Write a four-sentence mini-contrast between usual life and this week.

Answer: Open response - Two clear time frames; accurate present choices, agreement and contextual evidence; no visible model copied.

A11 · Reflect · What decided your form?

Reflect briefly. Confidence selects practice but does not change the evidence result.

A11-01. What question should you ask before looking at a time expression?

Answer: Is the meaning a routine, state, action happening now or temporary situation?

A11-02. Why can now appear with the present simple?

Answer: A verb can express a present state, for example I understand now; the whole meaning controls the form.

A11-03. Which error code do you most need to revisit, and what evidence shows this?

Answer: Open response - Names a relevant code and links it to actual response/retry evidence.

A11-04. Record confidence from 1-4, then choose: continue, repeat one contrast, revisit A03 or ask for teacher support.

Answer: Open response - Records confidence and an evidence-based route; does not claim mastery from confidence alone.

L0 · Retrieve · L0 — same-session exit

Close the module. Complete without notes or tense headings.

L0-01. Normal routine: Leo ____ (take) the bus every weekday.

Answer: takes.

L0-02. Temporary reason: His route is closed, so this week he ____ (walk) every day.

Answer: is walking.

L0-03. Ordinary state: I ____ (understand) now.

Answer: understand.

L0-04. Visible action: Look! The children ____ (run) outside.

Answer: are running.

L0-05. Repair: Does Mina making a poster now?

Answer: Is Mina making a poster now?

L0-06. Write one routine/temporary contrast using a decisive reason.

Answer: Open response - Unsupported accurate present-simple routine and present-continuous temporary change with clear context.

L0-07. Write one state/action-now contrast.

Answer: Open response - Unsupported ordinary state in the present simple and observable action in the present continuous.

L0-08. Write two linked sentences for a usual-life/this-week mini-paragraph.

Answer: Open response - Clear frame shift and accurate meaning-based form choices.

L1 · Retrieve · L1 — 1-3-day return

Complete later without the decision box. Retry every routed error before recording evidence.

L1-01. Our class normally ____ (use) books, but it ____ (try) tablets this month during a short pilot.

Answer: uses; is trying.

L1-02. Repair: These days means continuous, so I am knowing the new rule.

Answer: I know the new rule now; know expresses an ordinary state, and the time expression does not mechanically select the continuous.

L1-03. Repair: The students is writing outside today because their room is closed.

Answer: The students are writing outside today because their room is closed.

L1-04. Explain the choice: This week, Mina is practising every day because the concert is on Friday.

Answer: A repeated action occurs inside a clearly limited temporary week; every day does not force the simple form.

L1-05. Write one question about a routine and one about an action happening now; answer both.

Answer: Open response - Accurate do/does routine question and be + verb-ing current-action question with matching answers.

L1-06. Write two short paragraphs of two sentences each: normal life, then a temporary current change.

Answer: Open response - Two signalled frames with accurate present choices and enough context for an external reader to identify each viewpoint.

L2 · Retrieve · L2 — mixed return in S7-M07

In S7-M07 or the timetable equivalent, retrieve present-time choices among mixed time frames. No present-tense heading is shown.

L2-01. Choose the present routine: A. Yesterday Leo walked home. B. Leo usually walks home. C. Leo is walking home at this exact moment.

Answer: B

L2-02. Choose the temporary current situation: A. We normally use Room 4. B. We used Room 4 yesterday. C. Our room is closed, so we are using Room 6 this week.

Answer: C

L2-03. Repair the present state: I am understanding the story now.

Answer: I understand the story now.

L2-04. Repair the current question: What do the students writing at the moment?

Answer: What are the students writing at the moment?

L2-05. Write one sentence each for a finished past event, present routine and action happening now.

Answer: Open response - Three clearly signalled time frames; the present targets use accurate simple and continuous forms.

L2-06. Write a four-sentence current report that does not drift into the surrounding narrative-past frame.

Answer: Open response - Coherent present frame with routine/state and action-now/temporary choices; no accidental unexplained past shift.

L3 · Retrieve · L3 — 21-35-day retained-evidence gate

In S7-M11 or the timetable equivalent, complete the unseen school-change task in English. An external checker must verify both mixed editing and independent two-paragraph production after any governed retry.

L3-01. Edit: Our class usually is using books, but this month we try tablets during a short pilot.

Answer: Our class usually uses books, but this month we are trying tablets during a short pilot.

L3-02. Edit: I am needing help now, and the teacher explains the answer at this exact moment.

Answer: I need help now, and the teacher is explaining the answer at this exact moment.

L3-03. Edit: Does the class using Room 8 this week? — Yes, it does.

Answer: Is the class using Room 8 this week? - Yes, it is.

L3-04. Write an unseen two-paragraph report of at least eight sentences: usual school life, then a clearly temporary change this week. Include one state, one action now, one question/answer and one time expression whose meaning is made decisive by context.

Answer: Open response - Externally checked independent transfer; two coherent frames and all required functions; accurate meaning-based present choices, agreement, spelling and question forms.

L3-05. Record the external check, any diagnostic code and corrected retry. State whether both mixed editing and independent production passed.

Answer: Open response - Names checker evidence, records governed retry if needed and makes a Retained claim only when both delayed components pass.

Module progress check

Complete this after your first attempt and again after feedback.

☐ Not yet ☐ Nearly ☐ Secure I can distinguish a routine or state from an action now or temporary situation.

☐ Not yet ☐ Nearly ☐ Secure I can use the whole context instead of following one time word.

☐ Not yet ☐ Nearly ☐ Secure I can choose accurate simple and continuous present forms in questions and statements.

☐ Not yet ☐ Nearly ☐ Secure I can write two paragraphs contrasting usual life with this week.

One correction I can explain:

My next retrieval date: _____

This page is intentionally blank.

Past simple: finished events

LEARN → NOTICE → BUILD → CHOOSE → USE → CHECK → RETRIEVE → REFLECT

Your goals

- ☐ I can distinguish a present routine from a completed event in a finished past time.
- ☐ I can use regular and common irregular past forms accurately.
- ☐ I can make lexical past negatives and questions with did plus the base form, and use was/were separately.
- ☐ I can write and ask questions about a coherent recent finished event.

Name: _____ Class: _____ Date: _____

A01 · Learn · Finished time or usual routine?

Read each message. Decide whether it tells a usual present routine or one or more events inside a completed past time.

A01-01. Mina usually walks to school.

Answer: A usual present routine.

A01-02. Mina walked to school yesterday because the bus did not arrive.

Answer: Finished events inside yesterday.

A01-03. Our club meets every Friday.

Answer: A usual present routine.

A01-04. Last Friday, our club met in the library and made a poster.

Answer: Finished events inside last Friday.

A02 · Learn · A completed time frame changes the story

Read each pair. Explain the time-frame contrast before naming forms.

A02-01. Leo usually plays football after school. Yesterday, he played basketball instead.

Answer: Usually presents a routine; yesterday presents one completed past event.

A02-02. Maya often sees her cousin. Two days ago, she saw her at the market.

Answer: Often presents a routine; two days ago presents a completed past meeting.

A02-03. We normally have lunch at school. Last week, we had lunch in the park once.

Answer: The first is the normal pattern; the second is a finished event in a completed week.

A02-04. Kai did not take the bus yesterday. He walked home instead.

Answer: Both clauses report completed past events; did not carries the negative past marking and take stays in the base form.

A02-05. When did Mina arrive? She arrived at six.

Answer: The question and answer locate a completed arrival at a finished time.

A03 · Notice · Finished-past meaning and form box

Read the complete box. Use the finished time frame and message together; a time expression is evidence, not a magic switch.

A03-01. Core meaning

Answer: Use the past simple to present an event or state as completed inside a finished past time: Mina arrived yesterday.

A03-02. Regular affirmative

Answer: Most regular verbs add -ed: work -> worked; live -> lived; study -> studied; stop -> stopped.

A03-03. Common irregular affirmative

Answer: Some verbs change: go -> went, see -> saw, have -> had, make -> made, take -> took, come -> came, give -> gave, write -> wrote, read -> read /red/.

A03-04. Lexical-verb negative

Answer: Subject + did not/didn't + base form: Kai didn't take the bus. Do not add a second past marking.

A03-05. Lexical-verb question

Answer: Did + subject + base form ...?; question word + did + subject + base form ...?: Did Maya go? When did she arrive?

A03-06. Short answers

Answer: Repeat did: Yes, she did. / No, she didn't.

A03-07. Past be

Answer: Use was/were, wasn't/weren't and inversion without did: Maya was tired. Were they at school?

A03-08. Present-routine contrast

Answer: Usually, often and every day can present a current routine; yesterday, last week, two days ago and in 2024 can locate a finished past event. Read the whole message.

A03-09. Sequence control

Answer: Then, afterwards and eventually can order completed events, but they do not form the past tense. Keep each verb accurate inside the established frame.

A03-10. Scope guardrail

Answer: Past-continuous background is reserved for S7-M07; present-perfect links are reserved for S7-M08. Detailed -ed pronunciation is also outside this module. This module scores finished-event meaning and past-simple form only.

A04 · Notice · Find the finished frame and past carrier

For each line, identify (1) the routine or finished-event meaning, (2) the decisive evidence and (3) where past marking appears.

A04-01. Mina usually walks home.

Answer: Routine; usually and the general statement; present -s on walks.

A04-02. Mina walked home yesterday.

Answer: Finished event; yesterday; -ed on walked.

A04-03. Leo saw the match two days ago.

Answer: Finished event; two days ago; irregular past form saw.

A04-04. Leo didn't see the match yesterday.

Answer: Finished negative; yesterday; did not carries past marking and see is the base form.

A04-05. Did Leo see the match last week?

Answer: Finished question; last week; did carries past marking and see is the base form.

A04-06. The pupils were in Room 4 yesterday.

Answer: Finished past state/location; yesterday; were is the past form of be.

A04-07. When did the club meet?

Answer: The question asks for a finished time; did carries past marking and meet is the base form.

A04-08. We arrived, then we made a poster and eventually left.

Answer: A completed sequence; the established past frame plus then/eventually; arrived, made and left are past forms.

A05 · Build · Build accurate finished-event messages

Complete each message from its meaning. Use one past carrier only in lexical negatives/questions, and use the separate was/were system for be.

A05-01. finished affirmative: Yesterday, Mina ____ (walk) home.

Answer: walked.

A05-02. regular spelling: Last week, Leo ____ (study) for the quiz.

Answer: studied.

A05-03. regular spelling: The bus ____ (stop) near the library yesterday.

Answer: stopped.

A05-04. irregular affirmative: We ____ (go) to the science room two days ago.

Answer: went.

A05-05. irregular affirmative: Maya ____ (write) three notes last Friday.

Answer: wrote.

A05-06. negative: Kai ____ (not/take) the bus yesterday.

Answer: did not take / didn't take.

A05-07. yes/no question: Leo / see / the match / last week?

Answer: Did Leo see the match last week?

A05-08. information question: when / Mina / arrive?

Answer: When did Mina arrive?

A05-09. past be negative: The pupils ____ (not/be) in Room 2 yesterday.

Answer: were not / weren't.

A05-10. sequence: we / arrive; then / make a poster; afterwards / take it to class

Answer: We arrived; then we made a poster; afterwards, we took it to class.

A06 · Choose · Choose from the completed meaning

Choose the one accurate line for the full context. Each distractor routes to a specific repair.

A06-01. This is Mina's normal journey every school day.

A. Mina walked home every school day. B. Mina walks home every school day. C. Mina walk home every school day.

Answer: B

A06-02. The walk was completed yesterday.

A. Mina walked home yesterday. B. Mina walks home yesterday. C. Mina did walked home yesterday.

Answer: A

A06-03. Choose the correct regular spelling.

A. Leo studied last night. B. Leo studyd last night. C. Leo studied last night.

Answer: C

A06-04. The trip happened two days ago.

A. We goed to the museum. B. We went to the museum. C. We did went to the museum.

Answer: B

A06-05. The speaker denies a completed bus journey.

- A. Kai didn't take the bus. B. Kai didn't took the bus. C. Kai not took the bus.

Answer: A

A06-06. Ask whether Maya saw the match last week.

- A. Did Maya saw the match? B. Saw Maya the match? C. Did Maya see the match?

Answer: C

A06-07. The pupils' location yesterday is negative.

- A. The pupils didn't be in Room 4. B. The pupils weren't in Room 4. C. The pupils wasn't in Room 4.

Answer: B

A06-08. Ask for the finished arrival time.

- A. When did Leo arrive? B. When Leo did arrive? C. When did Leo arrived?

Answer: A

A06-09. The story frame is last Saturday; all three actions finished.

- A. We arrived, then make a poster and eventually left. B. We arrive, then made a poster and eventually leave.
C. We arrived, then made a poster and eventually left.

Answer: C

A06-10. Choose the accurate question and short answer.

- A. Did Mina go? — Yes, she went. B. Did Mina go? — Yes, she did. C. Did Mina went? — Yes, she did.

Answer: B

A06-11. A date alone must fit the intended completed event.

- A. In 2024, our class made a model garden for one project. B. In 2024, our class makes a model garden for one project. C. In 2024, our class did made a model garden for one project.

Answer: A

A06-12. Choose the accurately formed past-be question.

- A. Did the pupils were ready? B. Were ready the pupils? C. Were the pupils ready?

Answer: C

A07 · Use · A recent finished event

Write and ask about a real non-private recent event or invent a safe school/community event. Do not use the form box during the first attempt.

A07-01. Choose one clearly finished time, such as yesterday or last Saturday, and list five event points privately.

Answer: Open response - A completed time boundary and five safe, non-private event points; no tense-labelled answer prompts in the submitted text.

A07-02. Write an opening that establishes the finished time and place.

Answer: Open response - Clear completed past frame with accurate past simple or past be.

A07-03. Write at least five linked event sentences. Use two regular and three common irregular past forms.

Answer: Open response - Coherent finished sequence with at least five accurate target verbs.

A07-04. Use two of then, afterwards and eventually without letting those words replace verb-form decisions.

Answer: Open response - Sequence links are meaningful and every lexical verb independently carries accurate form.

A07-05. Add one accurate negative about something that did not happen.

Answer: Open response - Did not/didn't + base form, or accurate past be negative where meaning requires be.

A07-06. Ask two questions about the event and write matching short or information answers.

Answer: Open response - At least one did + base question and matching answer; any be question uses inversion without did.

A07-07. Revise and submit at least eight connected sentences plus the two questions. Check that the finished frame never changes accidentally.

Answer: Open response - Independent safe transfer; coherent finished frame, accurate regular/irregular forms, negative, questions and sequence links.

A08 · Check · Diagnose the finished-event system

Each item has one primary problem. Name the error code, repair it and explain the decisive meaning or form evidence.

A08-01. Yesterday, Mina walks home.

Answer: Yesterday, Mina walked home.

A08-02. Leo stoped near the gate last week.

Answer: Leo stopped near the gate last week.

A08-03. We goed to the library two days ago.

Answer: We went to the library two days ago.

A08-04. Maya didn't wrote the note.

Answer: Maya didn't write the note.

A08-05. Did the pupils were ready yesterday?

Answer: Were the pupils ready yesterday?

A08-06. Kai not took the bus yesterday.

Answer: Kai did not take / didn't take the bus yesterday.

A08-07. A learner says: 'Yesterday automatically makes every nearby verb past.'

Answer: Yesterday supports a finished frame, but each intended event and clause still needs an accurate form; quoted facts or present routines may have another frame.

A08-08. Last Saturday, we arrived, then make a poster and eventually leave.

Answer: Last Saturday, we arrived, then made a poster and eventually left.

A08-09. When Leo did arrive? — At six.

Answer: When did Leo arrive? - At six.

A09 · Check · Use the complete repair route

Choose one error from A06, A07 or A08. Follow Diagnose → Cue → Contrast → Retry → Explain/Reveal → Route.

A09-01. Record: original response → error code → retry → decisive time/form change → continue/revisit/teacher route.

Answer: Open response - Includes an actual retry, explains the decisive finished-time or form evidence and records a justified next route.

A10 · Retrieve · Reconstruct the finished-event system

Cover all explanations. Complete in English from memory.

A10-01. Explain the central contrast: Mina usually walks home / Mina walked home yesterday.

Answer: The first is a present routine; the second presents a completed event inside yesterday.

A10-02. Write the regular past forms: live, study, stop, open.

Answer: lived; studied; stopped; opened.

A10-03. Write the common irregular past forms: go, see, have, make, take, write.

Answer: went; saw; had; made; took; wrote.

A10-04. Repair: Did Maya went home?

Answer: Did Maya go home?

A10-05. Repair: The pupils didn't be tired.

Answer: The pupils weren't tired.

A10-06. Build a question and short answer from: Leo / see the match / yesterday / yes.

Answer: Did Leo see the match yesterday? - Yes, he did.

A10-07. Write a negative sentence with didn't and the base form of an irregular verb.

Answer: Open response - Accurate completed meaning and did not/didn't + irregular verb base form.

A10-08. Write three linked finished events using then and afterwards.

Answer: Open response - Three accurate past-simple clauses in one coherent completed frame; sequence words link rather than form the tense.

A10-09. Write one present-routine/finished-event contrast without headings.

Answer: Open response - Two decisive time frames with accurate present simple and past simple forms.

A11 · Reflect · What carried the past meaning?

Reflect briefly. Confidence selects practice but does not change the evidence result.

A11-01. What meaning question comes before form choice?

Answer: Is the event presented as completed inside a finished past time, or as a current routine/state?

A11-02. Why is didn't went inaccurate?

Answer: Did already carries past marking, so the lexical verb must be the base form go.

A11-03. Which error code do you most need to revisit, and what response/retry evidence shows this?

Answer: Open response - Names a relevant code and links it to actual evidence.

A11-04. Record confidence from 1–4, then choose: continue, repeat one contrast, revisit A03 or ask for teacher support.

Answer: Open response - Records confidence and an evidence-based route; does not claim mastery from confidence alone.

L0 · Retrieve · L0 — same-session exit

Close the module. Complete without notes or a past-tense heading.

L0-01. Normal routine: Maya ____ (walk) home every day.

Answer: walks.

L0-02. Finished event: Maya ____ (walk) home yesterday.

Answer: walked.

L0-03. Irregular: We ____ (take) the bus last week.

Answer: took.

L0-04. Negative: Leo ____ (not/see) the match.

Answer: did not see / didn't see.

L0-05. Past be question: the pupils / ready / yesterday?

Answer: Were the pupils ready yesterday?

L0-06. Write one accurate information question about a finished event.

Answer: Open response - Question word + did + subject + base form, or accurate past-be inversion where meaning requires be.

L0-07. Write three finished events in order using one sequence link.

Answer: Open response - Three accurate linked past-simple clauses inside one completed frame.

L0-08. Explain where past marking appears in: Did Mina write?

Answer: Did carries the past marking; write remains the base form.

L1 · Retrieve · L1 — 1-3-day return

Complete later without the form box. Retry every routed error before recording evidence.

L1-01. Our club usually ____ (meet) on Friday, but last week it ____ (meet) on Thursday.

Answer: meets; met.

L1-02. Repair: Yesterday, the bus stoped and we goed home.

Answer: Yesterday, the bus stopped and we went home.

L1-03. Repair: Did Maya wrote the notes? — Yes, she wrote.

Answer: Did Maya write the notes? - Yes, she did.

L1-04. Repair: The pupils didn't be in class yesterday.

Answer: The pupils weren't in class yesterday.

L1-05. Write two questions and answers about an invented finished school event.

Answer: Open response - Accurate, answerable did/past-be questions with matching answers in a completed frame.

L1-06. Write a five-sentence finished sequence using two regular and two irregular past forms.

Answer: Open response - Independent coherent sequence; accurate forms and clear completed time boundary.

L2 · Retrieve · L2 — mixed return in S7-M08

In S7-M08 or the timetable equivalent, retrieve finished-event choices among mixed present and past meanings without a tense heading.

L2-01. Choose the finished event: A. Leo usually sees the bus. B. Leo saw the bus yesterday. C. Leo is seeing the bus now.

Answer: B

L2-02. Choose the accurate negative: A. Maya didn't took it. B. Maya not take it. C. Maya didn't take it.

Answer: C

L2-03. Repair: Were Leo at school?

Answer: Was Leo at school?

L2-04. Repair: Last Monday, we arrived, then make a poster.

Answer: Last Monday, we arrived, then made a poster.

L2-05. Write one present routine and two linked finished past events about the same safe topic.

Answer: Open response - Clear frame signals and accurate simple-present/past forms; no accidental drift.

L2-06. Write and answer one question about a completed event, then state one later result without teaching a background-in-progress contrast.

Answer: Open response - Accurate past-simple question/answer and later finished result; no undeclared past-continuous target.

L3 · Retrieve · L3 — 21-35-day retained-evidence gate

In S7-M12 or the timetable equivalent, complete the unseen event task in English. An external checker must verify both mixed editing and independent production after any governed retry.

L3-01. Edit: Last week our class go to the hall, made a poster and eventually leave.

Answer: Last week our class went to the hall, made a poster and eventually left.

L3-02. Edit: Did Mina saw the display? — Yes, she saw.

Answer: Did Mina see the display? - Yes, she did.

L3-03. Edit: The pupils didn't be late, but the teacher weren't ready.

Answer: The pupils weren't late, but the teacher wasn't ready.

L3-04. Write an unseen account of at least eight connected sentences about a clearly finished safe event. Include two regular forms, three irregular forms, one negative, two questions/answers and two sequence links.

Answer: Open response - Externally checked independent transfer; coherent completed frame and accurate target forms, spelling, questions, answers and sequence control.

L3-05. Record the external check, any diagnostic code and corrected retry. State whether both mixed editing and independent production passed.

Answer: Open response - Names checker evidence, records governed retry if needed and makes a Retained claim only when both delayed components pass.

Module progress check

Complete this after your first attempt and again after feedback.

☐ Not yet ☐ Nearly ☐ Secure I can distinguish a present routine from a completed event in a finished past time.

☐ Not yet ☐ Nearly ☐ Secure I can use regular and common irregular past forms accurately.

☐ Not yet ☐ Nearly ☐ Secure I can make lexical past negatives and questions with did plus the base form, and use was/were separately.

☐ Not yet ☐ Nearly ☐ Secure I can write and ask questions about a coherent recent finished event.

One correction I can explain:

My next retrieval date: _____

This page is intentionally blank.

Narrative past: event and background

LEARN → NOTICE → BUILD → CHOOSE → USE → CHECK → RETRIEVE → REFLECT

Your goals

- ☐ I can identify an activity already in progress and the completed event that changes a story.
- ☐ I can combine past continuous and past simple without using a long/short rule.
- ☐ I can use when, while, as and sequence links from their meaning rather than mechanically.
- ☐ I can tell a coherent four-frame story with clear background and main events.

Name: _____ Class: _____ Date: _____

A01 · Learn · What was already happening? What changed?

Read each mini-story. Identify the activity already in progress and the completed event that changes or advances the story.

A01-01. Mina was walking home when she saw a lost dog.

Answer: Background activity: Mina was walking home. Story-changing event: she saw a lost dog.

A01-02. While the pupils were making a poster, the lights went out.

Answer: Background activity: the pupils were making a poster. Story-changing event: the lights went out.

A01-03. As Leo was opening the gate, his bag fell.

Answer: Background activity: Leo was opening the gate. Story-changing event: his bag fell.

A01-04. Maya was reading. Meanwhile, Kai was drawing.

Answer: Two activities were in progress at the same time; neither sentence presents a new interrupting event.

A02 · Learn · View the same past time in two ways

Explain each relationship from event structure, not from sentence length or one linking word.

A02-01. The pupils were leaving the hall when the alarm rang.

Answer: Leaving was already in progress; the completed ring changes the scene.

A02-02. When the teacher entered, the pupils were talking quietly.

Answer: Entering is the completed event; talking was the activity in progress at that time.

A02-03. While Mina was carrying the model, Leo opened the door.

Answer: Carrying forms the background; opening is the completed event that advances the story.

A02-04. While Mina was drawing, Leo was writing labels.

Answer: Both activities were in progress at the same time; there is no required interrupting event.

A02-05. The film lasted two hours, but the door opened in one second.

Answer: Both are completed past-simple events/states here. Length alone does not select the past continuous.

A03 · Notice · Narrative event-and-background box

Read the complete box. The relationship between situations decides the viewpoint; a long sentence or linking word does not decide it alone.

A03-01. Background activity

Answer: Use was/were + verb-ing to show an activity in progress around a past event or time: Mina was walking home.

A03-02. Story event

Answer: Use the past simple for a completed event that changes or advances the narrative: She saw a lost dog.

A03-03. Combined pattern

Answer: Background + event: Mina was walking home when she saw the dog. Event + background: When she saw the dog, Mina was walking home.

A03-04. Past-continuous form

Answer: Affirmative/negative: subject + was/were (+ not) + verb-ing. Question: was/were + subject + verb-ing?

A03-05. Past-simple transfer

Answer: Keep M06 forms accurate: regular/irregular affirmative; did not/didn't + base; did + subject + base for lexical questions; past be remains separate.

A03-06. When, while and as

Answer: They show time relationships, not automatic tense choices. While often introduces an activity in progress; when can introduce either part. This module scores as only in a clear time meaning.

A03-07. Two simultaneous activities

Answer: Use two past-continuous clauses when both are presented in progress: While Maya was reading, Leo was drawing.

A03-08. Clause and punctuation

Answer: A main clause can carry the central message; a time subordinate clause adds when/background information. Use a comma after an initial time clause: While Maya was reading, Leo called.

A03-09. Sequence and parallel links

Answer: Then, afterwards, eventually, next, after that and finally order events. Meanwhile marks a parallel situation. These links organise a story; they do not form a tense.

A03-10. Accuracy guardrail

Answer: Do not use a long-action/short-action rule. Background states can use the past simple (It was cold), and a long completed event can also use the past simple. Contrastive while, reason as and later perfect-time links are outside this scored pathway.

A04 · Notice · Mark viewpoint, form and clause role

For each mini-story, identify background/event structure, mark the verb forms and explain the time link.

A04-01. Mina was walking home when she saw the dog.

Answer: Background: was walking; event: saw; when links the event to the activity in progress.

A04-02. When Leo arrived, Maya was drawing.

Answer: Event: arrived in the initial subordinate time clause; background: was drawing in the main clause.

A04-03. While the class was working, the lights went out.

Answer: Background: was working; event: went out; while introduces the in-progress activity.

A04-04. As Kai was carrying the box, it opened.

Answer: Background: was carrying; event: opened; as has a clear time meaning here.

A04-05. While Mina was reading, Leo was writing.

Answer: Two simultaneous background activities: was reading and was writing.

A04-06. It was cold when the team left.

Answer: Background state: was, a past-simple be form; completed event: left. A background is not automatically continuous.

A04-07. The lesson lasted an hour. Afterwards, the pupils left.

Answer: Two completed past-simple situations ordered by afterwards; duration does not force the continuous.

A04-08. Maya was checking the map. Meanwhile, Leo was asking for help.

Answer: Two parallel in-progress activities linked across sentences by meanwhile.

A05 · Build · Build the narrative relationship

Complete each mini-story from the intended event structure. Apply accurate past-simple and past-continuous forms, linking and punctuation.

A05-01. background + event: Mina ____ (walk) home when she ____ (see) the dog.

Answer: was walking; saw.

A05-02. initial event clause: When Leo ____ (arrive), Maya ____ (draw).

Answer: arrived; was drawing.

A05-03. plural background + event: While the pupils ____ (work), the lights ____ (go) out.

Answer: were working; went.

A05-04. clear time as: As Kai ____ (carry) the model, the door ____ (open).

Answer: was carrying; opened.

A05-05. two simultaneous activities: While Maya ____ (read), Leo ____ (write) labels.

Answer: was reading; was writing.

A05-06. negative background: Mina ____ (not/look) at the path when she ____ (trip).

Answer: was not looking / wasn't looking; tripped.

A05-07. background question: what / the pupils / do / when the bell rang?

Answer: What were the pupils doing when the bell rang?

A05-08. finished-event question: what / happen / while the pupils were working?

Answer: What happened while the pupils were working?

A05-09. initial time clause punctuation: while / we / wait / the bus arrived

Answer: While we were waiting, the bus arrived.

A05-10. story order: we heard a sound; next / we opened the door; after that / a bird flew out; finally / we closed it

Answer: We heard a sound. Next, we opened the door. After that, a bird flew out. Finally, we closed it.

A06 · Choose · Choose by event structure

Choose the one best line for the complete narrative context. Every distractor routes to a specific repair.

A06-01. The walk was already in progress; seeing the dog changed the story.

- A. Mina walked home when she was seeing a dog. B. Mina was walking home when she saw a dog. C. Mina was walk home when she did see a dog.

Answer: B

A06-02. The pupils' work was in progress when one completed event occurred.

- A. While the pupils were working, the lights went out. B. While the pupils worked, the lights were going out.
C. While the pupils was working, the lights went out.

Answer: A

A06-03. The arrival is the event; drawing was already in progress.

- A. When Leo was arriving, Maya drew. B. When Leo arrived, Maya was draw. C. When Leo arrived, Maya was drawing.

Answer: C

A06-04. Both activities were continuing at the same time.

- A. While Maya read, Leo was drawing. B. While Maya was reading, Leo was drawing. C. While Maya was reading, Leo did draw.

Answer: B

A06-05. Choose the accurate negative background plus completed event.

- A. Mina wasn't looking when she tripped. B. Mina didn't looking when she was tripping. C. Mina wasn't look when she tripped.

Answer: A

A06-06. Choose the accurate question about the in-progress activity.

- A. What did the pupils doing when the bell rang? B. What were doing the pupils when the bell rang? C. What were the pupils doing when the bell rang?

Answer: C

A06-07. The initial time clause needs standard punctuation.

- A. While we were waiting the bus arrived. B. While we were waiting, the bus arrived. C. While, we were waiting the bus arrived.

Answer: B

A06-08. The film's two-hour duration is presented as one completed fact.

- A. The film lasted two hours. B. The film was lasting two hours. C. The film did lasted two hours.

Answer: A

A06-09. A background state and a completed departure are intended.

- A. It was being cold when the team was leaving. B. It was cold when the team was leave. C. It was cold when the team left.

Answer: C

A06-10. Choose the coherent completed sequence after the interruption.

- A. Afterwards, we were opened the door and a bird was flew out. B. Afterwards, we opened the door and a bird flew out. C. Afterwards, we open the door and a bird flew out.

Answer: B

A06-11. The two sentences describe parallel activities, not a later sequence.

- A. Maya was checking the map. Meanwhile, Leo was asking for help. B. Maya checked the map. Afterwards, Leo asked for help. C. Maya was check the map. Meanwhile, Leo asking for help.

Answer: A

A06-12. The linking word has a clear time meaning; carrying is in progress and the fall is completed.

- A. As Kai was carrying the box, it was falling. B. As Kai carried the box, it was falling for one second. C. As Kai was carrying the box, it fell.

Answer: C

A07 · Use · A four-frame story

Sketch four simple frames or use four teacher-approved pictures. Tell a real non-private story or invent a safe school/community story. Do not use the form box during the first attempt.

A07-01. Plan four frames: setting, activity in progress, story-changing event, result. Use meaning notes only, not tense names.

Answer: Open response - Four safe, coherent frame notes distinguish an ongoing activity from the event/result without answer-leaking form prompts.

A07-02. Write a two-sentence opening that establishes the finished time and background.

Answer: Open response - Clear finished narrative frame plus an accurate past background activity or state.

A07-03. Write two sentences in which a completed event changes an activity already in progress.

Answer: Open response - Accurate past-continuous background and past-simple event with a decisive relationship.

A07-04. Use when and one of while/as in clear time meanings. Change clause order once.

Answer: Open response - Two accurate time links; one initial time clause has a comma; connectors do not mechanically select forms.

A07-05. Add either two simultaneous in-progress activities or one background state.

Answer: Open response - Accurate parallel past continuous or conservative past-simple background state.

A07-06. Use two sequence links from then, afterwards, eventually, next, after that or finally.

Answer: Open response - Links order completed events coherently and do not replace verb-form decisions.

A07-07. Revise and submit at least eight connected sentences for the four frames. Underline the event that changes the story and circle its background.

Answer: Open response - Independent illustrated-story transfer; coherent finished frame, clear event/background relation, accurate forms, clauses, punctuation and sequence.

A08 · Check · Diagnose the narrative relationship

Each item has one primary problem. Name the error code, repair it and explain the decisive event-structure evidence.

A08-01. The film was lasting two hours because it was long.

Answer: The film lasted two hours. Duration alone does not require the continuous.

A08-02. The pupils was working when the bell rang.

Answer: The pupils were working when the bell rang.

A08-03. Mina was runing home when she fell.

Answer: Mina was running home when she fell.

A08-04. When Leo did arrived, Maya was drawing.

Answer: When Leo arrived, Maya was drawing.

A08-05. Both activities continued, but the writer says: While Maya read, Leo was drawing.

Answer: While Maya was reading, Leo was drawing.

A08-06. While the class was working the lights went out.

Answer: While the class was working, the lights went out.

A08-07. A learner says: 'Meanwhile always makes the next verb past continuous.'

Answer: Meanwhile signals a parallel situation; the intended viewpoint and event structure still determine each form.

A08-08. Yesterday we were making a poster when the bell rang. Next, we open the door and left.

Answer: Yesterday we were making a poster when the bell rang. Next, we opened the door and left.

A08-09. It was being cold when the team left.

Answer: It was cold when the team left.

A09 · Check · Use the complete repair route

Choose one error from A06, A07 or A08. Follow Diagnose → Cue → Contrast → Retry → Explain/Reveal → Route.

A09-01. Record: original response → error code → retry → decisive event/background change → continue/revisit/teacher route.

Answer: Open response - Includes an actual retry, explains the decisive event structure or form evidence and records a justified next route.

A10 · Retrieve · Reconstruct the narrative system

Cover all explanations. Complete in English from memory.

A10-01. Explain background activity versus story-changing event without using long/short as the reason.

Answer: A background activity is presented in progress around a past time; a story-changing event is presented as completed and advances the narrative.

A10-02. Complete: Mina ____ (walk) home when she ____ (see) the dog.

Answer: was walking; saw.

A10-03. Repair: The pupils was work when the lights went out.

Answer: The pupils were working when the lights went out.

A10-04. Repair: When Leo did arrived, Maya was drawing.

Answer: When Leo arrived, Maya was drawing.

A10-05. Write two simultaneous in-progress activities using while.

Answer: Open response - Two accurate past-continuous clauses with a clear same-time relationship.

A10-06. Write a past background state plus one completed event.

Answer: Open response - Conservative simple state such as was cold/knew/wanted plus a clear completed event; no forced continuous.

A10-07. Write one initial time clause and punctuate it accurately.

Answer: Open response - Clear when/while/as time clause followed by a comma and a complete main clause.

A10-08. Write three completed story events using two sequence links.

Answer: Open response - Coherent past-simple sequence; links organise rather than form the tense.

A10-09. Write a four-sentence mini-story with a background, event and result.

Answer: Open response - Unsupported coherent narrative with accurate event/background forms and no unexplained frame drift.

A11 · Reflect · What changed the story?

Reflect briefly. Confidence selects practice but does not change the evidence result.

A11-01. What question should replace the long-action/short-action rule?

Answer: Which activity was already in progress, and which completed event changed or advanced the story?

A11-02. Why does when not automatically select one tense?

Answer: When links times; it can introduce an event or a background situation, so the event structure decides the forms.

A11-03. Which error code do you most need to revisit, and what response/retry evidence shows this?

Answer: Open response - Names a relevant code and links it to actual evidence.

A11-04. Record confidence from 1-4, then choose: continue, repeat one contrast, revisit A03 or ask for teacher support.

Answer: Open response - Records confidence and an evidence-based route; does not claim mastery from confidence alone.

L0 · Retrieve · L0 — same-session exit

Close the module. Complete without notes or a narrative-tense heading.

L0-01. Maya ____ (read) when the door ____ (open).

Answer: was reading; opened.

L0-02. While the pupils ____ (work), the teacher ____ (arrive).

Answer: were working; arrived.

L0-03. Both activities continued: While Mina ____ (draw), Leo ____ (write).

Answer: was drawing; was writing.

L0-04. Repair: As Kai carried the box, it was falling suddenly.

Answer: As Kai was carrying the box, it fell suddenly.

L0-05. Repair punctuation: When the bell rang the pupils were talking.

Answer: When the bell rang, the pupils were talking.

L0-06. Write one background-state/event pair.

Answer: Open response - Accurate simple past state and completed event with a clear relationship.

L0-07. Write one background-activity/event pair with reversed clause order.

Answer: Open response - Accurate past continuous/past simple relationship and appropriate punctuation.

L0-08. Write a three-event result sequence using next and finally.

Answer: Open response - Three coherent completed events with accurate sequence links and forms.

L1 · Retrieve · L1 — 1-3-day return

Complete later without the event/background box. Retry every routed error before recording evidence.

L1-01. The class ____ (leave) when the alarm ____ (ring).

Answer: was leaving; rang.

L1-02. Repair: While we waited, the bus was arriving suddenly.

Answer: While we were waiting, the bus arrived suddenly.

L1-03. Repair: What did Maya doing when Leo arrived?

Answer: What was Maya doing when Leo arrived?

L1-04. Repair: It was being dark when we left.

Answer: It was dark when we left.

L1-05. Write a when sentence and a while sentence that express the same clear event/background relationship.

Answer: Open response - Accurate connector placement and forms; meaning remains stable across changed clause order.

L1-06. Write a five-sentence safe story with one background, one change, one parallel activity and a final result.

Answer: Open response - Independent coherent narrative with accurate viewpoints, connectors and frame control.

L2 · Retrieve · L2 — mixed return in S7-M09

In S7-M09 or the timetable equivalent, retrieve narrative choices among finished-event and present-perfect meanings without a narrative-tense heading.

L2-01. Choose the clear event/background relation: A. Mina walked when she was seeing a dog. B. Mina was walking when she saw a dog. C. Mina has walked when she saw a dog.

Answer: B

L2-02. Choose two simultaneous activities: A. While Leo was reading, Maya was drawing. B. While Leo read, Maya drew one picture. C. While Leo has read, Maya drew.

Answer: A

L2-03. Repair: When the teacher did entered, the pupils were talking.

Answer: When the teacher entered, the pupils were talking.

L2-04. Repair: Meanwhile always means continuous, so the door was opening suddenly.

Answer: Meanwhile does not select a form automatically. For a completed sudden event: the door opened suddenly.

L2-05. Write one completed past event, one background activity and one unspecified experience-to-now statement; label only the intended meanings after writing.

Answer: Open response - Three distinct meanings with the M07 event/background forms accurate; the later host checks the present-perfect item.

L2-06. Write a four-sentence narrative return that keeps its finished frame and does not replace event structure with one connector rule.

Answer: Open response - Coherent frame, clear background/change and accurate forms; connectors support rather than dictate choices.

L3 · Retrieve · L3 — 21-35-day retained-evidence gate

In S7-M13 or the timetable equivalent, complete the unseen illustrated-story task in English. An external checker must verify both mixed editing and independent production after any governed retry.

L3-01. Edit: The film was lasting two hours because it was long. Near the end, the lights were going out suddenly.

Answer: The film lasted two hours. Near the end, the lights went out suddenly. Duration alone does not require the continuous, and went out is a completed event.

L3-02. Edit: While the pupils was working the teacher did entered.

Answer: While the pupils were working, the teacher entered.

L3-03. Edit: It was being cold, and Mina was knowing the way home.

Answer: It was cold, and Mina knew the way home.

L3-04. Write an unseen four-frame story of at least eight connected sentences. Include one background activity, one story-changing event, two simultaneous activities or a background state, when plus while/as, and two sequence links.

Answer: Open response - Externally checked independent transfer; coherent finished frame and accurate event/background meaning, forms, clauses, punctuation and discourse links.

L3-05. Record the external check, any diagnostic code and corrected retry. State whether both mixed editing and independent production passed.

Answer: Open response - Names checker evidence, records governed retry if needed and makes a Retained claim only when both delayed components pass.

Module progress check

Complete this after your first attempt and again after feedback.

☐ Not yet ☐ Nearly ☐ Secure I can identify an activity already in progress and the completed event that changes a story.

☐ Not yet ☐ Nearly ☐ Secure I can combine past continuous and past simple without using a long/short rule.

☐ Not yet ☐ Nearly ☐ Secure I can use when, while, as and sequence links from their meaning rather than mechanically.

☐ Not yet ☐ Nearly ☐ Secure I can tell a coherent four-frame story with clear background and main events.

One correction I can explain:

My next retrieval date: _____

Present perfect: experience and present result

LEARN → NOTICE → BUILD → CHOOSE → USE → CHECK → RETRIEVE → REFLECT

Your goals

- ☐ I can distinguish an unspecified experience or present result from a definite finished-past event.
- ☐ I can use have/has with regular and common irregular past participles.
- ☐ I can use ever, never, just, already and yet accurately in the controlled British-English pathway.
- ☐ I can interview safely about experiences, add a finished-time follow-up and report one clear present result.

Name: _____ Class: _____ Date: _____

A01 · Learn · Past before now: which connection matters?

Read each message. Decide whether it presents an experience at an unspecified time before now, a recent event with a result now, or an event at a definite finished past time.

A01-01. Mina has visited a science museum, but she does not say when.

Answer: An experience at an unspecified time before now.

A01-02. Leo has just finished the poster, so it is ready now.

Answer: A recent event with a clear present result.

A01-03. Mina visited the science museum last Friday.

Answer: An event at a definite finished past time.

A01-04. The bus has not arrived yet, so we are still waiting.

Answer: A past-to-now non-event with a clear present result: the waiting continues now.

A02 · Learn · Experience, result now and finished detail

Explain why each speaker chooses a connection to now or a finished-time report. Do not choose from one signal word alone.

A02-01. Have you ever tried rock climbing? — Yes, I have.

Answer: The question asks whether the experience exists at any time before now; no finished time is named.

A02-02. When did you try it? — I tried it last year.

Answer: The follow-up asks for a definite finished time, so the answer uses the past simple.

A02-03. Maya has already sent the message, so you can read it now.

Answer: The completed sending has a clear result now: the message is available.

A02-04. Kai has never ridden a horse.

Answer: Never means the experience has not happened at any time before now; it already carries negative meaning.

A02-05. We saw the film yesterday, but we have not discussed it yet.

Answer: Saw belongs to the finished time yesterday; have not discussed yet connects the missing discussion to now.

A03 · Notice · Present-perfect meaning and form box

Read the complete box. The time relationship and present connection decide the best fit; markers support meaning but do not replace it.

A03-01. Unspecified experience

Answer: Use have/has + past participle when whether something has happened before now matters and no definite finished time is given: I have visited a science museum.

A03-02. Recent event with result now

Answer: Use have/has + past participle when a completed event is presented through a clear result now: Leo has finished the poster, so it is ready.

A03-03. Finished-past contrast

Answer: Use the past simple when the event is located at a definite finished time: Mina visited last Friday. After an experience answer, use the past simple to give when/details.

A03-04. Affirmative and participle

Answer: Subject + have/has + past participle: I/you/we/they have visited; he/she/it has seen. Common participles here include seen, done, made, written, taken, broken, lost and ridden.

A03-05. Negative

Answer: Subject + have/has not + past participle: We haven't finished. Never already has negative meaning: Kai has never ridden a horse, not hasn't never.

A03-06. Question and short answer

Answer: Have/Has + subject + past participle ...? - Yes, subject + have/has. / No, subject + haven't/hasn't.

A03-07. Ever and never

Answer: Ever usually asks about any experience before now: Have you ever tried it? Never reports that an experience has not happened: I have never tried it.

A03-08. Just, already and yet

Answer: In this pathway, just presents a very recent event; already says it happened earlier than expected; yet asks whether it has happened or says it has not happened up to now. Yet normally comes at the end here.

A03-09. BrE target boundary

Answer: This module follows common British-English present-perfect use with just, already and yet. Some American-English contexts also allow the past simple; those variants are not scored as errors outside this controlled BrE pathway.

A03-10. Scope guardrail

Answer: Do not combine the target present perfect with yesterday, last Friday, in 2024 or another definite finished-past time. Since/for duration, gone-versus-been location meaning, superlative ever and by-then past-perfect meaning are reserved for later work.

A04 · Notice · Mark the time relationship and form

For each message, identify experience/result/finished-time meaning, mark the helper and verb form, and explain the decisive evidence.

A04-01. Mina has seen this film before, but she does not say when.

Answer: Unspecified experience; has + past participle seen; no definite finished time.

A04-02. Mina saw this film yesterday.

Answer: Finished-time event; past simple saw; yesterday gives a definite completed time.

A04-03. Leo has just broken his pencil, so he cannot write now.

Answer: Recent event with result now; has + broken; cannot write now makes the connection decisive.

A04-04. Have the pupils finished yet?

Answer: Question about completion up to now; Have + finished; yet is in final position.

A04-05. The pupils haven't finished yet, so the teacher is still waiting.

Answer: Negative up to now with result now; have not + finished; yet and still waiting support the present connection.

A04-06. Kai has never written a blog post.

Answer: No experience at any time before now; has + written; never carries negative meaning.

A04-07. Has Maya ever taken part in a quiz? — Yes, she has.

Answer: Unspecified experience question; Has + taken; the short answer repeats has.

A04-08. Maya took part in a quiz last week.

Answer: Finished detail; past simple took; last week locates the event in a completed time.

A05 · Build · Build the past-to-now connection

Complete each message from its intended meaning. Use have/has + past participle or the past simple, then place the target marker accurately.

A05-01. unspecified experience: Mina ____ (visit) a science museum.

Answer: has visited.

A05-02. irregular participle: Leo ____ (see) this film before.

Answer: has seen.

A05-03. recent result: Maya ____ just ____ (finish) the poster, so it is ready now.

Answer: has just finished.

A05-04. already/result: The pupils ____ already ____ (write) the labels, so we can attach them now.

Answer: have already written.

A05-05. negative up to now: The bus ____ (not/arrive) yet, so we are still waiting.

Answer: has not arrived / hasn't arrived.

A05-06. experience question: Maya / ever / take part in a quiz?

Answer: Has Maya ever taken part in a quiz?

A05-07. short answer: Has Maya ever taken part? / yes

Answer: Yes, she has.

A05-08. never: Kai ____ never ____ (ride) a horse.

Answer: has never ridden.

A05-09. finished detail: when / Maya / take part? / last week

Answer: When did Maya take part? - She took part last week.

A05-10. mixed: we / see the display / yesterday; we / not discuss it / yet

Answer: We saw the display yesterday, but we haven't discussed it yet.

A06 · Choose · Choose the connection, not one time word

Choose the one best line for the complete context. The controlled target is British English; every distractor routes to a specific repair.

A06-01. The speaker asks whether the experience exists at any time before now; no finished time is named.

A. Did you ever tried rock climbing? B. Have you ever tried rock climbing? C. Have you ever try rock climbing?

Answer: B

A06-02. The answer gives the definite finished time last year.

A. I tried it last year. B. I have tried it last year. C. I have try it last year.

Answer: A

A06-03. Maya completed the poster very recently, and it is ready now.

- A. Maya just finish the poster, so it is ready. B. Maya has just finish the poster, so it is ready. C. Maya has just finished the poster, so it is ready.

Answer: C

A06-04. The pupils completed the labels earlier than expected; the labels are available now.

- A. The pupils has already written the labels. B. The pupils have already written the labels. C. The pupils have already wrote the labels.

Answer: B

A06-05. The bus has not arrived up to now, so the group is still waiting.

- A. The bus hasn't arrived yet. B. The bus didn't arrived yet. C. The bus hasn't yet arrive.

Answer: A

A06-06. Ask about Maya's experience and give the accurate short answer.

- A. Has Maya ever took part? — Yes, she did. B. Did Maya ever taken part? — Yes, she has. C. Has Maya ever taken part? — Yes, she has.

Answer: C

A06-07. Kai reports no horse-riding experience before now.

- A. Kai hasn't never ridden a horse. B. Kai has never ridden a horse. C. Kai has never rode a horse.

Answer: B

A06-08. The question asks about completion up to now in this controlled pathway.

- A. Have the pupils finished yet? B. Have yet the pupils finished? C. Did the pupils finished yet?

Answer: A

A06-09. The recent event matters because Leo cannot write now.

- A. Leo broke his pencil recently, but he replaced it and can write now. B. Leo has broken his pencil yesterday, so he cannot write now. C. Leo has just broken his pencil, so he cannot write now.

Answer: C

A06-10. The first clause is at a definite finished time; the second remains unfinished up to now.

- A. We have seen the film yesterday, but we didn't discuss it yet. B. We saw the film yesterday, but we haven't discussed it yet. C. We saw the film yesterday, but we hasn't discussed it yet.

Answer: B

A06-11. The interviewer asks for the finished time after an experience answer.

- A. When did you try it? B. When have you tried it? C. When have you try it?

Answer: A

A06-12. Choose the coherent third-person report of one experience and one finished detail.

- A. Mina has visited a museum. She has visited it last Friday. B. Mina visited a museum last Friday. She does not report any broader experience. C. Mina has visited a museum. She went last Friday.

Answer: C

A07 · Use · Experience interview and present-result report

Interview a partner using safe, non-private topics, or use invented answers if preferred. Do not ask for sensitive personal information. Complete the first attempt without the form box.

A07-01. Plan four safe experience topics such as trying a food, visiting a public place, making something or joining a school activity.

Answer: Open response - Four age-appropriate non-private topics; no answer-leaking tense labels in the interview sheet.

A07-02. Write four Have you ever ...? questions using at least two irregular past participles.

Answer: Open response - Four accurate experience questions; no definite finished time in the present-perfect question.

A07-03. Record four short answers. Invent answers if privacy or memory is a concern.

Answer: Open response - Matching have/haven't short answers or clear full present-perfect answers; safe invented responses allowed.

A07-04. For one yes answer, ask When ...? or Where ...? and record a past-simple finished detail.

Answer: Open response - Accurate past-simple follow-up with a definite finished detail; no present perfect plus finished time.

A07-05. Write two third-person experience reports about the partner or invented person.

Answer: Open response - Accurate has/hasn't + past participle and faithful safe reporting.

A07-06. Add one present-result report using just, already or yet plus an explicit result now.

Answer: Open response - Accurate BrE target form and marker placement; the context states a genuine present result.

A07-07. Revise and submit the four questions/answers, one finished-detail exchange, two experience reports and one present-result report.

Answer: Open response - Independent coherent interview/report transfer with accurate meaning, have/has, participles, markers, follow-up time and privacy control.

A08 · Check · Diagnose the past-to-now connection

Each item has one primary problem. Name the error code, repair it and explain the decisive time or result evidence.

A08-01. I have visited the museum last Friday.

Answer: I visited the museum last Friday.

A08-02. The pupils has already finished.

Answer: The pupils have already finished.

A08-03. Maya has wrote three labels.

Answer: Maya has written three labels.

A08-04. Kai hasn't never ridden a horse.

Answer: Kai has never ridden a horse. / Kai hasn't ever ridden a horse.

A08-05. Did Maya ever taken part? — Yes, she did.

Answer: Has Maya ever taken part? - Yes, she has.

A08-06. Rewrite for the module's neutral controlled placement: Have the pupils yet finished?

Answer: Have the pupils finished yet?

A08-07. Have you ever visited the museum? — Yes. — When have you visited it?

Answer: Have you ever visited the museum? - Yes. - When did you visit it?

A08-08. The writer intends a present-result message but writes only: 'Leo finished a poster recently.'

Answer: Leo has just finished the poster, so it is ready to display now. The repair makes the intended present result explicit; alternatively, keep the past simple as a finished report without claiming the target result-now meaning.

A08-09. Mina has visited a museum. She has went last Friday.

Answer: Mina has visited a museum. She went last Friday.

A09 · Check · Use the complete repair route

Choose one error from A06, A07 or A08. Follow Diagnose → Cue → Contrast → Retry → Explain/Reveal → Route.

A09-01. Record: original response → error code → retry → decisive time/result change → continue/revisit/teacher route.

Answer: Open response - Includes an actual retry, explains the decisive experience/result/finished-time evidence and records a justified next route.

A10 · Retrieve · Reconstruct the present-perfect system

Cover all explanations. Complete in English from memory.

A10-01. Explain unspecified experience, present result and definite finished-past detail.

Answer: Experience asks whether something happened before now without saying when; present result connects a completed event to now; a definite finished-time detail uses the past simple.

A10-02. Build: Maya / ever / take part in a quiz? / yes

Answer: Has Maya ever taken part in a quiz? - Yes, she has.

A10-03. Write the participles: see, write, take, break, ride.

Answer: seen; written; taken; broken; ridden.

A10-04. Repair: I have seen the film yesterday.

Answer: I saw the film yesterday.

A10-05. Repair: Kai hasn't never wrote a blog post.

Answer: Kai has never written a blog post.

A10-06. Write one negative with yet and a clear result now.

Answer: Open response - Accurate haven't/hasn't + participle + yet, plus explicit continuing result now.

A10-07. Write one affirmative with just or already and a clear result now.

Answer: Open response - Accurate helper/participle/marker placement and decisive present result.

A10-08. Write one experience question, answer it, then add one finished-time follow-up detail.

Answer: Open response - Present-perfect experience question/answer followed by accurate past-simple definite detail.

A10-09. Write a four-sentence mini-report containing one experience, one present result and one finished detail without frame drift.

Answer: Open response - Unsupported coherent mixed-time report with accurate meaning, forms and markers.

A11 · Reflect · What connects to now?

Reflect briefly. Confidence selects practice but does not change the evidence result.

A11-01. What question should you ask before choosing present perfect or past simple?

Answer: Is the focus an unspecified experience/result connected to now, or an event located at a definite finished past time?

A11-02. Why does recently not automatically require the present perfect?

Answer: A recent event can be presented through a result now or as a finished-time report; the complete context decides the viewpoint.

A11-03. Which error code do you most need to revisit, and what response/retry evidence shows this?

Answer: Open response - Names a relevant code and links it to actual evidence.

A11-04. Record confidence from 1-4, then choose: continue, repeat one contrast, revisit A03 or ask for teacher support.

Answer: Open response - Records confidence and an evidence-based route; does not claim mastery from confidence alone.

L0 · Retrieve · L0 — same-session exit

Close the module. Complete without notes or a tense heading.

L0-01. Experience: Mina ____ (visit) a science museum.

Answer: has visited.

L0-02. Finished detail: She ____ (go) last Friday.

Answer: went.

L0-03. Recent result: Leo ____ just ____ (break) his pencil, so he cannot write.

Answer: has just broken.

L0-04. Negative up to now: The bus ____ (not/arrive) yet.

Answer: has not arrived / hasn't arrived.

L0-05. Repair: Has Maya ever wrote a blog? — Yes, she did.

Answer: Has Maya ever written a blog? - Yes, she has.

L0-06. Write one never experience statement.

Answer: Open response - Accurate have/has + never + past participle; no double negative.

L0-07. Write one experience question and past-simple finished follow-up.

Answer: Open response - Accurate unspecified experience question plus definite finished-time detail.

L0-08. Write one present-result report with explicit evidence now.

Answer: Open response - Accurate present perfect and a decisive current result, not recency alone.

L1 · Retrieve · L1 — 1-3-day return

Complete later without the meaning/form box. Retry every routed error before recording evidence.

L1-01. Have you ever ____ (see) a live show? — Yes, I ____.

Answer: seen; have.

L1-02. Repair: I have seen one last year.

Answer: I saw one last year.

L1-03. Repair: Maya have already wrote the labels.

Answer: Maya has already written the labels.

L1-04. The writer intends the neutral meaning 'not completed up to now'. Repair: The team hasn't finished already, so we are still waiting.

Answer: The team hasn't finished yet, so we are still waiting.

L1-05. Write two safe experience questions, answers and one finished-time follow-up.

Answer: Open response - Accurate present-perfect interview forms plus a past-simple detail; safe invented answers allowed.

L1-06. Write a five-sentence report with one experience, one never statement, one present result and one finished detail.

Answer: Open response - Independent coherent report with accurate frames, participles, markers and agreement.

L2 · Retrieve · L2 — mixed return in S7-M10

In S7-M10 or the timetable equivalent, retrieve experience/result choices among duration and finished-time meanings without a present-perfect heading.

L2-01. Choose the unspecified experience: A. Mina visited last Friday. B. Mina has visited a science museum. C. Mina has visited in 2024.

Answer: B

L2-02. Choose the current result: A. Leo broke his pencil yesterday and replaced it. B. Leo has just broken his pencil, so he cannot write now. C. Leo has broken his pencil last week.

Answer: B

L2-03. Repair: Has Maya ever took part? — Yes, she did.

Answer: Has Maya ever taken part? - Yes, she has.

L2-04. Repair: The bus hasn't arrived already, so we are still waiting.

Answer: The bus hasn't arrived yet, so we are still waiting.

L2-05. Write one unspecified experience, one completed event at a finished time and one duration-to-now statement; label meanings only after writing.

Answer: Open response - Three distinct meanings; M08 experience/finished contrast is accurate and the S7-M10 host checks the duration item.

L2-06. Write a four-sentence mixed-time return without combining the target present perfect with a definite finished time.

Answer: Open response - Coherent experience/result/finished-time control; no marker-only choices or frame drift.

L3 · Retrieve · L3 — 21-35-day retained-evidence gate

In S7-M14 or the timetable equivalent, complete the unseen interview/report task in English. An external checker must verify both mixed editing and independent production after any governed retry.

L3-01. Edit: Have you ever saw a live show? — Yes, I did. I have seen one last year.

Answer: Have you ever seen a live show? - Yes, I have. I saw one last year.

L3-02. Edit: Maya have just wrote the labels, so they are ready now.

Answer: Maya has just written the labels, so they are ready now.

L3-03. Edit: The pupils haven't never finished yet, so the teacher is still waiting.

Answer: The pupils haven't finished yet, so the teacher is still waiting.

L3-04. Conduct or invent an unseen four-question safe experience interview and write an eight-sentence report. Include two irregular participles, one never answer, one past-simple finished follow-up and one just/already/yet present result with explicit evidence now.

Answer: Open response - Externally checked independent transfer; safe content and accurate meaning, helper agreement, participles, markers, follow-up time and report coherence.

L3-05. Record the external check, any diagnostic code and corrected retry. State whether both mixed editing and independent production passed.

Answer: Open response - Names checker evidence, records governed retry if needed and makes a Retained claim only when both delayed components pass.

Module progress check

Complete this after your first attempt and again after feedback.

- ☐ Not yet ☐ Nearly ☐ Secure I can distinguish an unspecified experience or present result from a definite finished-past event.
- ☐ Not yet ☐ Nearly ☐ Secure I can use have/has with regular and common irregular past participles.
- ☐ Not yet ☐ Nearly ☐ Secure I can use ever, never, just, already and yet accurately in the controlled British-English pathway.
- ☐ Not yet ☐ Nearly ☐ Secure I can interview safely about experiences, add a finished-time follow-up and report one clear present result.

One correction I can explain:

My next retrieval date: _____

Present perfect: duration and time choice

LEARN → NOTICE → BUILD → CHOOSE → USE → CHECK → RETRIEVE → REFLECT

Your goals

- ☐ I can distinguish a starting point from a duration and use since or for accurately.
- ☐ I can show whether a situation continues now or ended in a finished past period.
- ☐ I can use so far and recently from the complete intended viewpoint rather than as automatic tense triggers.
- ☐ I can write and check a safe time line with matching start, duration, now and endpoint information.

Name: _____ Class: _____ Date: _____

A01 · Learn · A time line that reaches now

Read each time line. Decide whether the situation continues now, ended before now, or counts progress up to now. Meaning comes before the time expression.

A01-01. This time line's NOW point is March. Mina joined the chess club in September. She is still a member now.

Answer: The membership began in September and continues now.

A01-02. Mina was a member from September to December. She left the club in December.

Answer: The membership ended before now.

A01-03. Our class began the book this month. We have read four chapters so far, and the book is not finished.

Answer: The count covers progress up to now in an unfinished period.

A01-04. Leo moved here in 2023 and still lives here now.

Answer: The living situation began at a past starting point and continues now.

A02 · Learn · Starting point, duration and finished period

Explain the time relationship in each complete context. Do not choose a form from since, for or recently alone.

A02-01. Mina has been a chess-club member since September, and she is still a member now.

Answer: Since introduces the starting point September; has been presents the membership as continuing to now.

A02-02. Mina has been a chess-club member for six months, and she is still a member now.

Answer: For introduces the duration six months; has been presents the membership as continuing to now.

A02-03. Mina was a member for three months, but she left in December.

Answer: For gives a duration, but the leaving endpoint makes the whole period finished, so the past simple is used.

A02-04. We have read four chapters so far, and we are continuing the book.

Answer: So far measures progress up to now in an unfinished activity.

A02-05. Leo has read two books recently, and he is choosing a third one now. He read one of them last Tuesday.

Answer: The first clause reviews reading in a recent period connected to now; the second gives one definite finished occasion in the past simple.

A03 · Notice · Duration and time-choice box

Read the complete box. Time expressions support meaning; they do not select a tense mechanically.

A03-01. Situation continuing now

Answer: Use have/has + past participle when a state or bounded situation began earlier and is still true now: I have known Ana for two years.

A03-02. Since = starting point

Answer: Use since before the point where the continuing period began: since Monday, since 2023, since I joined the club. In the target since-clause, the starting event is in the past simple.

A03-03. For = duration

Answer: Use for before the length of a period: for two hours, for three weeks, for a long time. For can occur with present perfect or past simple; the whole time relationship decides.

A03-04. Finished-period contrast

Answer: Use the past simple when the complete situation is located in a finished period: She lived there from 2021 to 2023. A word such as for does not force the present perfect.

A03-05. Affirmative and negative

Answer: Subject + have/has (+ not) + past participle: We have known them for years. The club hasn't met for two weeks.

A03-06. How long question

Answer: How long + have/has + subject + past participle ...? - How long has Mina been a member? Match have/has to the subject.

A03-07. So far

Answer: So far means up to now in the target use: We have read four chapters so far. The unfinished activity and current progress, not the phrase alone, justify the form.

A03-08. Recently

Answer: Recently identifies a recent period but does not by itself choose the present perfect. Use the intended up-to-now viewpoint or finished-event/report viewpoint to decide.

A03-09. Simple-versus-continuous boundary

Answer: This Grade 6 module scores clear present-perfect-simple states, membership, possession and progress counts. Present perfect continuous and process-versus-result choices are taught later; do not mark a legitimate continuous alternative universally wrong.

A03-10. Scope guardrail

Answer: Target since means a starting point and target for means duration; since meaning because and for meaning purpose are outside this task. By then refers to another reference point, not now, and remains a non-scored stretch bridge rather than a past-perfect mastery claim.

A04 · Notice · Mark the line, form and evidence

For each context, mark START, DURATION, NOW and any END. Then identify the verb form and explain the decisive evidence.

A04-01. I have known Ana since 2024, and we are still friends now.

Answer: START: 2024; NOW: still friends; have + known presents a state continuing to now.

A04-02. I have known Ana for two years, and we are still friends now.

Answer: DURATION: two years; NOW: still friends; have + known presents a state continuing to now.

A04-03. Leo lived in Suzhou from 2021 to 2023; he lives elsewhere now.

Answer: START/END: 2021/2023; the finished endpoint requires past simple lived.

A04-04. How long has Mina been a member of the club? — Since September.

Answer: The question asks for duration up to now; has + been agrees with Mina; the answer gives the starting point.

A04-05. The club hasn't met for two weeks, so members are waiting for the next meeting.

Answer: For gives the length of the non-meeting period up to now; has not + met connects it to the current wait.

A04-06. We have completed four tasks so far, and two tasks remain.

Answer: The count is progress up to now; have + completed and the remaining tasks make the period unfinished.

A04-07. Maya has joined two school clubs recently, and she is still a member of both.

Answer: Has + joined presents a recent up-to-now count; current membership, not recently alone, makes the connection decisive.

A04-08. Maya joined the drama club last Tuesday.

Answer: Last Tuesday is a definite finished occasion, so joined is past simple.

A05 · Build · Build a coherent time line

Complete each line from its intended meaning. Choose since or for, then choose present perfect or past simple from the whole context.

A05-01. starting point: Mina has been a member ____ September.

Answer: since September.

A05-02. duration: Mina has been a member ____ six months.

Answer: for six months.

A05-03. continuing state: I ____ (know) Ana since 2024, and we are still friends.

Answer: have known.

A05-04. finished period: Leo ____ (live) there from 2021 to 2023; he lives elsewhere now.

Answer: lived.

A05-05. question: how long / Mina / be / a member?

Answer: How long has Mina been a member?

A05-06. since-clause: We ____ (know) each other since we ____ (join) the club.

Answer: have known; joined.

A05-07. negative duration: The club ____ (not/meet) for two weeks.

Answer: has not met / hasn't met.

A05-08. progress count: We ____ (complete) four tasks so far, and two remain.

Answer: have completed.

A05-09. recent up-to-now count: Maya ____ (join) two school clubs recently and is still in both.

Answer: has joined.

A05-10. The time line's NOW point is March: Mina ____ (be) a member for six months; she ____ (join) last September.

Answer: has been; joined.

A06 · Choose · Choose the time relationship, not a keyword

Choose the one best line for the stated complete context. Other grammatical viewpoints are not universally wrong; select the one that expresses the stated meaning. Every distractor routes to a repair.

A06-01. The answer must give the starting point September for membership continuing now.

A. Mina has been a member for September. B. Mina has been a member since September. C. Mina was a member since September, and she still is.

Answer: B

A06-02. The answer must give the length of the continuing membership.

A. Mina has been a member for six months. B. Mina has been a member since six months. C. Mina was a member for six months, and she still is.

Answer: A

A06-03. Ana and the speaker became friends in 2024 and are still friends now.

- A. I knew Ana since 2024. B. I have knew Ana since 2024. C. I have known Ana since 2024.

Answer: C

A06-04. Leo's residence ended in 2023; he lives elsewhere now.

- A. Leo has lived there from 2021 to 2023. B. Leo lived there from 2021 to 2023. C. Leo has live there for two finished years.

Answer: B

A06-05. Ask for the length of Mina's membership, which continues now.

- A. How long has Mina been a member? B. How long did Mina been a member? C. How long Mina has been a member?

Answer: A

A06-06. The friendship continues now; the joining event is the past starting point.

- A. We have known each other since we have joined the club. B. We knew each other since we joined the club. C. We have known each other since we joined the club.

Answer: C

A06-07. Two tasks remain, so the speaker counts completed progress up to now.

- A. We completed four tasks so far, and two remain. B. We have completed four tasks so far, and two remain. C. We have complete four tasks so far, and two remain.

Answer: B

A06-08. Report the one club Maya joined on the definite finished occasion last Tuesday.

- A. Maya joined the drama club last Tuesday. B. Maya has joined the drama club last Tuesday. C. Maya has join the drama club last Tuesday.

Answer: A

A06-09. The speaker presents Maya's two clubs as her current total in the recent period up to now, without a finished date.

- A. Maya has join two school clubs recently. B. Maya joined two short courses recently, and both ended last Friday. C. Maya has joined two school clubs recently; she is still a member of both.

Answer: C

A06-10. One pupil, Kai, continues to own the same bicycle now.

- A. Kai have had the bicycle for a year. B. Kai has had the bicycle for a year. C. Kai has have the bicycle since a year.

Answer: B

A06-11. The time line's NOW point is March. Choose the coherent report: membership began in September, has lasted six months and continues now.

- A. Mina joined in September. She has been a member for six months and is still a member now. B. Mina has joined in September. She was a member for six months and is still a member now. C. Mina joined for six months. She has been a member since six months.

Answer: A

A06-12. The school year is still in progress; identify current membership from its starting point.

- A. Mina is being a member since September. B. Mina was a member since September, and she remains one. C. Mina has been a member since September.

Answer: C

A07 · Use · A safe time line that reaches now

Choose a safe, non-private school, hobby or invented situation. Do not disclose sensitive personal information. Complete the first attempt without the form box.

A07-01. Choose or invent one continuing situation such as club membership, knowing a friend, owning an object or being in a class or team.

Answer: Open response - One age-appropriate non-private continuing situation; an invented line is allowed.

A07-02. Record the starting point and the duration without writing a full sentence yet.

Answer: Open response - One true or invented starting point and one matching duration that could describe the same time line.

A07-03. Write one present-perfect sentence with since and explicit evidence that the situation is still true now.

Answer: Open response - Accurate have/has + past participle + since starting point and decisive now evidence.

A07-04. Express the same continuing situation with for and the matching duration.

Answer: Open response - Accurate present perfect + for duration; duration is coherent with the stated start.

A07-05. Add one How long ...? question and an accurate answer.

Answer: Open response - Accurate How long + have/has question and an answer using since or for appropriately.

A07-06. Add one finished-past contrast about an earlier situation that has ended.

Answer: Open response - Past simple with a clear finished endpoint; no false current continuation.

A07-07. Revise and submit a six-sentence time line containing the start, duration, current evidence, question/answer, so-far or recent progress, and finished contrast.

Answer: Open response - Independent coherent transfer with accurate time relationships, forms, since/for choice, current evidence and safe content.

A08 · Check · Diagnose the time line

Each item has one primary problem. Name the error code, repair it and explain the decisive start, duration, now or endpoint evidence.

A08-01. Mina has been a member for September.

Answer: Mina has been a member since September.

A08-02. Leo has lived there from 2021 to 2023; he lives elsewhere now.

Answer: Leo lived there from 2021 to 2023; he lives elsewhere now.

A08-03. Kai have had the bicycle for a year.

Answer: Kai has had the bicycle for a year.

A08-04. How long Mina has been a member?

Answer: How long has Mina been a member?

A08-05. The time line says Mina left in December but also says she is still a member now.

Answer: Choose one coherent meaning: Mina was a member until December and is not a member now; or Mina has been a member since September and is still a member now.

A08-06. We completed four tasks so far, and two tasks remain.

Answer: We have completed four tasks so far, and two tasks remain.

A08-07. The writer intends current club membership but writes only: Maya joined two school clubs recently.

Answer: Maya has joined two school clubs recently, and she is still a member of both. The past-simple original can remain if the writer instead intends only a finished-event report.

A08-08. We have known each other since we have joined the club.

Answer: We have known each other since we joined the club.

A08-09. Mina has been a member since September. She left the club in December and is still a member now.

Answer: Choose a coherent time line: Mina has been a member since September and is still a member now; or Mina was a member from September to December and then left.

A09 · Check · Use the complete repair route

Choose one error from A06, A07 or A08. Follow Diagnose → Cue → Contrast → Retry → Explain/Reveal → Route.

A09-01. Record: original response → error code → retry → decisive start/duration/now/endpoint evidence → continue/revisit/teacher route.

Answer: Open response - Includes an actual retry, explains the decisive time-line evidence and records a justified next route.

A10 · Retrieve · Reconstruct duration and time choice

Cover all explanations. Complete in English from memory. Items 8–9 are governed delayed returns from S7-M03 and S7-M07.

A10-01. Explain the difference between since and for in the target duration use.

Answer: Since introduces a starting point; for introduces the length of a period.

A10-02. Explain the difference between a continuing-to-now situation and a finished past period.

Answer: A continuing situation uses the target present perfect; a situation with a completed past endpoint uses the past simple.

A10-03. Build: how long / Kai / have / the bicycle?

Answer: How long has Kai had the bicycle?

A10-04. Repair: We have known Ana for 2024.

Answer: We have known Ana since 2024.

A10-05. Repair: Leo has lived there from 2021 to 2023; he moved away.

Answer: Leo lived there from 2021 to 2023; he moved away.

A10-06. Write one progress count with so far and evidence that the activity is unfinished.

Answer: Open response - Accurate present perfect + so far and decisive unfinished/current evidence.

A10-07. Write a four-sentence time line with one since sentence, one for sentence and one finished contrast.

Answer: Open response - Coherent unsupported start, duration, now evidence and finished-past contrast.

A10-08. S7-M03 L3: Write one present-simple question about a class routine and answer with often in a neutral position.

Answer: Open response - Accurate question order and a contextually sensible present-simple answer with often in a neutral position.

A10-09. S7-M07 L2: Complete the story: While Maya ____ (carry) the posters, one sheet ____ (fall).

Answer: While Maya was carrying the posters, one sheet fell. | Criteria: Accurate background activity plus completed event; governed delayed S7-M07 evidence, not new M09 content.

A11 · Reflect · What does the time line show?

Reflect briefly. Confidence selects practice but does not change the evidence result.

A11-01. What should you mark before choosing a form?

Answer: Mark the starting point, duration, whether the situation is true now and any finished endpoint.

A11-02. Why do since, for and recently not automatically choose a tense?

Answer: They contribute time information, but the complete continuing, up-to-now or finished viewpoint decides the form.

A11-03. Which error code do you most need to revisit, and what response/retry evidence shows this?

Answer: Open response - Names a relevant code and links it to actual evidence.

A11-04. Record confidence from 1-4, then choose: continue, repeat one contrast, revisit A03 or ask for teacher support.

Answer: Open response - Records confidence and an evidence-based route; does not claim mastery from confidence alone.

L0 · Retrieve · L0 — same-session exit

Close the module. Complete without notes or a tense heading.

L0-01. Starting point: Mina has been a member ____ September.

Answer: since September.

L0-02. Duration: Mina has been a member ____ six months.

Answer: for six months.

L0-03. Continuing state: I ____ (know) Ana since 2024.

Answer: have known.

L0-04. Finished period: Leo ____ (live) there from 2021 to 2023.

Answer: lived.

L0-05. Question: how long / Kai / have / the bicycle?

Answer: How long has Kai had the bicycle?

L0-06. Repair: We have known each other since we have joined the club.

Answer: We have known each other since we joined the club.

L0-07. Write one so-far progress statement with unfinished evidence.

Answer: Open response - Accurate present perfect and decisive progress-up-to-now evidence.

L0-08. Write one three-sentence start-duration-now time line.

Answer: Open response - Coherent present-perfect simple time line with matching since/for information and now evidence.

L1 · Retrieve · L1 — 1-3-day return

Complete later without the meaning/form box. Retry every routed error before recording evidence.

L1-01. Mina ____ (be) a member since September and is still a member.

Answer: has been.

L1-02. Repair: Mina has been a member since six months.

Answer: Mina has been a member for six months.

L1-03. Repair: Leo has lived there from 2021 to 2023, then moved away.

Answer: Leo lived there from 2021 to 2023, then moved away.

L1-04. Repair: How long did Kai had the bicycle if he still owns it now?

Answer: How long has Kai had the bicycle?

L1-05. Write one recent up-to-now count and one definite finished occasion.

Answer: Open response - Present perfect for the stated current count and past simple for the finished occasion; recently is not treated as an automatic trigger.

L1-06. Write a five-sentence safe or invented time line with start, duration, current evidence and a finished contrast.

Answer: Open response - Independent coherent transfer with accurate forms, since/for and endpoint control.

L2 · Retrieve · L2 — mixed return in S7-M11

In S7-M11 or the timetable equivalent, retrieve duration/time choice among modal meanings without a present-perfect heading.

L2-01. Choose the continuing situation: A. Mina was a member until December. B. Mina has been a member since September and is still one. C. Mina has been a member last September.

Answer: B

L2-02. Choose the duration: A. for three months B. since three months C. for March

Answer: A

L2-03. Repair: We have finished four tasks so far yesterday.

Answer: Choose one frame: We have finished four tasks so far; or We finished four tasks yesterday.

L2-04. Delayed repair: The pupils have worked together since they have joined the club.

Answer: The pupils have worked together since they joined the club.

L2-05. Write one continuing state, one progress count and one finished period; label meanings only after writing.

Answer: Open response - Three distinct meanings with accurate present-perfect/past-simple choice and no keyword-only rule.

L2-06. Write a four-sentence mixed-time return with a coherent start, duration, now and endpoint.

Answer: Open response - Coherent time line; accurate since/for, helper, participle and past-simple contrast.

L3 · Retrieve · L3 — 21-35-day retained-evidence gate

In S7-M15 or the timetable equivalent, complete the unseen time-line task in English. An external checker must verify both mixed editing and independent production after any governed retry.

L3-01. Edit: Mina has been a member since six months and she is still a member.

Answer: Mina has been a member for six months and she is still a member.

L3-02. Edit: Leo has lived there from 2021 to 2023, but he moved away.

Answer: Leo lived there from 2021 to 2023, but he moved away.

L3-03. Edit: We have known each other since we have joined the club.

Answer: We have known each other since we joined the club.

L3-04. Write an unseen eight-sentence safe or invented time line. Include a starting point, matching duration, How long question/answer, current evidence, so-far or recent progress and a finished-past contrast.

Answer: Open response - Externally checked independent transfer with coherent time relationships, accurate forms and no keyword-only choice.

L3-05. Record the external check, any diagnostic code and corrected retry. State whether both mixed editing and independent production passed.

Answer: Open response - Names checker evidence, records governed retry if needed and makes a Retained claim only when both delayed components pass.

Module progress check

Complete this after your first attempt and again after feedback.

☐ Not yet ☐ Nearly ☐ Secure I can distinguish a starting point from a duration and use since or for accurately.

☐ Not yet ☐ Nearly ☐ Secure I can show whether a situation continues now or ended in a finished past period.

☐ Not yet ☐ Nearly ☐ Secure I can use so far and recently from the complete intended viewpoint rather than as automatic tense triggers.

☐ Not yet ☐ Nearly ☐ Secure I can write and check a safe time line with matching start, duration, now and endpoint information.

One correction I can explain:

My next retrieval date: _____

Ability, permission and polite requests

LEARN → NOTICE → BUILD → CHOOSE → USE → CHECK → RETRIEVE → REFLECT

Your goals

- ☐ I can distinguish ability, permission and a request for another person's action.
- ☐ I can use can/can't for current ability and could/couldn't for past general ability.
- ☐ I can choose Can I, Could I or May I for stated permission relationships without an absolute politeness ranking.
- ☐ I can use Can you or Could you for respectful action requests and respond naturally.

Name: _____ Class: _____ Date: _____

A01 · Learn · What is the speaker doing?

Read each school exchange. Decide whether the speaker describes ability, asks for permission, or asks another person to do something.

A01-01. Kai can solve the puzzle without help.

Answer: Ability: Kai has the skill now.

A01-02. Can I borrow your ruler, please?

Answer: Permission: the speaker asks whether borrowing is allowed.

A01-03. Could you explain question four, please?

Answer: Request: the speaker asks another person to help.

A01-04. May I enter the science room, please?

Answer: Formal permission: the speaker asks whether entering is allowed.

A02 · Learn · Ability, permission and action requests

Explain the function and relationship in each complete context. The modal alone does not determine the meaning.

A02-01. Mina can use the new design program now.

Answer: Current ability: the context says Mina has the skill now.

A02-02. When Mina was eight, she could read short chapter books.

Answer: Past general ability: could describes a skill she had at that age.

A02-03. Can I sit here? — Yes, you can.

Answer: Common neutral permission question and a matching permission answer.

A02-04. Could I hand in the work tomorrow? — Yes, you can.

Answer: Tentative/polite permission question; a natural positive answer can use can rather than mechanically repeating could.

A02-05. Could you pass me the glue, please? — Of course.

Answer: Polite/tentative request for another person's action and an authentic response.

A03 · Notice · Modal function and form box

Read the complete box. First identify the function and relationship; then check modal + base verb.

A03-01. Current ability

Answer: Use can/can't + base verb for ability now or in general: Kai can swim. Mina can't use the program without help.

A03-02. Past general ability

Answer: Use could/couldn't + base verb for general ability in an earlier period: When she was eight, Mina could read chapter books.

A03-03. Permission

Answer: Can I ...? is common and neutral; Could I ...? is often more tentative; May I ...? is formal. Context, relationship and tone matter, so do not rank one form as always the most polite.

A03-04. Requests for action

Answer: Use Can you ...? for a common neutral request and Could you ...? for an often more tentative/polite request: Could you help me, please? Do not use May you ...? for this target action request.

A03-05. Core form

Answer: Modal + base verb: can swim, could help, may enter. Do not add to or third-person -s after the modal.

A03-06. Negative

Answer: Modal + not + base verb: cannot/can't swim; could not/couldn't read. Inability and lack of permission are different meanings, so use the complete context.

A03-07. Question form

Answer: Modal + subject + base verb ...? - Can Kai swim? Could you help? May I enter? Do not add do/does/did.

A03-08. Responses

Answer: Permission: Can I borrow it? - Yes, you can. Could I borrow it? - Yes, you can. Requests often take natural responses such as Of course, Sorry, not right now, or I can help after lunch.

A03-09. Politeness boundary

Answer: Could and may can create distance or formality, but wording, please, tone, relationship and situation also shape politeness. A longer form is not automatically better in every context.

A03-10. Scope guardrail

Answer: Could for hypothetical situations, may/can/could for possibility, single-event past success with was/were able to, and obligation/advice/prohibition meanings belong to later work. This module scores current/past general ability, permission and action requests only.

A04 · Notice · Mark function, relationship and form

For each exchange, label ABILITY, PERMISSION or REQUEST. Mark the modal, subject and base verb, then explain the social clue.

A04-01. Leo can carry the box now.

Answer: ABILITY; can + carry; the context describes what Leo is able to do now.

A04-02. When Leo was younger, he couldn't reach the top shelf.

Answer: PAST GENERAL ABILITY; could not + reach; the earlier life period is explicit.

A04-03. Can I use the blue paper? — Yes, you can.

Answer: PERMISSION; Can + I + use; the speaker asks whether use is allowed.

A04-04. May I leave the room for a moment, please?

Answer: FORMAL PERMISSION; May + I + leave; the speaker asks whether leaving is allowed in a school relationship.

A04-05. Can you hold this poster, please? — Sure.

Answer: REQUEST; Can + you + hold; the speaker asks the listener to act.

A04-06. Could you repeat the instruction, please? — Of course.

Answer: TENTATIVE/POLITE REQUEST; Could + you + repeat; the listener is asked to act.

A04-07. You can't enter the lab without a teacher.

Answer: NO PERMISSION in this context; can't + enter; the rule, not physical ability, blocks entry.

A04-08. Maya can't lift the table by herself.

Answer: INABILITY; can't + lift; the context concerns physical ability, not a rule.

A05 · Build · Build the intended function

Complete each line from the stated function. Use one target modal plus a base verb and an appropriate response where requested.

A05-01. current ability: Kai ____ (solve) the puzzle.

Answer: can solve.

A05-02. past general inability: At age six, Mina ____ (not/read) chapter books.

Answer: could not read / couldn't read.

A05-03. neutral permission: I / use / this chair?

Answer: Can I use this chair?

A05-04. formal permission: I / enter / now?

Answer: May I enter now?

A05-05. neutral request: you / pass / the scissors / please?

Answer: Can you pass the scissors, please?

A05-06. tentative request: you / explain / this line / please?

Answer: Could you explain this line, please?

A05-07. form repair: She can ____ (to draw) maps.

Answer: draw.

A05-08. question repair: Does Kai can swim?

Answer: Can Kai swim?

A05-09. permission response: Could I borrow the ruler? / yes

Answer: Yes, you can.

A05-10. respectful request response: Could you help now? / unavailable until lunch

Answer: Sorry, not right now. I can help after lunch.

A06 · Choose · Choose the function and relationship

Choose the one best line for the complete context. Politeness depends on wording, tone and relationship; every distractor routes to a specific repair.

A06-01. The sentence must describe Kai's present skill, not ask for permission or help.

A. May Kai solve the puzzle? B. Kai can solve the puzzle. C. Kai can to solve the puzzle.

Answer: B

A06-02. Describe Mina's general reading ability when she was eight.

- A. Mina could read chapter books when she was eight. B. Mina can read chapter books when she was eight.
C. Mina could to read chapter books when she was eight.

Answer: A

A06-03. A pupil asks a classmate for common neutral permission to use a ruler.

- A. Can you use your ruler? B. Do I can use your ruler? C. Can I use your ruler, please?

Answer: C

A06-04. A pupil uses a formal permission form before entering a staff room.

- A. May you let me enter? B. May I enter, please? C. I may enter, please?

Answer: B

A06-05. Ask a teacher to repeat an instruction with a tentative/polite action request.

- A. Could you repeat the instruction, please? B. Could I repeat the instruction, please? C. May you repeat the instruction, please?

Answer: A

A06-06. Ask a close classmate to pass the glue using a common neutral request.

- A. Can I pass the glue, please? B. Do you can pass the glue? C. Can you pass the glue, please?

Answer: C

A06-07. Choose the accurate modal form after she.

- A. She can draws maps. B. She can draw maps. C. She can to draw maps.

Answer: B

A06-08. Ask about Kai's present swimming ability.

- A. Can Kai swim? B. Does Kai can swim? C. Can Kai swims?

Answer: A

A06-09. A school rule—not physical ability—blocks entry to the lab.

- A. You can't lift the heavy box by yourself. B. You couldn't enter the lab when you were younger. C. You can't enter the lab without a teacher.

Answer: C

A06-10. Give a natural positive answer to the tentative permission question Could I borrow this ruler?

- A. Yes, you could. B. Yes, you can. C. Yes, I could.

Answer: B

A06-11. Ask another person to help carry a box with a tentative/polite action request.

- A. Could you help me carry this box, please? B. May you help me carry this box, please? C. Could I help me carry this box, please?

Answer: A

A06-12. Choose the coherent exchange: a pupil asks permission, then asks a classmate for action.

- A. Can you borrow the scissors? — Yes, I can. May you pass them? B. Could I borrow the scissors? — Yes, you could. Can I pass them? C. Could I borrow the scissors? — Yes, you can. Could you pass them, please?

Answer: C

A07 · Use · Respectful school role-play

Work with a partner or use an invented dialogue. Choose safe, non-private school situations. Respect refusals and never pressure another person. Complete the first attempt without the form box.

A07-01. Choose three situations: one ability check, one permission need and one request for help or an object.

Answer: Open response - Three age-appropriate safe situations with three distinct functions.

A07-02. Write one current or past-general ability statement and one matching ability question.

Answer: Open response - Accurate can/could + base verb and clear present or past-general time evidence.

A07-03. Write one neutral or formal permission exchange using Can I, Could I or May I.

Answer: Open response - Function is permission; modal/register fits the relationship; response is natural rather than mechanically copied.

A07-04. Write one neutral request with Can you and a respectful response.

Answer: Open response - Accurate action request, please or respectful wording, and plausible acceptance/refusal.

A07-05. Write one more tentative request with Could you and a respectful response.

Answer: Open response - Accurate action request; context supports tentative/polite wording; response respects availability.

A07-06. Perform or read the dialogue, then revise any function, base-verb or response problem.

Answer: Open response - Meaning remains clear in interaction; modal + base form is accurate; no pressure after refusal.

A07-07. Submit an eight-turn dialogue containing ability, permission, neutral request, tentative request, acceptance and respectful refusal.

Answer: Open response - Independent coherent transfer with accurate functions, forms, register, turn-taking and safe content.

A08 · Check · Diagnose function, form and interaction

Each item has one primary problem. Name the error code, repair it and explain the decisive function, time or relationship clue.

A08-01. The writer intends permission but asks: Can you borrow my ruler?

Answer: Can I borrow your ruler, please?

A08-02. She can to draw maps.

Answer: She can draw maps.

A08-03. When Mina was eight, she can read chapter books.

Answer: When Mina was eight, she could read chapter books.

A08-04. The writer wants a tentative request but writes: Can you repeat that?

Answer: Could you repeat that, please? The original can remain as a neutral request if that is the intended relationship.

A08-05. A pupil entering a formal meeting says only: I enter now?

Answer: May I enter now, please?

A08-06. Could I borrow the ruler? — Yes, you could.

Answer: Could I borrow the ruler? - Yes, you can.

A08-07. The writer intends a school rule but says: You can't enter the lab because you do not know the door code.

Answer: You can't enter the lab without a teacher. The repair makes lack of permission, not lack of knowledge, decisive.

A08-08. May you explain the question, please?

Answer: Could you explain the question, please?

A08-09. Could I use the scissors? — Yes, I can. — Could I pass them to me?

Answer: Could I use the scissors? - Yes, you can. - Could you pass them to me, please?

A09 · Check · Use the complete repair route

Choose one error from A06, A07 or A08. Follow Diagnose → Cue → Contrast → Retry → Explain/Reveal → Route.

A09-01. Record: original response → error code → retry → decisive function/time/relationship evidence → continue/revisit/teacher route.

Answer: Open response - Includes an actual retry, explains the decisive modal-function evidence and records a justified next route.

A10 · Retrieve · Reconstruct the modal-function system

Cover all explanations. Complete in English from memory. Items 8–9 are governed delayed returns from S7-M04 and S7-M08.

A10-01. Explain ability, permission and an action request without naming a modal first.

Answer: Ability describes what someone is able to do; permission asks or states what is allowed; an action request asks another person to do something.

A10-02. Build one current-ability and one past-general-ability sentence.

Answer: Open response - Accurate can/can't and could/couldn't + base verb with clear time meaning.

A10-03. Build a formal permission question for entering a room.

Answer: May I enter the room, please?

A10-04. Repair: Does Maya can use the program?

Answer: Can Maya use the program?

A10-05. Repair: May you pass the glue, please?

Answer: Could you pass the glue, please? / Can you pass the glue, please?

A10-06. Write one permission exchange and one action-request exchange; make the functions unmistakable.

Answer: Open response - Accurate I-versus-you orientation, modal + base form and natural responses.

A10-07. Write a four-turn school dialogue with one respectful refusal and no pressure after it.

Answer: Open response - Coherent unsupported interaction with accurate function, form, response and boundary respect.

A10-08. S7-M04 L3: Write a two-sentence update containing one usual routine and one different action happening now; make the meanings decisive.

Answer: Open response - Externally checkable present-simple routine plus present-continuous action-now contrast; governed delayed S7-M04 evidence, not new M10 content.

A10-09. S7-M08 L2: A notice asks whether Mina has any museum experience; it does not ask how long or when. Choose the matching line: A. Mina visited a museum last Friday. B. Mina has visited a museum, but she does not say when. C. Mina has been a museum-club member for six months and still is.

Answer: B | Criteria: Governed delayed S7-M08 experience-versus-duration-versus-finished-time discrimination; grammatical alternatives are rejected only because they express a different stated frame.

A11 · Reflect · What function and relationship matter?

Reflect briefly. Confidence selects practice but does not change the evidence result.

A11-01. What should you identify before choosing can, could or may?

Answer: Identify ability, permission or action request, then consider time, relationship, formality and tone.

A11-02. Why does could not always mean past time?

Answer: Could can describe past general ability, but it can also make a present permission question or action request more tentative.

A11-03. Which error code do you most need to revisit, and what response/retry evidence shows this?

Answer: Open response - Names a relevant code and links it to actual evidence.

A11-04. Record confidence from 1-4, then choose: continue, repeat one contrast, revisit A03 or ask for teacher support.

Answer: Open response - Records confidence and an evidence-based route; does not claim mastery from confidence alone.

L0 · Retrieve · L0 — same-session exit

Close the module. Complete without notes or a modal-function heading.

L0-01. Current ability: Kai ____ solve the puzzle.

Answer: can.

L0-02. Past general ability: At age eight, Mina ____ read chapter books.

Answer: could.

L0-03. Formal permission to enter a room.

Answer: May I enter the room, please?

L0-04. Tentative request for another person to repeat an instruction.

Answer: Could you repeat the instruction, please?

L0-05. Repair: She can draws maps.

Answer: She can draw maps.

L0-06. Repair: Could I borrow it? — Yes, you could.

Answer: Could I borrow it? - Yes, you can.

L0-07. Write one line where can't clearly means inability and one where it clearly means no permission.

Answer: Open response - Two accurate modal + base lines with decisive skill-versus-rule contexts.

L0-08. Write one three-turn permission/request exchange with a natural response.

Answer: Open response - Clear function, correct I/you orientation, modal + base and coherent response.

L1 · Retrieve · L1 — 1-3-day return

Complete later without the meaning/form box. Retry every routed error before recording evidence.

L1-01. When Leo was six, he ____ (not/swim).

Answer: could not swim / couldn't swim.

L1-02. Repair: Does Maya can use the printer?

Answer: Can Maya use the printer?

L1-03. Repair: May you hold this poster, please?

Answer: Could you hold this poster, please? / Can you hold this poster, please?

L1-04. Write one neutral permission request and one formal permission request for different school relationships.

Answer: Open response - Can I/Could I/May I choices fit the stated relationships without an absolute politeness ranking.

L1-05. Write one neutral action request and one more tentative action request, each with a natural response.

Answer: Open response - Can you/Could you + base forms and plausible respectful responses.

L1-06. Write a six-turn safe or invented school dialogue with ability, permission, request and respectful refusal.

Answer: Open response - Independent coherent transfer with accurate functions, forms, turn-taking and boundary respect.

L2 · Retrieve · L2 — mixed return in S7-M12

In S7-M12 or the timetable equivalent, retrieve ability/permission/request meanings among later possibility meanings without a modal-labelled heading.

L2-01. Choose current ability: A. Kai may solve it, perhaps. B. Kai can solve it; he knows how. C. Can Kai solve it for me?

Answer: B

L2-02. Choose formal permission: A. May I enter, please? B. May you enter me? C. I may enter?

Answer: A

L2-03. Repair the intended action request: May you explain this line?

Answer: Could you explain this line, please? / Can you explain this line, please?

L2-04. Repair: When she was seven, Mina can read short books.

Answer: When she was seven, Mina could read short books.

L2-05. Write one ability statement, one permission exchange and one request exchange; label functions only after writing.

Answer: Open response - Three distinct functions with accurate form, time/register and natural responses.

L2-06. Write a four-turn mixed-modal interaction without treating may-possibility as permission or request.

Answer: Open response - Coherent M10 function control in an S7-M12 host; later possibility meaning remains separately labelled by the host.

L3 · Retrieve · L3 — 21-35-day retained-evidence gate

In S7-M16 or the timetable equivalent, complete the unseen school-interaction task in English. An external checker must verify both mixed editing and independent production after any governed retry.

L3-01. Edit: Does Leo can swim now? — Yes, he can swims.

Answer: Can Leo swim now? - Yes, he can.

L3-02. Edit the intended formal permission exchange: May you enter the room? — Yes, I may.

Answer: May I enter the room, please? - Yes, you may.

L3-03. Edit the intended tentative request: Can you help me? — Of course.

Answer: Could you help me, please? - Of course. The original Can you ...? can remain if a neutral request is intended.

L3-04. Write an unseen eight-turn safe school dialogue. Include present or past-general ability, neutral/formal permission, neutral/tentative action requests, acceptance and respectful refusal.

Answer: Open response - Externally checked independent transfer with accurate function, form, time/register, response and no pressure after refusal.

L3-05. Record the external check, any diagnostic code and corrected retry. State whether both mixed editing and independent production passed.

Answer: Open response - Names checker evidence, records governed retry if needed and makes a Retained claim only when both delayed components pass.

Module progress check

Complete this after your first attempt and again after feedback.

☐ Not yet ☐ Nearly ☐ Secure I can distinguish ability, permission and a request for another person's action.

☐ Not yet ☐ Nearly ☐ Secure I can use can/can't for current ability and could/couldn't for past general ability.

☐ Not yet ☐ Nearly ☐ Secure I can choose Can I, Could I or May I for stated permission relationships without an absolute politeness ranking.

☐ Not yet ☐ Nearly ☐ Secure I can use Can you or Could you for respectful action requests and respond naturally.

One correction I can explain:

My next retrieval date: _____

Obligation, necessity and advice

LEARN → NOTICE → BUILD → CHOOSE → USE → CHECK → RETRIEVE → REFLECT

Your goals

- ☐ I can distinguish a requirement from advice and an optional action.
- ☐ I can use must, have to and need to for stated obligation or necessity contexts.
- ☐ I can use should and ought to for advice without claiming an absolute strength difference.
- ☐ I can distinguish must not prohibition from do not have to absence of necessity.

Name: _____ Class: _____ Date: _____

A01 · Learn · What kind of message is this?

Read each fictional club notice. Decide whether it gives an obligation, practical necessity, advice, prohibition or absence of necessity.

A01-01. All members must sign in before the club starts.

Answer: Obligation/rule: signing in is required.

A01-02. We have to leave by five because the building closes then.

Answer: External necessity: the closing time creates the requirement.

A01-03. New members should bring a bottle of water.

Answer: Advice: bringing water is recommended, not stated as compulsory.

A01-04. Visitors must not enter the equipment room.

Answer: Prohibition: entering is not allowed.

A01-05. You do not have to bring paper; the club provides it.

Answer: Absence of necessity: bringing paper is optional.

A02 · Learn · Necessity, advice and the negative contrast

Explain what creates the message and whether the listener has a choice. Positive must and have to can overlap, so use the complete context.

A02-01. We need to charge the tablet before the activity.

Answer: Practical necessity: charging is needed for the activity to work.

A02-02. You ought to check the weather before the outdoor club meets.

Answer: Advice: checking is a sensible recommendation.

A02-03. You must not use the machine without a teacher. You do not have to use it today.

Answer: The first line prohibits use without a teacher; the second says use today is optional.

A02-04. The club leader says, 'Members must wear badges.' Mina reports, 'We have to wear badges.'

Answer: Both express obligation. Must presents the rule directly; have to naturally reports the requirement.

A03 · Notice · Obligation, necessity and advice box

Read the whole box. Identify meaning and source first; then check whether the form is a modal, ought to, or an ordinary verb pattern.

A03-01. Strong obligation or direct rule

Answer: Use must + base verb when the speaker or written authority presents a strong requirement: Members must sign in.

A03-02. Reported or external necessity

Answer: Use have/has to + base verb when a timetable, situation or other requirement creates the necessity: We have to leave because the building closes.

A03-03. Practical necessity

Answer: Use need/needs to + base verb when an action is necessary for a goal or situation: We need to charge the tablet.

A03-04. Advice

Answer: Use should + base verb or ought to + base verb for a recommendation: You should bring water. You ought to check the weather. Ought to is less common and can sound more formal, but it is not always stronger.

A03-05. Prohibition

Answer: Use must not/mustn't + base verb when an action is forbidden: You mustn't enter the equipment room.

A03-06. No necessity

Answer: Use do/does not have to + base verb when an action is optional: You don't have to bring paper. Do not confuse this with prohibition.

A03-07. Core form groups

Answer: Must/should + bare base; ought to + base; have/need change with the subject: she has to, she needs to. Do not write musts, must to or should to.

A03-08. Questions and negatives

Answer: Must/should form questions directly: Must we leave? Should we ask? Have to/need to normally use do-support: Do we have to leave? Does she need to bring it?

A03-09. Best-fit boundary

Answer: Positive must and have to often overlap. A direct rule or personal strong necessity often uses must; an ordinary report of an outside requirement often uses have to. Context and variety matter, so this is not an absolute rule or strength ladder.

A03-10. Scope guardrail

Answer: This module scores present/general obligation, necessity, advice, prohibition and no necessity. Must for deduction and might for possibility belong to S7-M12; needn't, have got to, past had to and future will have to remain later or extension work.

A04 · Notice · Mark meaning, source and form

Label each line OBLIGATION, NECESSITY, ADVICE, PROHIBITION or NO NECESSITY. Mark the verb group and the clue that makes the meaning decisive.

A04-01. Club members must wear their badges.

Answer: OBLIGATION; must + wear; the official rule is direct.

A04-02. Mina has to take the early bus because the club begins at eight.

Answer: EXTERNAL NECESSITY; has to + take; the timetable creates the need.

A04-03. We need to save the file before closing the program.

Answer: PRACTICAL NECESSITY; need to + save; the goal requires the action.

A04-04. You should read the safety card first.

Answer: ADVICE; should + read; this is a recommendation.

A04-05. You ought to tell the leader if you feel unwell.

Answer: ADVICE; ought to + tell; this is sensible guidance.

A04-06. Members mustn't share the door code.

Answer: PROHIBITION; must not + share; the action is forbidden.

A04-07. You don't have to own a camera; the club can lend you one.

Answer: NO NECESSITY; do not have to + own; ownership is optional.

A04-08. Leo doesn't have to stay after four.

Answer: NO NECESSITY; does not have to + stay; leaving at four is allowed.

A05 · Build · Build the intended message

Complete each line from the stated meaning. Keep reasons short and use because or so only when they make the source of the message clearer.

A05-01. direct club rule: Members ____ (sign in).

Answer: must sign in (target direct-rule form); have to sign in is also grammatical.

A05-02. external schedule: Mina ____ (leave) at five because the building closes.

Answer: has to leave (ordinary best-fit report); must leave is also grammatical.

A05-03. practical necessity: We ____ (charge) the tablet.

Answer: need to charge.

A05-04. recommendation: You ____ (bring) water.

Answer: should bring.

A05-05. formal-sounding advice: You ____ (check) the weather.

Answer: ought to check.

A05-06. prohibition: Visitors ____ (enter) the store room.

Answer: must not enter / mustn't enter.

A05-07. optional action: You ____ (bring) paper; we provide it.

Answer: do not have to bring / don't have to bring.

A05-08. form repair: She musts wear a badge.

Answer: She must wear a badge.

A05-09. external-requirement question: we / have to / book a place?

Answer: Do we have to book a place?

A05-10. no-necessity statement about Leo: Leo / not have to / stay late.

Answer: Leo does not have to stay late / doesn't have to stay late.

A06 · Choose · Choose the best message for the context

Choose one best line for the complete fictional-club context. Treat must/have to as contextual tendencies, not an absolute split. Every distractor routes to repair.

A06-01. The safety notice states a non-negotiable rule: eye protection is required.

- A. Members should wear eye protection. B. Members must wear eye protection. C. Members don't have to wear eye protection.

Answer: B

A06-02. The last bus leaves at five. Report this external timetable requirement in an ordinary way.

- A. We have to leave at five because the last bus leaves then. B. We should leave at five, but it is optional. C. We mustn't leave at five.

Answer: A

A06-03. The tablet has no power. State the practical action necessary before the activity.

- A. We mustn't charge the tablet. B. We ought not to use a tablet. C. We need to charge the tablet.

Answer: C

A06-04. Give helpful advice, not a club rule: bringing water is sensible but optional.

- A. You must bring water. B. You should bring water. C. You mustn't bring water.

Answer: B

A06-05. Choose the complete ought to advice form.

- A. You ought to check the weather. B. You ought check the weather. C. You ought to checking the weather.

Answer: A

A06-06. The equipment-room notice forbids entry without a teacher.

- A. You don't have to enter without a teacher. B. You should not enter, but you may choose. C. You must not enter without a teacher.

Answer: C

A06-07. The club provides paper, so bringing your own is optional.

- A. You mustn't bring paper. B. You don't have to bring paper. C. You must bring paper.

Answer: B

A06-08. Choose the accurate third-person external-necessity form.

- A. Mina has to leave at five. B. Mina have to leave at five. C. Mina has must leave at five.

Answer: A

A06-09. Choose the accurate modal form for a direct rule.

- A. Members must to sign in. B. Members musts sign in. C. Members must sign in.

Answer: C

A06-10. Ask whether an external club rule requires booking.

- A. Does we have to book? B. Do we have to book? C. Do we have to booking?

Answer: B

A06-11. The sentence is a recommendation from a friend, not a requirement.

- A. You ought to arrive a little early. B. You have to arrive early; the rule requires it. C. You must not arrive early.

Answer: A

A06-12. Choose the coherent notice: badge required, own pen optional, early arrival recommended.

- A. You don't have to wear a badge. You mustn't bring a pen. You have to arrive early if you want. B. You should wear a badge because it is compulsory. You must bring a pen although we provide one. You mustn't arrive early. C. You must wear a badge. You don't have to bring a pen. You should arrive a little early.

Answer: C

A07 · Use · Create a balanced fictional club guide

Create a fictional or teacher-approved club guide; do not present invented lines as real school policy. Use safe, age-appropriate requirements and explain reasons respectfully. Complete the first attempt without the form box.

A07-01. Name the fictional club, its activity and the audience for the guide.

Answer: Open response - Clear safe club context and intended audience; no private or real policy claim.

A07-02. Write two genuine obligations: one direct rule and one externally caused requirement. Explain each with because or so.

Answer: Open response - Accurate must and have/has to forms; reasons make the rule/source distinction plausible without claiming it is absolute.

A07-03. Write one practical necessity with need to and explain the goal.

Answer: Open response - Accurate need/needs to + base and a coherent practical reason.

A07-04. Write one safety prohibition with must not/mustn't.

Answer: Open response - A clearly forbidden, safe and age-appropriate action; accurate must not + base.

A07-05. Write one optional action with do/does not have to.

Answer: Open response - Absence of necessity is unmistakable and is not presented as a prohibition.

A07-06. Write two recommendations, one with should and one with ought to; add one example or reason.

Answer: Open response - Both are genuine advice rather than disguised rules; accurate should + base and ought to + base.

A07-07. Submit and explain a balanced seven-line guide, then repair any strength, negative-meaning, form or coherence problem.

Answer: Open response - Independent coherent transfer containing obligations, necessity, advice, prohibition, no necessity and respectful reasons.

A08 · Check · Diagnose meaning, source and form

Each item has one primary problem or false claim. Name the error code, repair it and explain the decisive requirement, choice or form clue.

A08-01. A safety officer says eye protection is compulsory: You should wear eye protection.

Answer: You must wear eye protection. The compulsory safety context requires obligation, not optional advice.

A08-02. A note claims: Have to can never express a rule; only must is possible.

Answer: Have to can express and report rules too. Must often presents a rule directly, while have to often reports a requirement; the positive forms overlap.

A08-03. The writer intends prohibition: You don't have to enter the equipment room.

Answer: You must not enter the equipment room.

A08-04. She musts bring her badge.

Answer: She must bring her badge.

A08-05. Does Mina has to leave at five?

Answer: Does Mina have to leave at five?

A08-06. You ought check the weather.

Answer: You ought to check the weather.

A08-07. You don't need bring paper.

Answer: You don't need to bring paper.

A08-08. The module writer tests deduction as a rule: Leo's bicycle is outside, so he must be in the club room.

Answer: Reserve deduction for S7-M12. For the M11 target, use an obligation context such as: Leo must wear his badge in the club room.

A08-09. Repair the contradictory guide: Members must bring all tools. Members don't have to bring any tools. You should never enter the store room.

Answer: Example repair: Members don't have to bring tools because the club provides them. Members mustn't enter the store room without a teacher. Members should label their own water bottles.

A09 · Check · Use the complete repair route

Choose one error from A06, A07 or A08. Follow Diagnose → Cue → Contrast → Retry → Explain/Reveal → Route.

A09-01. Record: original response → error code → retry → decisive obligation/choice/form evidence → continue/revisit/teacher route.

Answer: Open response - Includes an actual retry, explains the decisive meaning/source/form evidence and records a justified next route.

A10 · Retrieve · Reconstruct the obligation system

Cover all explanations. Complete in English from memory. Items 8–9 are governed delayed returns from S7-M05 and S7-M09.

A10-01. Explain obligation, practical necessity, advice, prohibition and no necessity without naming a form first.

Answer: Obligation and necessity say an action is required; advice recommends an action; prohibition says an action is forbidden; no necessity says an action is optional.

A10-02. State the three form groups for must/should, ought to, and have/need.

Answer: Must/should + bare base; ought to + base; have/has to and need/needs to + base, with do-support in ordinary questions/negatives.

A10-03. Write one direct rule and one report of an external requirement; keep the contexts decisive.

Answer: Open response - Accurate must and have/has to forms with plausible direct-rule versus external/reporting evidence; no absolute split claimed.

A10-04. Repair the intended prohibition: You don't have to share the door code.

Answer: You must not share the door code / You mustn't share the door code.

A10-05. Ask whether members are required to book a place.

Answer: Do members have to book a place?

A10-06. Write one should recommendation and one ought to recommendation.

Answer: Open response - Accurate advice forms in optional contexts; no unsupported universal register or strength claim.

A10-07. Write a five-line fictional club notice containing a rule, necessity, advice, prohibition and optional action.

Answer: Open response - Coherent unsupported set with all five meanings and accurate forms.

A10-08. S7-M05 L3: Write four sentences about one club: two usual routines and two different temporary actions happening this week. Make each time meaning decisive.

Answer: Open response - Externally checkable present-simple routine versus present-continuous temporary-present production; governed delayed S7-M05 evidence, not new M11 content.

A10-09. S7-M09 L2: A profile says Mina joined the club six months ago and is still a member. Choose the line that expresses the full start-duration-now meaning: A. Mina joined the club six months ago. B. Mina has been a club member for six months. C. Mina is being a club member for six months.

Answer: B | Criteria: Governed S7-M09 duration-to-now retrieval; A states only the finished joining event and C does not fit the target state meaning.

A11 · Reflect · What requirement and choice matter?

Reflect briefly. Confidence selects practice but does not change the evidence result.

A11-01. What question separates must not from do not have to?

Answer: Ask whether the action is forbidden or simply optional.

A11-02. Why is must versus have to not a perfect two-box rule?

Answer: Both can express obligation. Direct presentation versus external/reporting source is a useful tendency, but context and variety allow overlap.

A11-03. How do you separate a rule from advice?

Answer: A rule or necessity requires an action; advice recommends it and normally leaves a choice.

A11-04. What form difference makes ought to unusual in this set?

Answer: It includes to before the base verb: ought to check, while should takes the bare base: should check.

A11-05. Which error code do you most need to revisit, and what retry evidence shows this?

Answer: Open response - Names a relevant code and links it to actual evidence.

A11-06. Record confidence from 1-4, then choose: continue, repeat one contrast, revisit A03 or ask for teacher support.

Answer: Open response - Records confidence and an evidence-based route; does not claim mastery from confidence alone.

L0 · Retrieve · L0 — same-session exit

Close the module. Complete without notes or an obligation heading.

L0-01. Direct rule: Members ____ sign in.

Answer: must (best fit); have to can also state the rule.

L0-02. External schedule: Mina ____ leave at five because the building closes.

Answer: has to (ordinary best fit); must is also grammatical.

L0-03. Advice: You ____ bring water.

Answer: should / ought to.

L0-04. Prohibition: Visitors ____ enter the store room.

Answer: must not / mustn't.

L0-05. No necessity: You ____ bring paper; we provide it.

Answer: do not have to / don't have to.

L0-06. Repair: She musts wear a badge.

Answer: She must wear a badge.

L0-07. Write one need to necessity and explain the goal.

Answer: Open response - Accurate need/needs to + base and a decisive practical purpose.

L0-08. Write a four-line balanced notice: obligation, advice, prohibition and no necessity.

Answer: Open response - Four distinct meanings, accurate forms and coherent safe content.

L1 · Retrieve · L1 — 1-3-day return

Complete later without the meaning/form box. Retry every routed error before recording evidence.

L1-01. Repair the intended no-necessity line: You mustn't bring a camera; the club can lend you one.

Answer: You don't have to bring a camera; the club can lend you one.

L1-02. Repair: Does Leo has to stay late?

Answer: Does Leo have to stay late?

L1-03. Repair: Members ought arrive early.

Answer: Members ought to arrive early.

L1-04. Write one direct rule and one external necessity; explain why each wording is a good fit but not the only grammatical possibility.

Answer: Open response - Qualified must/have to contrast with accurate forms and decisive contexts.

L1-05. Write one prohibited action and one optional action in the same fictional club.

Answer: Open response - Accurate must not versus do not have to meanings and forms.

L1-06. Write a six-line fictional guide with obligation, need, two advice forms, prohibition and no necessity.

Answer: Open response - Independent coherent transfer with accurate meanings, forms and safe respectful content.

L2 · Retrieve · L2 — mixed return in S7-M13

In S7-M13 or the timetable equivalent, retrieve M11 meanings inside an event-plan context and keep S7-M12 possibility separate.

L2-01. Choose the strict club rule, not a possibility or recommendation: A. Members might arrive at eight. B. Members should arrive by eight. C. Members must arrive by eight.

Answer: C

L2-02. Choose no necessity: A. You mustn't bring food. B. You don't have to bring food; snacks are provided. C. You should bring food because it is required.

Answer: B

L2-03. Repair: If you join the trip, you should pay by Friday; payment is compulsory.

Answer: If you join the trip, you have to pay by Friday / you must pay by Friday.

L2-04. Write a four-line event note with one requirement, one practical necessity, one recommendation and one optional action.

Answer: Open response - Accurate M11 transfer in an S7-M13 host; future/condition language is checked separately by that host.

L3 · Retrieve · L3 — 21-35-day retained-evidence gate

In S7-M17 or the timetable equivalent, complete the unseen club-comparison task in English. An external checker must verify mixed editing and independent production after any governed retry.

L3-01. Edit the intended prohibition: Members don't have to share the door code.

Answer: Members must not share the door code / Members mustn't share the door code.

L3-02. A note claims this line is wrong because an external reason can only use have to: Mina must leave early because her bus departs at five.

Answer: The original sentence is grammatical. Mina has to leave early is an ordinary best-fit report of the external schedule, but positive must and have to overlap.

L3-03. Edit the advice form: New members ought bring water, but it is not a rule.

Answer: New members ought to bring water, but it is not a rule.

L3-04. Compare two fictional clubs, then write an unseen seven-line guide for your preferred club. Include obligation, external/practical necessity, advice, prohibition and no necessity.

Answer: Open response - Externally checked independent transfer with a clear comparison basis, accurate M11 meanings/forms and safe coherent guidance.

L3-05. Record the external check, any diagnostic code and corrected retry. State whether both mixed editing and independent production passed.

Answer: Open response - Names checker evidence, records governed retry if needed and makes a Retained claim only when both delayed components pass.

Module progress check

Complete this after your first attempt and again after feedback.

- ☐ Not yet ☐ Nearly ☐ Secure I can distinguish a requirement from advice and an optional action.
- ☐ Not yet ☐ Nearly ☐ Secure I can use must, have to and need to for stated obligation or necessity contexts.
- ☐ Not yet ☐ Nearly ☐ Secure I can use should and ought to for advice without claiming an absolute strength difference.
- ☐ Not yet ☐ Nearly ☐ Secure I can distinguish must not prohibition from do not have to absence of necessity.

One correction I can explain:

My next retrieval date: _____

Possibility and modal review

LEARN → NOTICE → BUILD → CHOOSE → USE → CHECK → RETRIEVE → REFLECT

Your goals

- ☐ I can distinguish a possible outcome, a probable outcome and a strong conclusion from evidence.
- ☐ I can use may and might for possibility without assigning fixed percentages.
- ☐ I can place probably and perhaps in controlled prediction frames.
- ☐ I can distinguish possibility and deduction from ability, permission, requests, obligation and advice.

Name: _____ Class: _____ Date: _____

A01 · Learn · How certain is the speaker?

Read each fictional forecast or observation. Decide whether it expresses general possibility, a possible prediction, a probable prediction or a strong conclusion from evidence. Do not assign exact percentages.

A01-01. The afternoon sky may clear before the match.

Answer: A possible prediction: the speaker allows this outcome but does not present it as probable or certain.

A01-02. The outdoor concert might move into the hall.

Answer: A possible prediction: moving indoors is one live outcome.

A01-03. The organisers have checked three forecasts. The match will probably start outside.

Answer: A probable prediction: the speaker judges an outdoor start more likely, not guaranteed.

A01-04. Perhaps the rain will stop before lunch.

Answer: A possible prediction framed with perhaps.

A01-05. The lights are on, music is playing and Mina's bag is inside. She must be in the music room.

Answer: A strong conclusion from evidence: deduction must, not an obligation and not absolute proof.

A02 · Learn · One form, different modal jobs

Identify the modal function in each complete context. Explain which information makes the function clear.

A02-01. Leo can carry the small speaker by himself.

Answer: Ability: can says Leo is able to carry it.

A02-02. May I move this chair near the window?

Answer: Permission request: the speaker asks whether moving the chair is allowed.

A02-03. All visitors must sign in at the desk.

Answer: Obligation: the notice requires an action.

A02-04. The event may finish early if the rain becomes heavy.

Answer: Possibility: the event finishing early is an uncertain outcome.

A03 · Notice · Possibility and certainty box

Read the whole box. Judge the intended certainty and modal function before checking form or adverb position.

A03-01. Calibrate, do not calculate

Answer: Possible, probable and strong-evidence conclusions are useful meaning bands, not fixed percentages. Evidence and context control the claim.

A03-02. May and might for possibility

Answer: Use may/might + base verb for a possible present or future outcome: It may rain. The match might move indoors. They overlap; might can sometimes sound more tentative, but it is not a fixed lower-certainty rule.

A03-03. Must for a strong deduction

Answer: Use must + base/be when evidence supports a strong conclusion: The lights are on, so Mina must be inside. This is an inference, not an obligation and not absolute proof.

A03-04. Probably

Answer: Probably is an adverb, not a modal. A controlled future frame is subject + will probably + base: The match will probably start outside. With a present form of be and no other auxiliary, place it after be: The hall is probably full.

A03-05. Perhaps

Answer: Perhaps is an adverb that can introduce a complete clause: Perhaps the rain will stop. In this future-prediction target, do not write perhaps to stop or attach perhaps directly to a base verb as if it were a modal.

A03-06. Positive and negative possibility

Answer: May/might take a bare base and form the target negative directly: may not/might not + base. Context must distinguish possible non-occurrence from a permission meaning of may not.

A03-07. Can and specific predictions

Answer: Can often expresses ability, permission or general possibility: Weather can change quickly. For one uncertain future event, may or might is the controlled target: It might rain later.

A03-08. Review modal function

Answer: Can/could/may can serve ability, permission or requests; must can express obligation or a strong deduction. Review includes affirmative, negative and interrogative/question forms plus accurate common contractions. The complete situation, not translation alone, identifies the function.

A03-09. Prediction frame boundary

Answer: Will probably and perhaps ... will support basic predictions here. The full choice between will and be going to belongs to S7-M13; M12 does not score that future-form contrast.

A03-10. Scope guardrail

Answer: This module scores present/future possibility, approximate probability, strong present deduction and integrated S7-M10/M11 modal functions. Exact probability scales, may well, could possibly, must have/could have past deduction and full future-form choice remain later or extension work.

A04 · Notice · Mark certainty, function and form

Label each line GENERAL POSSIBILITY, POSSIBLE, PROBABLE, STRONG DEDUCTION, ABILITY, PERMISSION or OBLIGATION. Mark the evidence and the complete verb or adverb frame.

A04-01. Weather can change quickly near the hills.

Answer: GENERAL POSSIBILITY; can + change; the statement describes what is sometimes possible generally.

A04-02. The clouds may clear before the race.

Answer: POSSIBLE; may + clear; one future outcome remains open.

A04-03. The bus might arrive late because the road is busy.

Answer: POSSIBLE; might + arrive; the reason supports possibility but does not guarantee it.

A04-04. The school fair will probably move indoors; two forecasts show heavy rain.

Answer: PROBABLE; will probably + move; multiple forecasts support a likely outcome.

A04-05. Perhaps the final game will begin after lunch.

Answer: POSSIBLE; perhaps + complete clause; the timing is uncertain.

A04-06. The hall is dark and locked. The event must be over.

Answer: STRONG DEDUCTION; must + be; the visible evidence supports a strong conclusion.

A04-07. Mina can design the event poster.

Answer: ABILITY; can + design; this states what Mina is able to do.

A04-08. Visitors must wear badges during the event.

Answer: OBLIGATION; must + wear; this requires an action rather than drawing a conclusion.

A05 · Build · Build the intended claim

Complete each line from the stated meaning. Keep certainty approximate and make the evidence strong enough for the claim.

A05-01. possible forecast with may: The sky ____ (clear) later.

Answer: may clear.

A05-02. possible event change with might: The concert ____ (move) indoors.

Answer: might move indoors.

A05-03. probable prediction: The match ____ (probably / start) outside.

Answer: will probably start outside.

A05-04. perhaps prediction: ____ the rain will stop before noon.

Answer: Perhaps the rain will stop before noon.

A05-05. strong deduction from lights and music: Mina ____ (be) inside.

Answer: must be inside.

A05-06. negative possibility: The bus ____ (not / arrive) before six.

Answer: may not arrive / might not arrive before six.

A05-07. general possibility: Outdoor plans ____ (change) quickly.

Answer: can change quickly.

A05-08. form repair: It might to rain after lunch.

Answer: It might rain after lunch.

A05-09. adverb-form repair: The hall will probable be full.

Answer: The hall will probably be full.

A05-10. function contrast: Write one must obligation and one must deduction.

Answer: Open response - One line requires an action; one line draws a strong present conclusion from stated evidence; both use must + base accurately.

A06 · Choose · Choose the best-calibrated claim

Choose one best line for the complete context. Treat may/might and certainty bands as contextual, not fixed percentage scales. Every distractor routes to repair.

A06-01. One forecast shows a small chance of rain; the speaker wants a possible claim, not a certainty.

A. It must rain later. B. It might rain later. C. It will probably rain later.

Answer: B

A06-02. Three reliable forecasts agree. Choose the controlled probable-prediction word order.

A. The match will probably move indoors. B. The match will probable move indoors. C. The match will probability move indoors.

Answer: A

A06-03. Frame a possible outcome with perhaps.

A. The event perhaps to finish early. B. The event will perhapses finish early. C. Perhaps the event will finish early.

Answer: C

A06-04. The door is locked, the lights are off and everyone has left. Draw a strong present conclusion from this evidence.

- A. The event might be over, and there is almost no evidence. B. The event must be over. C. The event must finish by five; this is a rule.

Answer: B

A06-05. Choose the accurate might form for one uncertain event.

- A. It might to rain. B. It might rains. C. It might rain.

Answer: C

A06-06. State a general possibility about mountain weather, not one specific forecast.

- A. Weather can change quickly in the mountains. B. The weather might change quickly there this afternoon. C. Weather perhaps change quickly.

Answer: A

A06-07. The organiser is unsure whether the doors will open early. Choose possibility, not permission.

- A. May I open the doors early? B. Visitors may open the doors early. C. The doors may open early.

Answer: C

A06-08. The event notice states a non-negotiable badge rule. Choose obligation, not a deduction.

- A. Visitors might wear badges. B. Visitors must wear badges. C. Visitors must be wearing badges because I can see blue shapes.

Answer: B

A06-09. The booking page shows 98 of 100 places filled. Choose the controlled probably description with be.

- A. The event is probably nearly full. B. The event is probable nearly full. C. The event mights be nearly full.

Answer: A

A06-10. Choose the accurate statement about may and might.

- A. May always means exactly 60% and might exactly 30%. B. Might is always impossible when may is possible. C. May and might overlap; might can sound more tentative, but context controls the claim.

Answer: C

A06-11. Choose the coherent set: one possible outcome, one probable outcome and one strong evidence-based conclusion.

- A. It must rain, although the sky is clear. The match might certainly move. The locked hall perhaps be open. B. It may rain. The match will probably move indoors. The locked, dark hall must be empty. C. It probably rain. The match may to move. The hall must empty.

Answer: B

A06-12. Choose the accurate scope boundary for this module.

- A. We can use will probably and perhaps ... will without scoring the full will/be going to contrast yet. B. Every future sentence must use will because be going to is wrong. C. M12 assigns exact percentages to may, might and probably.

Answer: A

A07 · Use · Create a justified event forecast

Create a fictional or teacher-approved weather/event forecast; do not present invented information as a real forecast or school announcement. Use safe, age-appropriate evidence and complete the first attempt without the certainty box.

A07-01. Name the fictional event, time and evidence sources available to the speaker.

Answer: Open response - Clear safe event context with two or more fictional/teacher-provided evidence points; no invented real-world claim.

A07-02. Write two genuinely possible outcomes: one with may and one with might.

Answer: Open response - Accurate modal + base forms; both claims remain possible and do not assert a fixed may/might percentage difference.

A07-03. Write one probable prediction with will probably and justify it.

Answer: Open response - Controlled subject + will probably + base frame with evidence supporting a likely but non-guaranteed outcome.

A07-04. Write one possible prediction beginning with Perhaps.

Answer: Open response - Perhaps introduces a complete grammatical clause and the meaning remains uncertain.

A07-05. Write one strong present deduction with must and state the decisive evidence.

Answer: Open response - Must expresses a strong inference rather than an obligation; evidence is substantial but the wording does not claim absolute proof.

A07-06. Add eight short review lines: ability with can; a polite request with could; permission with may; obligation with must; external necessity with have to; practical necessity with need to; advice with should or ought to; and a must not/do not have to negative contrast. Label each function.

Answer: Open response - Accurate S7-M10/M11 forms and functions across can, could, may, must, have to, need to, should/ought to, prohibition and no necessity; none is mislabelled as possibility or deduction.

A07-07. Submit and explain a coherent six-claim forecast, then repair any certainty, function, form, placement or evidence problem.

Answer: Open response - Independent calibrated transfer using may, might, probably, perhaps and deduction must with coherent evidence and a recorded repair where needed.

A08 · Check · Diagnose certainty, function and form

Each item has one primary problem or false claim. Name the error code, repair it and explain the decisive certainty, function, form or evidence clue.

A08-01. There is one weak forecast, so the match must move indoors.

Answer: The match may/might move indoors. Weak evidence supports possibility, not a strong deduction.

A08-02. A certainty chart says may always equals 60% and might always equals 30%.

Answer: May and might overlap. Might can sometimes sound more tentative, but neither has a fixed universal percentage.

A08-03. The bus might arrives after six.

Answer: The bus might arrive after six.

A08-04. The concert will probable move indoors.

Answer: The concert will probably move indoors.

A08-05. The rain perhaps to stop before lunch.

Answer: Perhaps the rain will stop before lunch.

A08-06. May I carry the box? The note labels this as a weather possibility.

Answer: This is a permission request. A possibility example is: The event may finish early.

A08-07. For one uncertain forecast, the workbook insists: It can rain at three is always the best target.

Answer: Use It may/might rain at three as the controlled specific-prediction target. Can naturally expresses general possibility in Weather can change quickly; wider uses are not declared universally wrong.

A08-08. The rule says visitors must sign in. A learner labels must as a strong deduction.

Answer: Must expresses obligation here because the notice requires an action. Deduction must draws a strong conclusion from evidence.

A08-09. The report says: It must rain because rain is possible. It may certainly stop. Perhaps the event move indoors.

Answer: Example repair: It may rain. It will probably stop by noon because two forecasts agree. Perhaps the event will move indoors.

A09 · Check · Use the complete repair route

Choose one error from A06, A07 or A08. Follow Diagnose → Cue → Contrast → Retry → Explain/Reveal → Route.

A09-01. Record: original response → error code → retry → decisive certainty/function/form evidence → continue/revisit/teacher route.

Answer: Open response - Includes an actual retry, explains the decisive evidence and records a justified next route.

A10 · Retrieve · Reconstruct the possibility system

Cover all explanations. Complete in English from memory. Items 8-9 are governed delayed returns from S7-M06 and S7-M10.

A10-01. Explain possible, probable and strong-evidence conclusion without naming a form first.

Answer: Possible keeps an outcome open; probable presents it as more likely; a strong-evidence conclusion is a confident inference but not absolute proof.

A10-02. State the core forms for may/might, probably and perhaps.

Answer: May/might + bare base; subject + will probably + base for the controlled future frame; perhaps + a complete clause.

A10-03. Write one may prediction and one might prediction without inventing a fixed percentage difference.

Answer: Open response - Two accurate modal + base possibility claims with contextual evidence and no absolute hierarchy.

A10-04. Repair: The event will probable finish early.

Answer: The event will probably finish early.

A10-05. Write a strong present deduction from two stated pieces of evidence.

Answer: Open response - Accurate must + base/be inference with substantial evidence; not an obligation or absolute fact claim.

A10-06. Distinguish can general possibility from one specific uncertain forecast.

Answer: Weather can change quickly states general possibility; It may/might rain later is the controlled target for one uncertain forecast.

A10-07. Write a five-line event forecast using may, might, will probably, perhaps and deduction must.

Answer: Open response - Five coherent unsupported claims with accurate form, placement, calibration and evidence.

A10-08. S7-M06 L3: Complete the delayed finished-event gate. Edit: (1) Last week our class go to the hall, made a poster and eventually leave. (2) Did Mina saw the display? — Yes, she saw. (3) The pupils didn't be late, but the teacher weren't ready. Then write an unseen account of at least eight connected sentences about a clearly finished safe event, including two regular forms, three irregular forms, one negative, two questions/answers and two sequence links. Record the external check and any corrected retry.

Answer: Open response - Repairs went/left, Did ... see? - Yes, she did, and weren't/wasn't accurately; supplies the full externally checked S7-M06 L3 independent production; claims Retained for M06 only if both mixed editing and production pass after governed retry.

A10-09. S7-M10 L2: Complete the delayed modal-function return. Choose current ability from may-perhaps/can-knows-how/can-request options; choose a formal permission request; repair May you explain this line? and When she was seven, Mina can read short books; then write one ability statement, one permission exchange, one request exchange and a four-turn mixed-modal interaction. Label functions only after writing.

Answer: Open response - Selects can + knows how for current ability and May I ...? for formal permission; repairs the action request with Could/Can you ...? and past general ability with could; produces distinct accurate functions without treating may-possibility as permission or request.

A11 · Reflect · What evidence supports the claim?

Reflect briefly. Confidence selects practice but does not change the evidence result.

A11-01. What question helps you choose possible, probable or strong deduction?

Answer: Ask how strong and reliable the stated evidence is, then avoid claiming more certainty than it supports.

A11-02. Why is may versus might not a fixed percentage ladder?

Answer: Their possibility meanings overlap; might can sound more tentative in some contexts, but speaker choice and context vary.

A11-03. How can you distinguish deduction must from obligation must?

Answer: Deduction draws a conclusion about what is true from evidence; obligation requires someone to do something.

A11-04. Why are probably and perhaps not modal verbs?

Answer: They are adverbs: probably occupies an adverb position, while perhaps can frame a complete clause; neither takes a bare verb as a modal does.

A11-05. Which error code do you most need to revisit, and what retry evidence shows this?

Answer: Open response - Names a relevant code and links it to actual evidence.

A11-06. Record confidence from 1-4, then choose: continue, repeat one contrast, revisit A03 or ask for teacher support.

Answer: Open response - Records confidence and an evidence-based route; does not claim mastery from confidence alone.

L0 · Retrieve · L0 — same-session exit

Close the module. Complete without notes or a possibility heading.

L0-01. Possible forecast: The sky ____ clear later.

Answer: may / might.

L0-02. Probable forecast: The match ____ start outside.

Answer: will probably.

L0-03. Repair: Perhaps the rain to stop soon.

Answer: Perhaps the rain will stop soon.

L0-04. Strong deduction from a locked dark hall: The event ____ be over.

Answer: must.

L0-05. Repair: The bus might arrives late.

Answer: The bus might arrive late.

L0-06. Label the function: May I open the window?

Answer: Permission request, not possibility.

L0-07. Write one general can possibility and one specific may/might prediction.

Answer: Open response - Accurate function contrast with modal + base forms and natural contexts.

L0-08. Write a four-line forecast: two possible outcomes, one probable outcome and one strong deduction.

Answer: Open response - Four distinct calibrated claims with accurate forms and sufficient evidence.

L1 · Retrieve · L1 — 1-3-day return

Complete later without the certainty/form box. Retry every routed error before recording evidence.

L1-01. Repair the overclaim: One forecast mentions showers, so it must rain.

Answer: One forecast mentions showers, so it may/might rain.

L1-02. Repair: The event will probable end at four.

Answer: The event will probably end at four.

L1-03. Repair: The doors might opens early.

Answer: The doors might open early.

L1-04. Write one obligation must and one deduction must; state the decisive function clue.

Answer: Open response - One required action and one strong evidence-based inference; both forms accurate and meanings explicit.

L1-05. Explain why may and might cannot be assigned universal percentages, then write one of each.

Answer: Open response - States overlap/context dependence and supplies two accurate possibility examples.

L1-06. Write a six-line fictional forecast with may, might, probably, perhaps, general can and deduction must.

Answer: Open response - Independent coherent transfer with accurate calibration, functions, forms and evidence.

L2 · Retrieve · L2 — mixed return in S7-M14

In S7-M14 or the timetable equivalent, retrieve M12 certainty while reporting event claims.

Reported-language transformations are checked separately by the host module.

L2-01. Choose the possible report, not a rule or strong deduction: A. The organiser says the event might finish early. B. The organiser says visitors must leave early. C. The organiser says the locked hall must be empty.

Answer: A

L2-02. Choose the probable claim: A. Perhaps the match will move. B. The match will probably move indoors because three forecasts agree. C. The match must move indoors because movement is possible.

Answer: B

L2-03. Repair the reported possibility form: Mina says the bus might arrives late.

Answer: Mina says the bus might arrive late.

L2-04. Write a four-line report containing two possible claims, one probable claim and one strong deduction.

Answer: Open response - Accurate M12 certainty transfer in an S7-M14 host; reporting grammar is checked by that host.

L3 · Retrieve · L3 — 21-35-day retained-evidence gate

In S7-M18 or the timetable equivalent, complete the unseen three-option event task in English. An external checker must verify mixed editing and independent prediction/recommendation after any governed retry.

L3-01. Edit the possible forecast: The outdoor show may moves indoors.

Answer: The outdoor show may move indoors.

L3-02. Edit the probable claim: The riverside event will probable close early.

Answer: The riverside event will probably close early.

L3-03. A note says deduction must is an absolute fact: The lights are on, so the organiser must be inside.

Answer: Must expresses a strong evidence-based inference here, not absolute proof. The grammatical sentence may remain, but the explanation must be qualified.

L3-04. Compare three fictional event options using provided evidence. Predict conditions for each, then recommend one without overstating certainty.

Answer: Open response - Externally checked independent transfer with calibrated may/might/probably/perhaps/deduction claims and a coherent recommendation; S7-M18 comparison forms are checked separately.

L3-05. Record the external check, any diagnostic code and corrected retry. State whether both mixed editing and independent production passed.

Answer: Open response - Names checker evidence, records governed retry if needed and makes a Retained claim only when both delayed components pass.

Module progress check

Complete this after your first attempt and again after feedback.

☐ Not yet ☐ Nearly ☐ Secure I can distinguish a possible outcome, a probable outcome and a strong conclusion from evidence.

☐ Not yet ☐ Nearly ☐ Secure I can use may and might for possibility without assigning fixed percentages.

☐ Not yet ☐ Nearly ☐ Secure I can place probably and perhaps in controlled prediction frames.

☐ Not yet ☐ Nearly ☐ Secure I can distinguish possibility and deduction from ability, permission, requests, obligation and advice.

One correction I can explain:

My next retrieval date: _____

Future meaning and real conditions

LEARN → NOTICE → BUILD → CHOOSE → USE → CHECK → RETRIEVE → REFLECT

Your goals

- ☐ I can choose a contextual best fit between will and be going to without claiming an absolute split.
- ☐ I can distinguish a general/repeated condition from one realistic future condition.
- ☐ I can use controlled if, unless, whenever, as long as and provided that clauses accurately.
- ☐ I can create a safe event plan with intentions, decisions, predictions and realistic contingencies.

Name: _____ Class: _____ Date: _____

A01 · Learn · Why is the speaker looking forward?

Read each event-planning context. Decide whether it expresses a prior intention, a prediction from present evidence, a decision made now or an opinion prediction. Explain the decisive context before naming the form.

A01-01. We booked the hall yesterday. We're going to hold the class fair there.

Answer: Prior intention/plan: the booking shows that the plan existed before speaking.

A01-02. Look at those dark clouds. It's going to rain.

Answer: Prediction from present evidence: the visible clouds support the forecast.

A01-03. The phone is ringing. I'll answer it.

Answer: Decision made now: the speaker decides in response to the ringing phone.

A01-04. I think the science show will be popular.

Answer: Opinion prediction: I think marks the speaker's judgement rather than a prior arrangement.

A01-05. We have not chosen the music yet. Perhaps we'll ask the class tomorrow.

Answer: A tentative future idea: perhaps keeps the decision open rather than presenting a fixed plan.

A02 · Learn · General patterns and real future conditions

Decide whether each condition describes a general/repeated result or one realistic future contingency. Explain what happens when the condition is met.

A02-01. If people heat ice, it melts.

Answer: General result: this describes what normally happens, not one future occasion.

A02-02. Whenever the art club finishes, members tidy the room.

Answer: Repeated routine: every relevant occasion has the same result.

A02-03. If it rains during Saturday's fair, we'll move the games indoors.

Answer: Real future contingency: rain is possible and the indoor move is the planned result.

A02-04. The fair will continue outside as long as the weather stays safe.

Answer: Required condition: safe weather allows the outdoor fair to continue.

A03 · Notice · Future meaning and real-condition box

Read the whole box. Identify time meaning, decision evidence and condition meaning before checking the verb groups.

A03-01. Meaning before a future form

Answer: Future time alone does not choose one form. Ask whether the speaker has a prior intention, sees present evidence, decides now or gives an opinion prediction.

A03-02. Will

Answer: Use will + bare infinitive in the controlled pathway for a decision made now or an opinion prediction: I'll answer. I think the fair will be popular. This is a contextual tendency, not an exclusive meaning list.

A03-03. Be going to

Answer: Use am/is/are going to + bare infinitive for a prior intention or a prediction supported by present evidence: We're going to hold a fair. Look at the clouds; it's going to rain.

A03-04. Qualified overlap

Answer: Will and be going to can overlap, especially in predictions. The complete context and speaker viewpoint make one a better controlled fit; do not claim the other is always ungrammatical.

A03-05. Affirmative, negative, interrogative and contraction forms

Answer: Will uses will/won't + base and Will ... + base? Be going to uses am/is/are, isn't/aren't and inversion: Are we going to start? Accurate contractions remain acceptable; informal gonna is not a writing target.

A03-06. General and repeated conditions

Answer: A controlled zero-conditional pattern is if/when/whenever + present, present for general results or routines: If people heat ice, it melts. Meaning—not present tense alone—makes it general.

A03-07. Likely future conditions

Answer: A controlled first-conditional pattern is if/unless/as long as + present, will + base for a realistic future condition and result: If it rains, we'll move inside. Wider result forms exist but are not scored here.

A03-08. Do not add will mechanically

Answer: In the controlled first conditional, use present in the condition clause: If it rains, we'll move inside—not If it will rain. Special willingness uses of will in an if-clause exist but remain later/extension work.

A03-09. Condition linkers

Answer: Unless means if not in the controlled target and normally does not take an extra not. As long as and provided that introduce a required condition; as long as can also express duration. Whenever introduces repeated occasions. Context decides.

A03-10. Scope guardrail

Answer: This module scores basic will/be going to meaning and controlled zero/first conditions. Present-continuous arrangements, future continuous/perfect, second/third conditionals, mixed conditionals and reporting-language transformations remain later or extension work.

A04 · Notice · Mark meaning, evidence and clause roles

Label each line INTENTION, EVIDENCE PREDICTION, NOW DECISION, OPINION PREDICTION, GENERAL CONDITION, REPEATED CONDITION or REAL FUTURE CONDITION. Mark the decisive evidence and verb groups.

A04-01. We bought the materials yesterday. We're going to make signs tonight.

Answer: INTENTION; are going to + make; the earlier purchase supports a prior plan.

A04-02. That box is falling! I'll catch it.

Answer: NOW DECISION; will + catch; the speaker reacts at the moment of speaking.

A04-03. The wind is getting stronger. The outdoor screen is going to fall.

Answer: EVIDENCE PREDICTION; is going to + fall; visible change supports the prediction.

A04-04. I expect the quiz will be enjoyable.

Answer: OPINION PREDICTION; will + be; expect marks a judgement.

A04-05. If pupils mix blue and yellow paint, they get green.

Answer: GENERAL CONDITION; present + present; this states a general result.

A04-06. Whenever the reading club meets, Mina brings a notebook.

Answer: REPEATED CONDITION; whenever + present, present; this is a routine.

A04-07. Unless the rain stops, we'll use the hall.

Answer: REAL FUTURE CONDITION; unless + present, will + base; rain stopping is the exception condition.

A04-08. The outdoor plan can continue provided that the path stays safe.

Answer: REQUIRED CONDITION; provided that + present; safe conditions permit the plan.

A05 · Build · Build the intended future or condition

Complete each line from the stated meaning. Keep the context decisive and use the controlled clause pattern without claiming it is the only possible English form.

A05-01. prior intention: We ____ (hold) the fair in the hall; it is already booked.

Answer: are going to hold.

A05-02. decision now: The doorbell is ringing. I ____ (open) the door.

Answer: will open / I'll open.

A05-03. evidence prediction: Look at the loose sign. It ____ (fall).

Answer: is going to fall.

A05-04. opinion prediction: I think everyone ____ (enjoy) the show.

Answer: will enjoy.

A05-05. zero conditional: If people ____ (heat) ice, it ____ (melt).

Answer: heat; melts.

A05-06. first conditional: If it ____ (rain), we ____ (move) inside.

Answer: rains; will move.

A05-07. unless: We won't start outside ____ the wind becomes safer.

Answer: unless.

A05-08. required condition: The activity can continue ____ everyone follows the safety guide.

Answer: as long as / provided that.

A05-09. going-to form repair: She going to bring the labels.

Answer: She is going to bring the labels.

A05-10. if-clause repair: If it will rain, we'll use the hall.

Answer: If it rains, we'll use the hall.

A06 · Choose · Choose the best future or condition

Choose one best line for the complete context. Treat will/be going to as contextual tendencies and condition patterns as controlled pathways, not universal bans. Every distractor routes to repair.

A06-01. The hall was booked yesterday for a class fair. State the prior intention.

- A. We'll perhaps book a hall someday. B. We're going to hold the fair in the booked hall. C. We hold the fair whenever the hall is booked.

Answer: B

A06-02. The phone starts ringing now. Choose the immediate decision.

- A. I'll answer it. B. I'm going to answer it; I made this plan yesterday. C. If it rings, I answered it.

Answer: A

A06-03. A heavy box is visibly slipping from the shelf. Choose the evidence-based prediction.

- A. It falling soon. B. It will fall because all evidence predictions must use will. C. It's going to fall.

Answer: C

A06-04. Give an opinion prediction about the event, not a prior plan.

- A. The event going to popular. B. I think the event will be popular. C. The event is popular if tomorrow.

Answer: B

A06-05. Choose the accurate be going to question.

- A. Do we going to start at nine? B. Are we going start at nine? C. Are we going to start at nine?

Answer: C

A06-06. Choose the general result, not one future contingency.

- A. If people heat ice, it melts. B. If people heat ice tomorrow, it will melt. C. When our class heated ice yesterday, it melted.

Answer: A

A06-07. Rain tomorrow is a realistic possibility. Choose the controlled first conditional.

- A. Whenever it rains, we move inside. B. If it will rain tomorrow, we will move inside. C. If it rains tomorrow, we will move inside.

Answer: C

A06-08. Choose the accurate controlled if-clause form.

- A. If the bus will arrive late, we'll wait. B. If the bus arrives late, we'll wait. C. If the bus arriving late, we'll wait.

Answer: B

A06-09. The fair will move indoors if the rain does not stop. Express this with unless.

- A. Unless the rain stops, the fair will move indoors. B. Unless the rain doesn't stop, the fair will move indoors. C. Unless the rain stops, the fair will stay outside.

Answer: A

A06-10. Choose a required-condition meaning, not duration or a repeated routine.

- A. We stayed as long as three hours. B. Whenever the club meets, it tidies the room. C. The event can continue as long as the path stays safe.

Answer: C

A06-11. Choose the coherent plan: prior intention, present-evidence prediction and realistic contingency.

- A. We will planned the fair. The dark clouds will certainly perhaps rain. If it will rain, we moved inside. B. We're going to hold the fair outside. Those dark clouds mean it's probably going to rain. If it rains, we'll move inside. C. We going to hold the fair. It perhaps rains yesterday. Unless it won't rain, we will moved inside.

Answer: B

A06-12. Choose the accurate will/be going to and conditional scope boundary.

- A. M13 scores controlled future meanings and real conditions; present-continuous arrangements and unreal conditionals remain later or extension work. B. Every future meaning must use will; be going to is always wrong. C. If plus present always creates a zero conditional, regardless of meaning.

Answer: A

A07 · Use · Plan a safe class event

Create a fictional or teacher-approved class event plan; do not present invented lines as official school policy. Use safe, realistic plans and contingencies. Complete the first attempt without the future/condition box.

A07-01. Name the event, audience, date and safe location; identify which details are already decided.

Answer: Open response - Clear fictional/teacher-approved context and existing planning evidence; no invented official claim.

A07-02. Write two prior intentions with be going to and state the planning evidence.

Answer: Open response - Accurate am/is/are going to + base forms and credible evidence that the plans existed before speaking.

A07-03. Write one decision made now with will and explain what triggered it.

Answer: Open response - Accurate will + base and a context showing an immediate decision rather than a disguised prior plan.

A07-04. Write one opinion prediction with will and one calibrated probably/perhaps prediction.

Answer: Open response - Accurate prediction frames with no guarantee, fixed percentage or certainty overclaim.

A07-05. Write one zero-conditional rule or routine and explain why it is general/repeated.

Answer: Open response - Controlled present + present pattern with genuinely general or repeated meaning.

A07-06. Write three realistic contingencies: one with if, one with unless and one with as long as or provided that.

Answer: Open response - Accurate condition meanings and controlled present condition clauses; coherent safe future results without double negatives.

A07-07. Submit and explain a coherent event plan, then repair any future meaning, clause form, linker, probability or safety problem.

Answer: Open response - Independent transfer combining intentions, decisions, predictions, general guidance and realistic contingencies with justified evidence and any governed repair.

A08 · Check · Diagnose future meaning and conditions

Each item has one primary problem or false claim. Name the error code, repair it and explain the decisive meaning, evidence, clause or linker clue.

A08-01. We booked the hall yesterday, so we'll decide now to hold the fair there.

Answer: We booked the hall yesterday, so we're going to hold the fair there. The earlier booking supports a prior intention.

A08-02. I will to carry the small box.

Answer: I will carry the small box.

A08-03. Mina are going to brings the labels.

Answer: Mina is going to bring the labels.

A08-04. The writer labels If people heat ice, it melts as one uncertain event tomorrow.

Answer: This is a general result in the controlled zero conditional. For one realistic event: If we heat the ice tomorrow, it will melt.

A08-05. If it will rain tomorrow, we'll use the hall.

Answer: If it rains tomorrow, we'll use the hall.

A08-06. Unless the rain doesn't stop, we'll move indoors.

Answer: Unless the rain stops, we'll move indoors. / If the rain doesn't stop, we'll move indoors.

A08-07. The sentence We stayed as long as three hours is labelled a required condition.

Answer: Here as long as expresses duration. A condition example is: We can stay outside as long as the path remains safe.

A08-08. Perhaps the event will definitely be cancelled.

Answer: Perhaps the event will be cancelled. / The event will probably be cancelled if strong evidence supports that judgement.

A08-09. The plan says: We going to start outside. If it will rain, we will stayed there. Unless the path isn't unsafe, everyone must run.

Answer: Example repair: We're going to start outside. If it rains, we'll move inside. We can stay outside as long as the path remains safe.

A09 · Check · Use the complete repair route

Choose one error from A06, A07 or A08. Follow Diagnose → Cue → Contrast → Retry → Explain/Reveal → Route.

A09-01. Record: original response → error code → retry → decisive future/condition evidence → continue/revisit/teacher route.

Answer: Open response - Includes an actual retry, explains the decisive evidence and records a justified next route.

A10 · Retrieve · Reconstruct the future-condition system

Cover all explanations. Complete in English from memory. Items 8-9 are complete governed delayed returns from S7-M07 and S7-M11.

A10-01. Explain prior intention, evidence prediction, now decision and opinion prediction without naming a form first.

Answer: A prior intention existed before speaking; an evidence prediction follows present signs; a now decision responds at the moment; an opinion prediction states a judgement.

A10-02. State the controlled forms for will and be going to, including questions and negatives.

Answer: Will/won't + base and Will ... + base?; am/is/are going to + base, be + not + going to + base, and inversion with be for questions.

A10-03. Explain the meaning difference between a general condition and one realistic future condition.

Answer: A general condition states a regular/general result; a real future condition connects one possible future situation to its likely/planned result.

A10-04. Repair: If the wind will become stronger, we'll move inside.

Answer: If the wind becomes stronger, we'll move inside.

A10-05. Rewrite with unless: If the rain doesn't stop, the fair will move indoors.

Answer: Unless the rain stops, the fair will move indoors.

A10-06. Write one general whenever condition and one future as long as condition.

Answer: Open response - One genuinely repeated present-present pattern and one required future condition with accurate controlled clauses.

A10-07. Write a five-line event plan containing intention, now decision, prediction, general rule and realistic contingency.

Answer: Open response - Coherent unsupported transfer with accurate future meanings, forms, condition types and evidence.

A10-08. S7-M07 L3: Complete the delayed narrative gate. Edit: (1) The film was lasting two hours because it was long. Near the end, the lights were going out suddenly. (2) While the pupils was working the teacher did entered. (3) It was being cold, and Mina was knowing the way home. Then write an unseen four-frame story of at least eight connected sentences with background, story-changing event, simultaneous activity/background state, when plus while/as and two sequence links. Record the external check and corrected retry.

Answer: Open response - Repairs lasted/went out, were working/entered, and was/knew accurately; supplies the full externally checked S7-M07 L3 story; claims Retained for M07 only if both mixed editing and production pass after governed retry.

A10-09. S7-M11 L2: Complete the delayed obligation return. Choose a strict rule rather than might/should; choose no necessity rather than prohibition/compulsory advice; repair If you join the trip, you should pay by Friday when payment is compulsory; then write a four-line event note with requirement, practical necessity, recommendation and optional action.

Answer: Open response - Selects must for the strict rule and don't have to for no necessity; repairs compulsory payment with have to/must; produces four distinct accurate M11 meanings while M13 checks future/condition language separately.

A11 · Reflect · What makes this future meaning fit?

Reflect briefly. Confidence selects practice but does not change the evidence result.

A11-01. What question helps you choose will or be going to?

Answer: Ask whether the context shows a prior intention/present evidence or a now decision/opinion, while remembering that natural overlap exists.

A11-02. How do you distinguish a general condition from a real future condition?

Answer: A general condition describes what normally/repeatedly happens; a real future condition concerns one possible future situation and result.

A11-03. Why do we avoid will mechanically in the controlled if-clause?

Answer: The controlled first-conditional condition clause uses present form; will marks the main result. Special willingness uses exist but are outside this target.

A11-04. What check prevents an unless double negative?

Answer: Paraphrase unless as if not, then remove the extra not unless a different logical meaning is genuinely intended.

A11-05. Which error code do you most need to revisit, and what retry evidence shows this?

Answer: Open response - Names a relevant code and links it to actual evidence.

A11-06. Record confidence from 1-4, then choose: continue, repeat one contrast, revisit A03 or ask for teacher support.

Answer: Open response - Records confidence and an evidence-based route; does not claim mastery from confidence alone.

L0 · Retrieve · L0 — same-session exit

Close the module. Complete without notes or a future/condition heading.

L0-01. Prior plan with evidence: We ____ hold the fair in the booked hall.

Answer: are going to.

L0-02. Decision now: The phone is ringing. I ____ answer it.

Answer: will / 'll.

L0-03. Repair: She going to bring the signs.

Answer: She is going to bring the signs.

L0-04. General result: If people heat ice, it ____.

Answer: melts.

L0-05. Repair: If it will rain, we'll move inside.

Answer: If it rains, we'll move inside.

L0-06. Rewrite with unless: If the wind doesn't become safer, we won't start outside.

Answer: Unless the wind becomes safer, we won't start outside.

L0-07. Write one intention and one opinion prediction with decisive contexts.

Answer: Open response - Accurate going-to and will forms with prior-plan versus opinion evidence; overlap is not described as impossible.

L0-08. Write a four-line plan: intention, general rule, if contingency and as long as condition.

Answer: Open response - Four distinct accurate meanings with coherent safe event content.

L1 · Retrieve · L1 — 1-3-day return

Complete later without the future/condition box. Retry every routed error before recording evidence.

L1-01. Repair the prior plan: We booked the bus yesterday, so we'll decide now to travel by bus.

Answer: We booked the bus yesterday, so we're going to travel by bus.

L1-02. Repair: Mina are going to makes the map.

Answer: Mina is going to make the map.

L1-03. Repair: Unless the hall isn't open, we'll wait outside.

Answer: Unless the hall is open, we'll wait outside. / If the hall isn't open, we'll wait outside.

L1-04. Write one general whenever condition and one realistic if condition; explain the meaning difference.

Answer: Open response - Accurate controlled patterns with genuinely repeated versus one-future meanings.

L1-05. Write one going-to evidence prediction and one will opinion prediction without claiming an absolute split.

Answer: Open response - Decisive contexts, accurate forms and an explicit overlap qualification.

L1-06. Write a six-line fictional event plan with intention, now decision, prediction, zero condition, unless and required condition.

Answer: Open response - Independent coherent transfer with accurate meanings, forms, linkers and safe content.

L2 · Retrieve · L2 — mixed return in S7-M15

In S7-M15 or the timetable equivalent, retrieve M13 future and condition meanings inside a preparation note. Adjective/preposition patterns are checked separately by the host module.

L2-01. Choose the prior intention: A. We're going to prepare the room; the plan is already agreed. B. We'll decide yesterday to prepare it. C. We prepare it unless last week.

Answer: A

L2-02. Choose the real future condition: A. Whenever pupils mix colours, they get new colours. B. If the delivery arrives tomorrow, we'll organise the materials. C. If the delivery will arrive, we organised it yesterday.

Answer: B

L2-03. Repair: Unless the labels don't arrive, we'll make new ones.

Answer: Unless the labels arrive, we'll make new ones. / If the labels don't arrive, we'll make new ones.

L2-04. Write a four-line preparation note with a prior intention, opinion prediction, general routine and future contingency.

Answer: Open response - Accurate M13 transfer in an S7-M15 host; adjective/preposition language is checked by that host.

L3 · Retrieve · L3 — 21-35-day retained-evidence gate

In S7-M19 or the timetable equivalent, complete the unseen activity-supplies plan in English. An external checker must verify mixed editing and independent planning/contingency production after any governed retry.

L3-01. Edit the prior intention: We already counted the pupils, so we will decide now to buy thirty notebooks.

Answer: We already counted the pupils, so we're going to buy thirty notebooks.

L3-02. Edit the contingency: If we will need more water, we'll ask the office.

Answer: If we need more water, we'll ask the office.

L3-03. Edit the intended shortage condition: Unless we don't have enough paper, we won't buy more.

Answer: Unless we have enough paper, we'll buy more. / If we don't have enough paper, we'll buy more.

L3-04. Plan supplies for an unseen fictional activity. Include two prior intentions, one now decision, one calibrated prediction, one general routine and three realistic contingencies using if, unless and as long as/provided that.

Answer: Open response - Externally checked independent transfer with accurate M13 meanings/forms and coherent safe supply contingencies; S7-M19 quantity language is checked separately.

L3-05. Record the external check, any diagnostic code and corrected retry. State whether both mixed editing and independent production passed.

Answer: Open response - Names checker evidence, records governed retry if needed and makes a Retained claim only when both delayed components pass.

Module progress check

Complete this after your first attempt and again after feedback.

☐ Not yet ☐ Nearly ☐ Secure I can choose a contextual best fit between will and be going to without claiming an absolute split.

☐ Not yet ☐ Nearly ☐ Secure I can distinguish a general/repeated condition from one realistic future condition.

☐ Not yet ☐ Nearly ☐ Secure I can use controlled if, unless, whenever, as long as and provided that clauses accurately.

☐ Not yet ☐ Nearly ☐ Secure I can create a safe event plan with intentions, decisions, predictions and realistic contingencies.

One correction I can explain:

My next retrieval date: _____

Reported statements and questions

LEARN → NOTICE → BUILD → CHOOSE → USE → CHECK → RETRIEVE → REFLECT

Your goals

- ☐ I can choose say, tell, ask or wonder from speech purpose and listener evidence.
- ☐ I can report wh- and yes/no questions with faithful linkers and statement order.
- ☐ I can change pronouns, tense/modals, time and place only when the reporting viewpoint requires it.
- ☐ I can pass on a concise, safe event-planning update without changing the original meaning.

Name: _____ Class: _____ Date: _____

A01 · Learn · Whose message reaches the reader?

Read each direct message and later report. Identify the original speaker, the reporter, the listener if named and the meaning that must stay true.

A01-01. Mia said, 'I am tired.' Later, Leo reported: Mia said that she was tired.

Answer: Mia is the original speaker; Leo is the reporter. The report preserves Mia's tiredness from the later viewpoint.

A01-02. Mia said to Leo, 'The room is ready.' Leo reported: Mia told me that the room was ready.

Answer: Mia spoke to Leo; Leo is both reporter and original listener. Me refers to Leo in his report.

A01-03. Ben asked, 'Where is the library?' Ana reported: Ben asked where the library was.

Answer: Ben asked a wh-question; Ana reports it with statement order while preserving the place information requested.

A01-04. Ana asked, 'Is the shop open?' Omar reported: Ana asked whether the shop was open.

Answer: Ana asked a yes/no question; whether introduces the reported alternatives open or not open.

A01-05. I cannot find my keys. I wonder where they are.

Answer: Wonder expresses the speaker's own uncertainty; the embedded question uses statement order.

A02 · Learn · Viewpoint changes, not word swapping

Compare the original viewpoint with the later reporting viewpoint. Decide why each bold reference changes or stays.

A02-01. On Monday Eva said, 'I will call tomorrow.' On Wednesday Ana reported: Eva said that she would call the following day.

Answer: The report looks back from a later day, so will becomes would and tomorrow becomes the following day.

A02-02. In the hall Leo said, 'I am busy now.' Later, outside, Ana reported: Leo said that he was busy then.

Answer: The speaker, time and reporting viewpoint changed: I->he, am->was and now->then.

A02-03. At the library Eva said, 'I left my bag here.' Later, at home, she said that she had left it there.

Answer: There points back to the library from a different place. Had left is recognised as a formal earlier-past shift, not required production in this module.

A02-04. The guide says, 'The museum opens at nine.' The guide says that the museum opens at nine.

Answer: The report is current and the timetable remains true, so no viewpoint-driven tense or time change is needed.

A03 · Notice · Reported-language box

Read the whole box. Identify speech purpose and viewpoint before choosing a reporting verb, clause pattern or reference change.

A03-01. Meaning before transformation

Answer: A report passes on content from a new viewpoint. Preserve who said or asked what; do not change words mechanically without checking speaker, listener, time, place and whether the information is still current.

A03-02. Say and tell

Answer: Use say + (that) clause when no listener object follows directly: Mia said (that) she was tired. Use tell + person + (that) clause: Mia told me (that) she was tired. Say to a person is possible, but the controlled contrast is say + content versus tell + listener + content.

A03-03. Ask and wonder

Answer: Use ask + person if needed + wh-word or if/whether clause: Ben asked me where the hall was. Use wonder + wh-word or if/whether clause for the thinker's own uncertainty: I wonder whether it is open. Do not add a listener object directly after wonder.

A03-04. Reported-question order

Answer: After the wh-word or if/whether, use subject before verb: where the library was; whether the shop was open. Remove question do/does/did: What time does it start? -> She asked what time it started.

A03-05. Question type and punctuation

Answer: Keep the wh-word in a wh-question. Use if or whether for a yes/no question; whether is especially clear with stated alternatives or whether or not. A reporting statement normally ends with a full stop, not the direct question's question mark.

A03-06. Pronouns and possessives

Answer: Change I/we/you/my/our only when the people change. Identify each person first: Mia told Noor, 'I will bring your book.' Noor reports: Mia told me that she would bring my book.

A03-07. Controlled later-report shifts

Answer: When a past reporting verb introduces an earlier message from a changed later viewpoint, this module practises present->past, am/is->was, are->were, will->would and can->could. These are controlled tendencies, not automatic rules for every real report.

A03-08. Time and place references

Answer: Change references only when the viewpoint requires it: now->then, here->there, tomorrow->the following day. If the reporter is still in the same place/time or the fact remains current, the original reference or tense may stay.

A03-09. Other reporting verbs

Answer: Explain takes content or explain to + person, not explain a person directly. Mention introduces a brief topic or that-clause; do not add about mechanically. Accurate affirmative, negative and contraction forms inside the content remain important.

A03-10. Scope guardrail

Answer: This module scores simple reported statements, yes/no and wh-questions, and basic viewpoint changes. Reported commands/requests, complex tense sequences, required past-perfect production, reporting passives and advanced indirect-question style remain later or extension work.

A04 · Notice · Mark purpose, roles, order and viewpoint

Label each line STATEMENT, WH-QUESTION, YES/NO QUESTION, UNCERTAINTY, EXPLANATION or BRIEF MENTION. Mark the reporting verb, listener if present, clause order and any justified viewpoint change.

A04-01. Mina said that the event was ready.

Answer: STATEMENT; said + that-clause; no listener object; was reflects the stated later viewpoint.

A04-02. Mina told us that the event was ready.

Answer: STATEMENT; told + listener us + that-clause.

A04-03. Ben asked where the tickets were.

Answer: WH-QUESTION; where retained; subject the tickets precedes were.

A04-04. Ana asked whether the event was inside or outside.

Answer: YES/NO/ALTERNATIVE QUESTION; whether introduces two stated alternatives; statement order follows.

A04-05. I wonder if the bus is late.

Answer: UNCERTAINTY; wonder + if-clause; the current viewpoint allows is.

A04-06. The teacher explained how the game worked.

Answer: EXPLANATION; explained + content; how-clause uses statement order.

A04-07. Sara mentioned the rain but gave no details.

Answer: BRIEF MENTION; mentioned + noun; no unnecessary about.

A04-08. Leo said that he would return there the following day.

Answer: STATEMENT; he/would/there/the following day reflect changed person, future, place and day viewpoints.

A05 · Build · Build a faithful report

Complete each controlled report from the stated context. Preserve meaning and change only what the later viewpoint requires.

A05-01. No listener named: 'I am tired,' Mia said. → Mia ____ that she was tired.

Answer: said.

A05-02. Listener is Leo: 'The room is ready,' Mia said to Leo. Leo reports: Mia ____ me that the room was ready.

Answer: told.

A05-03. Later report: 'Where is the hall?' Ben asked. → Ben asked where the hall ____.

Answer: was.

A05-04. Later report: 'Does the event start at nine?' Ana asked. → Ana asked ____ the event started at nine.

Answer: if / whether.

A05-05. Later report: 'What time does it start?' Leo asked. → Leo asked what time it ____.

Answer: started.

A05-06. Later viewpoint: 'I can help now,' Mia said. → Mia said that she ____ help ____.

Answer: could; then.

A05-07. Later day: 'I will call tomorrow,' Eva said. → Eva said that she ____ call ____.

Answer: would; the following day.

A05-08. Different place: 'The bags are here,' Leo said. → Later, outside, Leo said that the bags were ____.

Answer: there.

A05-09. Listener-form repair: Mia told that the room was ready.

Answer: Mia told me/us/the class that the room was ready. / Mia said that the room was ready.

A05-10. Question-order repair: Ben asked where was the library.

Answer: Ben asked where the library was.

A06 · Choose · Choose the most faithful report

Choose one best report for the complete context. Use the controlled pathway while respecting genuine viewpoint-dependent variation. Every distractor routes to repair.

A06-01. Mia spoke to me and said, 'I am tired.' The report must name me as listener.

A. Mia said that she was tired. B. Mia told me that she was tired. C. Mia asked me whether she was tired.

Answer: B

A06-02. Leo said, 'The room is ready.' No listener was named; do not invent one.

A. Leo said that the room was ready. B. Leo told us that the room was ready. C. Leo asked whether the room was ready.

Answer: A

A06-03. Later, report the exact wh-question 'Where is the library?' as a statement.

A. Ben asked whether the library was nearby. B. 'Where is the library?' Ben asked. C. Ben asked where the library was.

Answer: C

A06-04. Later, report the yes/no question 'Is the shop open?' without changing it into a statement claim.

A. Ana said that the shop was open. B. Ana asked whether the shop was open. C. Ana asked where the shop was open.

Answer: B

A06-05. The speaker cannot find the keys and expresses personal uncertainty now.

A. I told the keys that they were missing. B. I asked where the keys were yesterday. C. I wonder where my keys are.

Answer: C

A06-06. Mia told Noor, 'I will bring your book.' Noor reports the message later.

A. Mia told me that she would bring my book. B. Mia told me that she would bring her book. C. Mia told me that I would bring my book.

Answer: A

A06-07. On Monday Leo said, 'I am busy now.' On Wednesday Ana reports that finished Monday situation.

A. Leo says that he is busy now. B. Leo said that he was busy then. C. Leo said that he had been busy the previous week.

Answer: B

A06-08. Choose the accurate rule, not an automatic-backshift overclaim.

A. Every reported sentence must move every tense back. B. A reporter must always change here to there, even in the same place. C. Tense and reference changes depend on reporting time, place, people and whether the information remains current.

Answer: C

A06-09. On Monday Eva said, 'I will call tomorrow.' Report the day reference from Wednesday.

A. Eva said that she would call the following day. B. Eva said that she would call the day before. C. Eva said that she called that day.

Answer: A

A06-10. At the library Eva said, 'My bag is here.' Report later from home.

A. Eva said that her bag was here. B. Eva said that her bag was at home. C. Eva said that her bag was there.

Answer: C

A06-11. Choose the faithful concise update: statement, wh-question and yes/no question.

A. Mia asked the fair was ready. Ben said where was it. Ana wondered me is it inside. B. Mia said that the fair was ready. Ben asked where it was. Ana asked whether it was inside. C. Mia told that the fair was ready. Ben asked whether it was. Ana said where it was inside.

Answer: B

A06-12. Choose the accurate Module 14 scope boundary.

A. M14 scores simple reported statements/questions and viewpoint changes; complex tense sequences and reported commands remain later or extension work. B. M14 requires past perfect in every report with a past reporting verb. C. Every indirect question must use direct-question order and a question mark.

Answer: A

A07 · Use · Pass on an event-planning update

Use fictional roles or teacher-approved public class-event content. If reporting real classmates, obtain permission and exclude private or sensitive information. Complete the first attempt without the reporting box.

A07-01. Create or collect three short event-planning statements and two questions. Record each original speaker and any listener.

Answer: Open response - Five safe, concise direct messages with clear roles; fictional alternative accepted and no sensitive/private content.

A07-02. Report one statement with say and one with tell + listener.

Answer: Open response - Accurate reporting-verb frames and faithful statement content.

A07-03. Report one wh-question with the wh-word retained and statement order.

Answer: Open response - Accurate wh-clause, no inversion/do-support and faithful requested information.

A07-04. Report one yes/no or alternative question with if/whether; use whether for explicit alternatives.

Answer: Open response - Accurate linker and statement order; alternatives remain faithful.

A07-05. Make at least three justified person, tense/modal, time or place changes; explain each changed viewpoint.

Answer: Open response - Changes follow actual speaker/reporter/time/place evidence rather than mechanical substitution.

A07-06. Add one concise explanation or mention using explain/mention accurately.

Answer: Open response - Explain + content/to person or mention + topic/that-clause; no explain-person or mention-about error.

A07-07. Submit a coherent six-to-eight-sentence update, then repair any reporting verb, question order, linker, reference or faithfulness problem.

Answer: Open response - Independent safe transfer preserving speaker, listener, time, place and meaning, with governed repair where required.

A08 · Check · Diagnose the report

Each item has one primary problem or false claim. Name the error code, repair it and explain the decisive speech-purpose, order or viewpoint clue.

A08-01. Mia said me that the hall was ready.

Answer: Mia told me that the hall was ready. / Mia said to me that the hall was ready.

A08-02. Ben's original line was a question, but the report says: Ben said that the hall was open.

Answer: Ben asked whether the hall was open. The reporting verb and linker preserve the yes/no question.

A08-03. Ana asked where was the library?

Answer: Ana asked where the library was.

A08-04. The direct question is 'Is the shop open?' The report says: Ana asked where the shop was open.

Answer: Ana asked if/whether the shop was open.

A08-05. The direct question is 'What time does it start?' The report says: Leo asked whether it started.

Answer: Leo asked what time it started.

A08-06. Mia told Noor, 'I will bring your book.' Noor reports: Mia told me that I would bring her book.

Answer: Mia told me that she would bring my book.

A08-07. The guide says now that the museum opens at nine. A rule claims the report must be: The guide said that the museum had opened at nine.

Answer: The guide says that the museum opens at nine. Current reporting and a continuing timetable do not require mechanical backshift.

A08-08. Reporting from home two days later, Eva said, 'My bag is here now.' → Eva said that her bag was here now.

Answer: Eva said that her bag was there then.

A08-09. Update: Mia told the event ready. Ben asked where was it? Ana mentioned about rain and reported a private medical detail.

Answer: Example repair: Mia said that the event was ready. Ben asked where it was. Ana mentioned the rain. Remove the private detail and use fictional or permitted public content.

A09 · Check · Use the complete repair route

Choose one error from A06, A07 or A08. Follow Diagnose → Cue → Contrast → Retry → Explain/Reveal → Route.

A09-01. Record: original response → error code → retry → decisive speech-purpose/viewpoint evidence → continue/revisit/teacher route.

Answer: Open response - Includes an actual retry, explains decisive evidence and records a justified next route.

A10 · Retrieve · Reconstruct the reporting system

Cover all explanations. Complete in English from memory. Items 8-9 are the complete governed delayed returns from S7-M08 and S7-M12.

A10-01. Explain when to use say, tell, ask and wonder before giving their clause patterns.

Answer: Say reports content without a direct listener object; tell names a listener; ask reports a question; wonder expresses the thinker's own uncertainty.

A10-02. State the controlled order for wh- and yes/no reported questions.

Answer: Reporting verb + optional listener + wh-word or if/whether + subject + verb; no question do-support or direct inversion.

A10-03. Explain why pronoun, tense, time and place changes are viewpoint-dependent rather than automatic.

Answer: They change only when speaker, listener, reporting time/place or current truth changes; identify those relationships before transforming.

A10-04. Repair: Mia told that she was ready.

Answer: Mia told me/us/the class that she was ready. / Mia said that she was ready.

A10-05. Repair: Ben asked what time did the event start?

Answer: Ben asked what time the event started.

A10-06. Report later: On Monday Eva said, 'I will call tomorrow from here.' You report on Wednesday from another place.

Answer: Eva said that she would call the following day from there.

A10-07. Write a five-line update with say, tell + listener, one wh-question, one yes/no question and one justified viewpoint change.

Answer: Open response - Faithful unsupported transfer with accurate frames, order, linker and reference evidence.

A10-08. S7-M08 L3: Complete the delayed present-perfect gate. Edit (1) Have you ever saw a live show? — Yes, I did. I have seen one last year. (2) Maya have just wrote the labels, so they are ready now. (3) The pupils haven't never finished yet, so the teacher is still waiting. Then conduct or invent an unseen four-question safe experience interview and write an eight-sentence report with two irregular participles, one never answer, one past-simple finished follow-up and one just/already/yet present result with explicit evidence now. Record the external check and corrected retry.

Answer: Open response - Repairs seen/have/saw, has written and hasn't finished accurately; supplies the complete externally checked S7-M08 L3 interview/report; claims Retained for M08 only if both mixed editing and production pass after governed retry.

A10-09. S7-M12 L2: Complete the delayed certainty return. (1) Choose the possible report: A. The organiser says the event might finish early. B. The organiser says visitors must leave early. C. The organiser says the locked hall must be empty. (2) Choose the probable claim: A. Perhaps the match will move. B. The match will probably move indoors because three forecasts agree. C. The match must move indoors because movement is possible. (3) Repair: Mina says the bus might arrives late. (4) Write a four-line report with two possible claims, one probable claim and one strong deduction.

Answer: Open response - Selects A for possibility and B for probability; repairs might arrive; produces the four distinct M12 claims while M14 checks reporting language separately.

A11 · Reflect · What keeps a report faithful?

Reflect briefly. Confidence selects practice but does not change the evidence result.

A11-01. What do you identify before choosing say, tell, ask or wonder?

Answer: Identify whether the original message is a statement, addressed message, question or personal uncertainty and whether a listener must be named.

A11-02. What order check repairs a reported question?

Answer: After the wh-word or if/whether, place the subject before the verb and remove direct-question do-support/inversion.

A11-03. How do you decide whether I/you/my/our changes?

Answer: Map the original speaker and listener to the reporter's viewpoint; change references only when the people differ.

A11-04. Why is automatic backshift unsafe as a universal rule?

Answer: Current reporting, continuing truth or an unchanged time/place viewpoint can allow the original tense or reference to remain.

A11-05. Which error code do you most need to revisit, and what retry evidence shows this?

Answer: Open response - Names a relevant code and links it to actual evidence.

A11-06. Record confidence from 1-4, then choose: continue, repeat one contrast, revisit A03 or ask for teacher support.

Answer: Open response - Records confidence and an evidence-based route; does not claim mastery from confidence alone.

L0 · Retrieve · L0 — same-session exit

Close the module. Complete without notes or a reporting-language heading.

L0-01. Listener named: Mia ____ me that the hall was ready.

Answer: told.

L0-02. No listener named: Leo ____ that the room was open.

Answer: said.

L0-03. Repair: Ben asked where was the bus stop?

Answer: Ben asked where the bus stop was.

L0-04. Report later: 'Is the event free?' Use whether.

Answer: The speaker/reporter asked whether the event was free.

L0-05. Noor reports Mia's 'I will bring your book.'

Answer: Mia said/told Noor that she would bring Noor's/her book; from Noor's voice: Mia told me that she would bring my book.

L0-06. Report later/from elsewhere: 'I am busy here now.'

Answer: The speaker said that he/she was busy there then, with pronoun chosen from the supplied speaker context.

L0-07. Write one wh- and one yes/no reported question.

Answer: Open response - Wh-word retained or if/whether supplied; both use statement order and faithful meaning.

L0-08. Write a four-line update with say, tell, ask and one justified reference change.

Answer: Open response - Four distinct accurate functions with coherent safe content and viewpoint evidence.

L1 · Retrieve · L1 — 1-3-day return

Complete later without the reporting box. Retry every routed error before recording evidence.

L1-01. Repair: Mia said us that the tickets were ready.

Answer: Mia told us that the tickets were ready. / Mia said to us that the tickets were ready.

L1-02. Repair: Ana asked did the bus arrive.

Answer: Ana asked whether/if the bus had arrived. / In a controlled same-time context: Ana asked whether/if the bus arrived.

L1-03. Repair the changed viewpoint: On Monday Leo said, 'I can help here tomorrow.' Report on Wednesday elsewhere.

Answer: Leo said that he could help there the following day.

L1-04. Explain one context where tense may stay and one where a controlled shift fits.

Answer: Open response - Contrasts current/continuing information with a genuinely later changed viewpoint; avoids a universal rule.

L1-05. Write one ask report and one wonder sentence; explain the speech-purpose difference.

Answer: Open response - Accurate embedded order; ask reports an addressed question, wonder expresses uncertainty.

L1-06. Write a six-line fictional event update with two statements, two question types and two justified reference changes.

Answer: Open response - Independent coherent transfer with accurate verbs, order, linkers, references and safe content.

L2 · Retrieve · L2 — mixed return in S7-M16

In S7-M16 or the timetable equivalent, retrieve M14 reporting while passing on practical advice. Multi-word verb and gerund/infinite patterns are checked separately by the host module.

L2-01. Choose the faithful listener report: A. Mina told me that I should check the map. B. Mina said me that I should check it. C. Mina wondered me whether I checked it.

Answer: A

L2-02. Choose the reported wh-question: A. Leo asked whether the bus left. B. Leo asked what time the bus left. C. Leo asked what time did the bus leave?

Answer: B

L2-03. Repair: Ana asked where should she look for the key?

Answer: Ana asked where she should look for the key.

L2-04. Write a four-line report passing on two pieces of advice, one wh-question and one yes/no question.

Answer: Open response - Accurate M14 transfer in an S7-M16 host; multi-word verb and gerund/infinitive patterns are checked by that host.

L3 · Retrieve · L3 — 21-35-day retained-evidence gate

In S7-M20 or the timetable equivalent, complete an unseen shared-scene message relay in English. An external checker must verify mixed editing and independent reporting after any governed retry.

L3-01. Edit: Mia said me that both maps were here.

Answer: Mia told me that both maps were there. / Mia said to me that both maps were there.

L3-02. Edit: Ben asked where were those boxes?

Answer: Ben asked where those boxes were.

L3-03. Edit the viewpoint: Ana told Leo, 'I will move my bag here tomorrow.' Leo reports later elsewhere:

Ana told me that I will move your bag here tomorrow.

Answer: Ana told me that she would move her bag there the following day.

L3-04. Use an unseen shared-scene card to relay two statements, one wh-question and one yes/no question in six to eight sentences. Preserve people and object reference, and justify at least three tense/time/place/pronoun decisions.

Answer: Open response - Externally checked independent M14 transfer with faithful verbs, order and viewpoint; S7-M20 determiner/reference choices are checked separately.

L3-05. Record the external check, any diagnostic code and corrected retry. State whether both mixed editing and independent production passed.

Answer: Open response - Names checker evidence, records governed retry if needed and makes a Retained claim only when both delayed components pass.

Module progress check

Complete this after your first attempt and again after feedback.

☐ Not yet ☐ Nearly ☐ Secure I can choose say, tell, ask or wonder from speech purpose and listener evidence.

☐ Not yet ☐ Nearly ☐ Secure I can report wh- and yes/no questions with faithful linkers and statement order.

☐ Not yet ☐ Nearly ☐ Secure I can change pronouns, tense/modals, time and place only when the reporting viewpoint requires it.

☐ Not yet ☐ Nearly ☐ Secure I can pass on a concise, safe event-planning update without changing the original meaning.

One correction I can explain:

My next retrieval date: _____

Adjective and preposition patterns

LEARN → NOTICE → BUILD → CHOOSE → USE → CHECK → RETRIEVE → REFLECT

Your goals

- ☐ I can choose common adjective-preposition patterns from complete meaning and evidence.
- ☐ I can use a noun or gerund accurately after a target preposition.
- ☐ I can distinguish similarity/difference, accidental/deliberate and detail/public-setting expressions.
- ☐ I can describe safe interests, skills, duties, concerns and events in a coherent profile.

Name: _____ Class: _____ Date: _____

A01 · Learn · What does the whole pattern mean?

Read each complete context. Explain the whole adjective-preposition meaning before naming or translating the preposition.

A01-01. Nina is interested in space, so she reads books about planets.

Answer: Interested in expresses her topic of interest: space.

A01-02. Omar is good at chess and often wins school matches.

Answer: Good at expresses demonstrated ability or skill in chess.

A01-03. Kai is responsible for feeding the class fish every morning.

Answer: Responsible for expresses Kai's duty: feeding the fish.

A01-04. Mum is worried about the storm because the wind is getting stronger.

Answer: Worried about expresses concern caused by the storm.

A01-05. I am proud of my sister because she finished the race.

Answer: Proud of expresses a positive feeling about her sister's achievement.

A02 · Learn · Similarity, readiness, setting and intention

Identify the complete expression and explain the relation, state, setting or intention shown by the context.

A02-01. This bag is similar to mine, but mine has a red pocket.

Answer: Similar to introduces the item used for a similarity comparison; a difference can still remain.

A02-02. My new school is different from my old one because it has a larger library.

Answer: Different from introduces the comparison point for a difference.

A02-03. We found the old photograph by chance; nobody was searching for it.

Answer: By chance means the discovery was accidental or unexpected.

A02-04. Ben moved the sign on purpose because it blocked the door.

Answer: On purpose means Ben acted deliberately; the movement was intended.

A03 · Notice · Whole-pattern box

Read the whole box. Treat each pattern as a form-meaning unit; then notice what kind of complement can follow it.

A03-01. Meaning unit before separate words

Answer: Learn interested in, good at and on purpose as complete chunks. The preposition helps build the whole meaning; translating it alone often creates the wrong English pattern.

A03-02. Interest and ability

Answer: Interested in names an interest; keen on often shows strong interest in British English; good at names skill or ability. A person can be interested in something without being good at it.

A03-03. Feeling and duty

Answer: Proud of expresses positive feeling; worried about expresses concern; responsible for expresses a duty, cause or area of responsibility. Context decides the intended meaning.

A03-04. Comparison and description

Answer: Similar to links comparable things that share features; different from marks difference. Famous for introduces the reason a person/place is known; ready for introduces what someone/something is prepared for.

A03-05. Risk and fixed expressions

Answer: At risk marks possible danger. By chance marks accidental discovery/occurrence; on purpose marks intention. In detail means with many specific points; in public means where other people can see or hear.

A03-06. Noun after a preposition

Answer: A noun or noun phrase can follow: interested in space, proud of my sister, ready for the test, in public. Keep the whole governed pattern intact.

A03-07. Gerund after a preposition

Answer: When an action follows a preposition, use the gerund (-ing form used as a noun): interested in reading, good at solving problems, responsible for feeding the fish. Do not use a bare infinitive after the preposition.

A03-08. Related infinitive pattern

Answer: Ready to start uses to + infinitive and is related to, but structurally different from, ready for the test. This module scores ready for + noun and recognises the ready to + infinitive contrast without treating to as the same preposition.

A03-09. Controlled varieties and collocations

Answer: Different from is the controlled international target. Different to occurs in British English and different than in American English in some contexts; do not call every external use ungrammatical. Keen on is a useful British-English default.

A03-10. Scope guardrail

Answer: M15 scores the selected adjective-preposition and fixed prepositional expressions. Broader adjective complementation, separable phrasal verbs, verb-preposition patterns and idiomatic meanings remain S7-M16 or later/extension work.

A04 · Notice · Mark the whole pattern and evidence

Underline the complete pattern, label its meaning and mark the noun/gerund or contextual evidence that completes it.

A04-01. Lily is keen on basketball and practises every weekend.

Answer: keen on + basketball; strong interest; practice supports the interpretation.

A04-02. The town is famous for its old bridge.

Answer: famous for + its old bridge; reason the town is known.

A04-03. We are ready for the test because we studied every unit.

Answer: ready for + the test; prepared state; studying supplies evidence.

A04-04. The plants are at risk because nobody has watered them.

Answer: at risk; possible danger; missing water supplies the evidence.

A04-05. Please describe the picture in detail, including the people and place.

Answer: in detail; manner with specific information.

A04-06. She feels nervous when she speaks in public to a large group.

Answer: in public; setting where other people can see/hear.

A04-07. Mina is interested in learning how robots work.

Answer: interested in + learning; gerund after the preposition; topic of interest.

A04-08. Omar is good at solving number puzzles.

Answer: good at + solving; gerund after the preposition; demonstrated skill.

A05 · Build · Build the complete meaning unit

Complete each line from the stated meaning. Select the whole pattern and use a noun/gerund complement accurately.

A05-01. interest: Nina is interested ____ space.

Answer: in.

A05-02. ability: Omar is good ____ chess.

Answer: at.

A05-03. positive feeling: I am proud ____ my sister.

Answer: of.

A05-04. duty: Kai is responsible ____ feeding the fish.

Answer: for.

A05-05. concern: Mum is worried ____ the storm.

Answer: about.

A05-06. similarity/difference: This bag is similar ____ mine but different ____ yours.

Answer: to; from.

A05-07. known reason/preparation: The town is famous ____ its bridge; we are ready ____ the visit.

Answer: for; for.

A05-08. accidental/intended: I found it ____ chance; he moved it ____ purpose.

Answer: by; on.

A05-09. gerund repair: Mina is interested in learn about robots.

Answer: Mina is interested in learning about robots.

A05-10. meaning-unit repair: Omar is good chess and keen in it.

Answer: Omar is good at chess and keen on it.

A06 · Choose · Choose the best complete pattern

Choose one best line for the complete context. Treat each collocation as a meaning unit and preserve legitimate stated variation outside the controlled target. Every distractor routes to repair.

A06-01. Nina enjoys learning about planets, but she has only just started and has little knowledge.

A. Nina is good at astronomy. B. Nina is interested in astronomy. C. Nina is responsible for astronomy.

Answer: B

A06-02. Omar solves difficult chess problems quickly and often wins.

A. Omar is good at chess. B. Omar is interested in chess but has never played. C. Omar is worried about chess.

Answer: A

A06-03. Kai must feed the class fish every morning; it is his assigned duty.

A. Kai is proud of feeding the fish. B. Kai is worried about the fish. C. Kai is responsible for feeding the fish.

Answer: C

A06-04. Choose the accurate action complement after a preposition.

- A. Mina is interested in learn about robots. B. Mina is interested in learning about robots. C. Mina is interested to learning about robots.

Answer: B

A06-05. Both bags have the same size and shape, although their colours differ.

- A. This bag is different from mine in every way. B. This bag is famous for mine. C. This bag is similar to mine.

Answer: C

A06-06. The new school has a larger library and a longer day than the old school.

- A. The new school is different from the old one. B. The new school is similar to the old one in those features. C. The new school is responsible for the old one.

Answer: A

A06-07. The bridge is the reason visitors around the country know the town.

- A. The town is ready for the bridge. B. The town is famous for its bridge. C. The town is keen on its bridge.

Answer: B

A06-08. Nobody expected to find the photograph; it appeared during a different search.

- A. We found it on purpose. B. We described it in detail. C. We found it by chance.

Answer: C

A06-09. Ben moved the chair deliberately so the door could open.

- A. Ben moved it on purpose. B. Ben moved it by chance. C. Ben moved it in public.

Answer: A

A06-10. The speaker must include many specific features of the picture.

- A. Describe it by chance. B. Describe it in public. C. Describe it in detail.

Answer: C

A06-11. Choose the coherent safe profile: interest, skill, duty and accidental event.

- A. I am interested at art, good in drawing and responsible to the display. I found the card on chance. B. I am interested in art, good at drawing and responsible for the display. I found the card by chance. C. I am keen for art, proud at drawing and worried for the display. I found the card in purpose.

Answer: B

A06-12. Choose the accurate M15 scope boundary.

- A. M15 scores selected adjective-preposition and fixed expressions; phrasal/prepositional verbs remain M16 or later work. B. Every adjective can use any preposition if its separate translation looks similar. C. Every -ing form after a preposition is a continuous tense.

Answer: A

A07 · Use · Describe interests, duties and intention

Create a safe fictional profile or describe yourself using information you choose to share. Do not judge classmates or include private, medical or sensitive information. Complete the first attempt without the pattern box.

A07-01. Name one safe interest and one demonstrated skill; use interested in/keen on and good at with evidence.

Answer: Open response - Accurate whole patterns; interest and demonstrated skill remain meaningfully distinct.

A07-02. Describe one achievement/person you are proud of and one safe concern using proud of and worried about.

Answer: Open response - Accurate patterns and clear positive-feeling versus concern meanings; fictional option accepted.

A07-03. Describe one ordinary responsibility with responsible for + noun/gerund.

Answer: Open response - Clear non-sensitive duty and accurate noun/gerund complement.

A07-04. Compare two safe objects/places using similar to and different from.

Answer: Open response - Both relations are supported by specific shared/different features.

A07-05. Describe one person/place as famous for something and one group as ready for an event.

Answer: Open response - Reason-for-fame and prepared-state meanings are accurate and not exaggerated as official claims.

A07-06. Write one accidental event with by chance and one deliberate event with on purpose; make the evidence decisive.

Answer: Open response - Accident and intention are clearly contrasted through safe fictional/personal context.

A07-07. Submit a coherent eight-sentence profile/update including one in detail or in public expression, then repair any meaning-unit, complement, intention or privacy problem.

Answer: Open response - Independent safe transfer with at least eight accurate target patterns and governed repair where required.

A08 · Check · Diagnose the whole pattern

Each item has one primary problem or false claim. Name the error code, repair it and explain the decisive meaning-unit, complement or context clue.

A08-01. Nina enjoys science but is a beginner, so the report says she is good at science.

Answer: Nina is interested in science. Interest does not prove skill.

A08-02. Omar is good chess and interested on puzzles.

Answer: Omar is good at chess and interested in puzzles.

A08-03. Mina is responsible for feed the fish.

Answer: Mina is responsible for feeding the fish.

A08-04. Kai has an assigned duty, but the note says: Kai is worried about feeding the fish.

Answer: Kai is responsible for feeding the fish. Worried about would express concern, not the assigned duty.

A08-05. The bags share their size and shape, so the note says they are different from each other.

Answer: The bags are similar to each other in size and shape.

A08-06. The town is known because of its bridge, so the note says it is ready for its bridge.

Answer: The town is famous for its bridge.

A08-07. Nobody planned the discovery, but the report says: We found it on purpose.

Answer: We found it by chance.

A08-08. The teacher asks for many specific points, but the instruction says: Describe it in public.

Answer: Describe it in detail. In public describes the setting, not the amount of detail.

A08-09. Profile: I am interested at music and good in sing. I am responsible to a private medical task. I broke a cup in purpose.

Answer: Example repair: I am interested in music and good at singing. I am responsible for organising fictional song cards. I moved one card on purpose. Remove the private medical detail.

A09 · Check · Use the complete repair route

Choose one error from A06, A07 or A08. Follow Diagnose → Cue → Contrast → Retry → Explain/Reveal → Route.

A09-01. Record: original response → error code → retry → decisive whole-pattern/context evidence → continue/revisit/teacher route.

Answer: Open response - Includes an actual retry, explains decisive evidence and records a justified next route.

A10 · Retrieve · Reconstruct the pattern system

Cover all explanations. Complete in English from memory. Items 8-9 are the complete governed delayed returns from S7-M09 and S7-M13.

A10-01. Explain why interested in and good at are not interchangeable.

Answer: Interested in expresses interest; good at expresses skill supported by performance. Either, both or neither may fit a person.

A10-02. State the complement rule after a target preposition and contrast ready for with ready to.

Answer: Use a noun/noun phrase or gerund after the preposition; ready for + noun differs from ready to + infinitive.

A10-03. Group the target meanings: feeling/duty, comparison, state/risk, intention/setting/manner.

Answer: Feelings/duty: proud of, worried about, responsible for; comparison: similar to, different from; state/risk: ready for, at risk, famous/keen patterns as context requires; intention/setting/manner: on purpose, by chance, in public, in detail.

A10-04. Repair: She is interested on read and good in draw.

Answer: She is interested in reading and good at drawing.

A10-05. Choose and explain: Nobody planned the meeting; we met by chance/on purpose.

Answer: By chance, because the meeting was accidental rather than intended.

A10-06. Write one similar to/different from pair with specific evidence.

Answer: Open response - Accurate patterns and credible shared/different features.

A10-07. Write a five-line safe profile with interest, skill, duty, concern and deliberate/accidental event.

Answer: Open response - Faithful unsupported transfer with accurate patterns, complements and intention meaning.

A10-08. S7-M09 L3: Complete the delayed duration gate. Edit (1) Mina has been a member since six months and she is still a member. (2) Leo has lived there from 2021 to 2023, but he moved away. (3) We have known each other since we have joined the club. Then write an unseen eight-sentence safe/invented time line with a starting point, matching duration, How long question/answer, current evidence, so-far or recent progress and a finished-past contrast. Record the external check and corrected retry.

Answer: Open response - Repairs for six months, lived and since we joined; supplies the complete externally checked S7-M09 L3 time line; claims Retained for M09 only if both mixed editing and production pass after governed retry.

A10-09. S7-M13 L2: Complete the delayed future/condition return. (1) Choose the prior intention: A. We're going to prepare the room; the plan is agreed. B. We'll decide yesterday to prepare it. C. We prepare it unless last week. (2) Choose the real future condition: A. Whenever pupils mix colours, they get new colours. B. If the delivery arrives tomorrow, we'll organise the materials. C. If the delivery will arrive, we organised it yesterday. (3) Repair: Unless the labels don't arrive, we'll make new ones. (4) Write a four-line preparation note with a prior intention, opinion prediction, general routine and future contingency.

Answer: Open response - Selects A then B; repairs unless/if-not logic; produces all four M13 meanings while M15 checks adjective/preposition language separately.

A11 · Reflect · How do whole patterns carry meaning?

Reflect briefly. Confidence selects practice but does not change the evidence result.

A11-01. What should you learn instead of translating a preposition alone?

Answer: Learn the complete adjective-preposition or fixed expression together with its meaning and a clear example.

A11-02. How do you distinguish interested in from good at?

Answer: Use enjoyment/curiosity evidence for interest and performance evidence for skill.

A11-03. What form follows a target preposition when the complement is an action?

Answer: A gerund (-ing form used as a noun), not a bare infinitive.

A11-04. What context check separates by chance from on purpose?

Answer: Ask whether the event was accidental/unexpected or deliberately intended.

A11-05. Which error code do you most need to revisit, and what retry evidence shows this?

Answer: Open response - Names a relevant code and links it to actual evidence.

A11-06. Record confidence from 1-4, then choose: continue, repeat one contrast, revisit A03 or ask for teacher support.

Answer: Open response - Records confidence and an evidence-based route; does not claim mastery from confidence alone.

L0 · Retrieve · L0 — same-session exit

Close the module. Complete without notes or a pattern heading.

L0-01. Interest: Nina is interested ____ space.

Answer: in.

L0-02. Skill: Omar is good ____ solving puzzles.

Answer: at.

L0-03. Duty: Kai is responsible ____ feeding the fish.

Answer: for.

L0-04. Repair: Mina is keen in learn about robots.

Answer: Mina is keen on learning about robots.

L0-05. Choose intention: Nobody planned it; we found it by chance/on purpose.

Answer: by chance.

L0-06. Choose manner/setting: Give many specific points in detail/in public.

Answer: in detail.

L0-07. Write one similarity and one difference with evidence.

Answer: Open response - Accurate similar to/different from patterns with specific evidence.

L0-08. Write a four-line profile with interest, ability, responsibility and deliberate event.

Answer: Open response - Four distinct accurate meanings with safe content and correct complements.

L1 · Retrieve · L1 — 1-3-day return

Complete later without the pattern box. Retry every routed error before recording evidence.

L1-01. Repair: Leo is worried for the storm and responsible to closing the window.

Answer: Leo is worried about the storm and responsible for closing the window.

L1-02. Repair: The town is famous of its bridge and ready to the festival.

Answer: The town is famous for its bridge and ready for the festival.

L1-03. Repair: I am interested in draw and good at paint.

Answer: I am interested in drawing and good at painting.

L1-04. Explain one interest-without-skill context and one skill-without-interest context.

Answer: Open response - Two coherent contexts that prove the meanings are distinct.

L1-05. Write one by chance and one on purpose event with decisive evidence.

Answer: Open response - Accidental versus deliberate meanings are explicit and grammatically accurate.

L1-06. Write a six-line fictional profile using six different governed patterns.

Answer: Open response - Independent coherent transfer with accurate meanings, forms, complements and safe content.

L2 · Retrieve · L2 — mixed return in S7-M17

In S7-M17 or the timetable equivalent, retrieve M15 patterns while comparing two transport or study options. Comparative forms are checked separately by the host module.

L2-01. Choose the skill claim: A. Mina is interested in cycling. B. Mina is good at cycling; she completes the route quickly. C. Mina is responsible for cycling.

Answer: B

L2-02. Choose the accurate comparison relation: A. The plans are similar to each other in cost. B. The plans are similar with each other. C. The plans are responsible for each other.

Answer: A

L2-03. Repair: We are keen in choose the safer option.

Answer: We are keen on choosing the safer option.

L2-04. Write a four-line comparison note using interested in/good at, similar to/different from and ready for.

Answer: Open response - Accurate M15 transfer in an S7-M17 host; comparative morphology is checked by that host.

L3 · Retrieve · L3 — 21-35-day retained-evidence gate

In S7-M21 or the timetable equivalent, complete an unseen safe profile/description task in English. An external checker must verify mixed editing and independent production after any governed retry.

L3-01. Edit: Mina is interested on science and good in solve problems.

Answer: Mina is interested in science and good at solving problems.

L3-02. Edit: The two new rooms are similar with each other but different from the old room.

Answer: The two new rooms are similar to each other but different from the old room.

L3-03. Edit the intention meaning: Nobody planned the discovery, but the note says we found it on purpose.

Answer: We found it by chance.

L3-04. Use an unseen fictional profile/place card to write eight sentences with interest, skill, pride/concern, responsibility, similarity/difference, readiness/risk and accidental/deliberate meaning. Include at least three noun/gerund complements.

Answer: Open response - Externally checked independent M15 transfer with accurate whole patterns and safe content; S7-M21 noun-phrase/word-building choices are checked separately.

L3-05. Record the external check, any diagnostic code and corrected retry. State whether both mixed editing and independent production passed.

Answer: Open response - Names checker evidence, records governed retry if needed and makes a Retained claim only when both delayed components pass.

Module progress check

Complete this after your first attempt and again after feedback.

☐ Not yet ☐ Nearly ☐ Secure I can choose common adjective-preposition patterns from complete meaning and evidence.

☐ Not yet ☐ Nearly ☐ Secure I can use a noun or gerund accurately after a target preposition.

☐ Not yet ☐ Nearly ☐ Secure I can distinguish similarity/difference, accidental/deliberate and detail/public-setting expressions.

☐ Not yet ☐ Nearly ☐ Secure I can describe safe interests, skills, duties, concerns and events in a coherent profile.

One correction I can explain:

My next retrieval date: _____

Phrasal and prepositional verbs

LEARN → NOTICE → BUILD → CHOOSE → USE → CHECK → RETRIEVE → REFLECT

Your goals

- ☐ I can choose a useful multi-word verb from its meaning and context.
- ☐ I can place noun and pronoun objects accurately in selected separable patterns.
- ☐ I can keep selected prepositional verbs and their complements complete.
- ☐ I can give safe practical advice using at least four natural multi-word patterns.

Name: _____ Class: _____ Date: _____

A01 · Learn · What action or relation does the unit express?

Read each whole context. Explain the action or relation before naming a particle, preposition or verb pattern.

A01-01. Maya feeds the class fish and checks the water each day. She looks after them.

Answer: Looks after expresses care/responsibility.

A01-02. We checked the timetable to find out when the train left.

Answer: Find out expresses discovering information.

A01-03. Sam refused the invitation politely; he turned it down.

Answer: Turn down expresses refusal in the approved sense.

A01-04. The answer was difficult, but the group worked it out.

Answer: Work out expresses solving/calculating in the approved sense.

A01-05. Lina did not stop after one mistake. She carried on practising.

Answer: Carry on expresses continuing.

A02 · Learn · Particles, prepositions and complements

Compare the complete examples. State what remains together and what meaning the complement adds.

A02-01. Pick up the card. / Pick it up.

Answer: Pick up is separable here; the pronoun goes between verb and particle.

A02-02. Listen to the guide. / Listen to her.

Answer: Listen to is inseparable here; to remains before the complement.

A02-03. Give up guessing. / Succeed in solving it.

Answer: The controlled patterns take -ing complements.

A02-04. Listen to the guide. / Decide to listen.

Answer: The first to is a preposition; the second marks an infinitive.

A03 · Notice · Multi-word verb pattern box

Read the complete box. Connect controlled meaning, placement and complement behaviour.

A03-01. Meaning first

Answer: Learn each selected multi-word unit with its controlled meaning; do not translate the small word alone.

A03-02. Separable set

Answer: pick up, turn down, set up and work out permit a noun object after or between in the controlled transitive sense.

A03-03. Pronoun rule

Answer: With that separable set, a short object pronoun must go between: pick it up, turn it down, set it up, work it out.

A03-04. Inseparable set

Answer: look after, depend on, listen to, belong to, agree with, wait for and the other selected prepositional units keep the preposition before the complement.

A03-05. Three-word unit

Answer: take part in stays complete before its complement.

A03-06. Controlled senses

Answer: pick up = lift; turn down = refuse; set up = prepare/build; work out = solve/calculate in current scoring.

A03-07. Gerund pattern

Answer: Use -ing in give up trying, carry on practising, apologise for arriving and succeed in solving.

A03-08. Infinitive contrast

Answer: In want to listen or decide to ask, infinitive to is followed by a base verb.

A03-09. Taxonomy boundary

Answer: Phrasal/prepositional labels are useful placement guides here; wider analyses can classify some multi-word verbs differently.

A03-10. Scope and safety

Answer: Use approved senses and safe practical advice; record other meanings for later extension rather than scoring them wrong universally.

A04 · Notice · Mark the complete unit and placement evidence

Underline the complete multi-word unit, box its complement and label controlled meaning plus placement evidence.

A04-01. Please pick the paper up.

Answer: pick + noun object + up; separable noun placement

A04-02. Please pick it up.

Answer: pick + pronoun + up; required pronoun placement

A04-03. We listened to the message.

Answer: listen to + noun; inseparable prepositional complement

A04-04. This notebook belongs to Ana.

Answer: belong to + owner; inseparable relation

A04-05. They took part in the clean-up.

Answer: complete three-word unit + complement

A04-06. He apologised for arriving late.

Answer: apologise for + gerund reason

A04-07. Carry on reading.

Answer: carry on + gerund continuation

A04-08. I want to apply for the role.

Answer: infinitive to + base apply; apply for + noun target

A05 · Build · Build complete multi-word patterns

Complete each line from meaning. Preserve the required particle/preposition, object position and complement.

A05-01. Care for the class plant: Please ___ it while I am away.

Answer: look after

A05-02. Discover the answer: We need to ___ why the light is off.

Answer: find out

A05-03. Politely refuse the offer; use the pronoun it.

Answer: turn it down

A05-04. Lift the card; use the pronoun it.

Answer: pick it up

A05-05. Prepare the display; use the noun the display after the particle.

Answer: set up the display

A05-06. Solve the puzzle; use the pronoun it.

Answer: work it out

A05-07. Continue practising.

Answer: carry on practising

A05-08. Stop trying to use the broken key.

Answer: give up trying to use the broken key

A05-09. Participate in the club project.

Answer: take part in the club project

A05-10. Direct attention to one step.

Answer: focus on one step

A06 · Choose · Choose the best complete pattern

Choose one best line for the complete context. Use controlled meanings and placement evidence; every distractor has one governed rejection route.

A06-01. A friend will feed and check the rabbit for three days.

A. She will look after the rabbit. B. She will pick up the rabbit. C. She will turn down the rabbit.

Answer: A

A06-02. The team needs the missing departure time.

A. They will carry on waiting. B. They will find out when the bus leaves. C. They will give up the trip.

Answer: B

A06-03. The offer was unsuitable, so Mia refused it.

A. Mia turned down it. B. Mia it turned down. C. Mia turned it down.

Answer: C

A06-04. The card is on the floor; use the pronoun it.

A. Pick it up. B. Pick up it. C. Pick it.

Answer: A

A06-05. The group stayed until the teacher arrived; use a pronoun for the teacher.

A. They waited her for. B. They waited for her. C. They waited her.

Answer: B

A06-06. The message contains the next instruction; use it.

- A. Listen it to. B. Listen it. C. Listen to it.

Answer: C

A06-07. After several attempts, the group solved the puzzle successfully.

- A. They succeeded in solving it. B. They succeeded to solve it. C. They succeeded in solve it.

Answer: A

A06-08. Kai stopped trying to open the broken lock.

- A. Kai gave up to try. B. Kai gave up trying. C. Kai gave trying up.

Answer: B

A06-09. Nora formed an intention before she spoke.

- A. Nora decided asking. B. Nora decided to asking. C. Nora decided to ask.

Answer: C

A06-10. All learners joined the safe class activity.

- A. They took part in the activity. B. They took part the activity. C. They took in part the activity.

Answer: A

A06-11. The advice is to continue despite one small mistake.

- A. Turn down the task. B. Carry on practising. C. Give up trying.

Answer: B

A06-12. Choose the approved solve/calculate sense, not another possible dictionary sense.

- A. They worked out at the gym. B. The plan worked out well. C. They worked out the answer together.

Answer: C

A07 · Use · Give safe practical advice

Create a fictional or self-chosen safe advice card. Do not include dangerous, medical, private or coercive instructions. Complete the first attempt without the pattern box.

A07-01. Write one line advising someone to continue useful practice; use carry on + -ing.

Answer: Open response - Uses carry on naturally with an -ing complement.

A07-02. Write one line advising someone not to stop after one error; use do not give up + -ing.

Answer: Open response - Uses give up naturally with an -ing complement.

A07-03. Write one line directing attention; use focus on.

Answer: Open response - Uses focus on with a complete complement.

A07-04. Write one line advising how to solve or discover information; use work out or find out.

Answer: Open response - Uses one controlled meaning accurately.

A07-05. Add one line with wait for, listen to, deal with or ask someone to help.

Answer: Open response - Uses a structurally complete safe advice pattern.

A07-06. Combine at least four naturally chosen multi-word patterns into a coherent practical-advice card.

Answer: Open response - Four accurate units, relevant order and safe age-appropriate content.

A07-07. Explain why each selected pattern fits its practical goal and identify one separable/inseparable placement decision.

Answer: Open response - Meaning, placement and goal are explained accurately.

A08 · Check · Diagnose structure, meaning and placement

Each item has one primary defect or false claim. Name its error code, repair it and explain the decisive evidence.

A08-01. Turn down it politely.

Answer: Turn it down politely.

A08-02. Please listen the announcement.

Answer: Please listen to the announcement.

A08-03. We waited it for outside.

Answer: We waited for it outside.

A08-04. She succeeded to solving the puzzle.

Answer: She succeeded in solving the puzzle.

A08-05. He gave up to try after one minute.

Answer: He gave up trying after one minute.

A08-06. Pick up it carefully.

Answer: Pick it up carefully.

A08-07. All two-word verbs are separable.

Answer: Not all multi-word verbs are separable; use the controlled placement evidence.

A08-08. Work out always means exercise.

Answer: In this module, work out is scored in its approved solve/calculate sense; other meanings exist.

A08-09. Write unsafe advice that pressures a learner to continue a risky action.

Answer: Replace it with safe, respectful advice and an appropriate controlled pattern.

A09 · Check · Use the complete repair route

Choose one error from A06, A07 or A08. Follow Diagnose → Cue → Contrast → Retry → Explain/Reveal → Route.

A09-01. Record the code, first response, cue, contrast, corrected retry, explanation and next route.

Answer: Open response - All six feedback stages are visible and the retry is a new decision.

A10 · Retrieve · Reconstruct the multi-word system

Cover all explanations and complete in English from memory. Items 8-9 host the complete governed S7-M10 L3 and S7-M14 L2 returns.

A10-01. Refuse it politely, using turn down.

Answer: Turn it down politely.

A10-02. Lift it carefully, using pick up.

Answer: Pick it up carefully.

A10-03. Use listen + it as a complete controlled unit.

Answer: Listen to it.

A10-04. Use succeed in + solve the puzzle.

Answer: Succeed in solving the puzzle.

A10-05. Use carry on + practise.

Answer: Carry on practising.

A10-06. Explain the two functions of to in 'I want to listen to the guide.'

Answer: The first to marks the infinitive; the second is the preposition in listen to.

A10-07. Write four safe advice lines using four naturally chosen controlled patterns.

Answer: Open response - Four complete controlled patterns, coherent practical goal and safe content.

A10-08. Complete the full S7-M10 L3 return: (a) edit 'Does Leo can swim now? — Yes, he can swims.'; (b) edit the intended formal permission exchange 'May you enter the room? — Yes, I may.'; (c) edit the intended tentative request 'Can you help me? — Of course.' while noting that neutral can remains possible; (d) write an unseen eight-turn safe school dialogue containing present/past-general ability, neutral/formal permission, neutral/tentative requests, acceptance and respectful refusal; (e) record external checking, codes, retries and whether mixed editing plus independent production both passed.

Answer: Open response - Complete externally checked S7-M10 L3: all three repairs, eight-turn dialogue, evidence record and governed retry.

A10-09. Complete the full S7-M14 L2 return while passing on practical advice: (a) choose the faithful listener report: A. Mina told me that I should check the map. B. Mina said me that I should check it. C. Mina wondered me whether I checked it.; (b) choose the reported wh-question: A. Leo asked whether the bus left. B. Leo asked what time the bus left. C. Leo asked what time did the bus leave?; (c) repair 'Ana asked where should she look for the key?'; (d) write a four-line report with two pieces of advice, one wh-question and one yes/no question.

Answer: Open response - Complete S7-M14 L2: both choices, reported-question repair and four-line report.

A11 · Reflect · How do multi-word patterns carry meaning?

Reflect briefly. Confidence selects practice but never changes the evidence result.

A11-01. What meaning clue helped you choose a multi-word unit?

Answer: Open response - Names a contextual action/relation clue.

A11-02. How did noun/pronoun placement distinguish a separable unit?

Answer: Open response - Explains the controlled pronoun-between rule.

A11-03. How did you identify prepositional to versus infinitive to?

Answer: Open response - Uses complement/function evidence, not spelling alone.

A11-04. Which error code still needs practice?

Answer: Open response - Names a code and matching next route.

A11-05. Record confidence 1-4 and compare it with actual evidence.

Answer: Open response - Confidence is recorded but does not upgrade mastery.

A11-06. Schedule L1, L2 in S7-M18 and L3 in S7-M22.

Answer: Open response - All returns are scheduled in pilot windows or timetable equivalents.

L0 · Retrieve · L0 — same-session exit

Close the module. Complete without notes or a topic heading.

L0-01. Refuse it politely.

Answer: Turn it down politely.

L0-02. Use depend + the weather.

Answer: It depends on the weather.

L0-03. Use work out + it.

Answer: Work it out.

L0-04. Use take part + the activity.

Answer: Take part in the activity.

L0-05. Use apologise for + arrive late.

Answer: Apologise for arriving late.

L0-06. Explain the placement difference: pick it up / wait for it.

Answer: Pick up is separable here; wait for is inseparable.

L0-07. Explain both to forms in 'We decided to listen to Ana.'

Answer: Infinitive to before listen; preposition to before Ana.

L0-08. Write four safe practical-advice lines with four controlled units.

Answer: Open response - Four accurate units, relevant meaning and safe content.

L1 · Retrieve · L1 — 1-3-day return

Complete later without the pattern box. Retry every routed error before recording evidence.

L1-01. Repair: Please turn down it.

Answer: Please turn it down.

L1-02. Repair: We listened the guide.

Answer: We listened to the guide.

L1-03. Choose and explain: give up trying / give up to try.

Answer: Give up trying; the controlled pattern takes -ing.

L1-04. Explain why 'wait it for' does not copy 'pick it up'.

Answer: Wait for is inseparable; pick up is separable in the controlled sense.

L1-05. Use work out and find out in two different controlled meanings.

Answer: Open response - Solve/calculate versus discover information is clear.

L1-06. Write a five-line safe advice card with four controlled units.

Answer: Open response - Independent, accurate, coherent and safe.

L2 · Retrieve · L2 — mixed return in S7-M18

In S7-M18 or the timetable equivalent, retrieve M16 patterns while comparing quantities and options. Quantifier choice is checked separately by the host module.

L2-01. Choose: We have little time, so let us A. focus the first step / B. focus on the first step / C. focus the first step on.

Answer: B

L2-02. Choose: There are a few clues, so we can A. work them out / B. work out them / C. work them.

Answer: A

L2-03. Repair: We succeeded to solve a few problems.

Answer: We succeeded in solving a few problems.

L2-04. Write four comparison/advice lines using M18 quantity meaning and at least three complete M16 patterns.

Answer: Open response - Host quantifiers and M16 patterns are independently accurate and meaning-coherent.

L3 · Retrieve · L3 — 21-35-day retained-evidence gate

In S7-M22 or the timetable equivalent, complete an unseen safe problem-solving/advice task in English. An external checker must verify mixed editing and independent production after any governed retry.

L3-01. Edit: Turn down it if the offer is unsafe.

Answer: Turn it down if the offer is unsafe.

L3-02. Edit: We succeeded to working out the answer.

Answer: We succeeded in working out the answer.

L3-03. Explain the placement contrast in an unseen pair containing one separable and one prepositional unit.

Answer: Open response - Accurately uses noun/pronoun movement and required-preposition evidence.

L3-04. Write an unseen eight-line safe advice/problem-solving plan using at least six naturally chosen M16 patterns, one gerund pattern and one infinitive contrast.

Answer: Open response - Externally checked independent transfer with accurate meaning, structure, placement, complements and safety.

L3-05. Record external checking, diagnostic codes, corrected retries and whether mixed editing plus independent production both passed.

Answer: Open response - Retained is claimed only when both delayed components pass after governed repair.

Module progress check

Complete this after your first attempt and again after feedback.

- ☐ Not yet ☐ Nearly ☐ Secure I can choose a useful multi-word verb from its meaning and context.
- ☐ Not yet ☐ Nearly ☐ Secure I can place noun and pronoun objects accurately in selected separable patterns.
- ☐ Not yet ☐ Nearly ☐ Secure I can keep selected prepositional verbs and their complements complete.
- ☐ Not yet ☐ Nearly ☐ Secure I can give safe practical advice using at least four natural multi-word patterns.

One correction I can explain:

My next retrieval date: _____

Comparatives

LEARN → NOTICE → BUILD → CHOOSE → USE → CHECK → RETRIEVE → REFLECT

Your goals

- ☐ I can identify equal and unequal relations from evidence.
- ☐ I can compare qualities and action manners.
- ☐ I can use controlled equal/lower/irregular frames.
- ☐ I can compare two transport or study options and support each comparison.

Name: _____ Class: _____ Date: _____

A01 · Learn · Read the relation before the form

State equal/higher/lower and the basis before naming grammar.

A01-01. Both routes take 20 minutes.

Answer: Equal in journey time.

A01-02. The train costs £4; the coach costs £7.

Answer: The train is cheaper; cost is the basis.

A01-03. Maya types 30 words a minute; Leo types 24.

Answer: Maya types more quickly; typing rate is the basis.

A01-04. Plan A has three changes; Plan B has one.

Answer: Plan B is less complicated; number of changes supports it.

A01-05. One study room has more light and less noise for this task.

Answer: It may be better for this task; the stated conditions are the basis.

A02 · Learn · Equal, higher and lower degree

Explain relation and whether quality or action manner is compared.

A02-01. The bus is as comfortable as the train.

Answer: Equal quality: as + adjective + as.

A02-02. The bus is not as quiet as the train.

Answer: Unequal quality: lower quietness.

A02-03. The train arrives more quickly than the bus.

Answer: Unequal action manner: comparative adverb phrase.

A02-04. The second plan was worse than the first for this goal.

Answer: Unequal evaluation with irregular worse and an explicit goal.

A03 · Notice · Comparative pattern box

Connect relation, basis, form and function.

A03-01. Meaning first

Answer: Use evidence to decide equal, higher or lower degree before selecting form.

A03-02. Clear basis

Answer: Name options and feature: cheaper than the coach for this journey.

A03-03. Short adjectives

Answer: Many controlled short adjectives use -er + than: faster, quieter, cheaper; spelling may change.

A03-04. Longer adjectives

Answer: Many controlled longer adjectives use more/less + adjective + than: more reliable, less expensive.

A03-05. Equal frame

Answer: Use as + adjective/adverb + as for equality.

A03-06. Unequal frame

Answer: Use not as + adjective/adverb + as for lower degree in this controlled pathway.

A03-07. Adjective/adverb

Answer: Adjectives describe nouns; adverbs describe how actions happen.

A03-08. Irregular forms

Answer: Use better for good/well and worse for bad/badly in controlled comparisons.

A03-09. No double marking

Answer: Use faster, not more faster; better, not more better.

A03-10. Later scope

Answer: S7-M18 owns superlatives/degree modifiers; S7-M19 owns detailed quantity.

A04 · Notice · Mark relation, basis and function

Underline comparison, box basis, label equal/unequal and adjective/adverb.

A04-01. The cycle route is safer than the road.

Answer: safer describes route; than introduces reference

A04-02. The train moves more quickly than the coach.

Answer: more quickly describes moves

A04-03. This room is as bright as that one.

Answer: equal adjective frame

A04-04. This room is not as quiet as that one.

Answer: unequal adjective frame

A04-05. Plan B is less expensive than Plan A.

Answer: lower degree of expensive

A04-06. Maya checked less carefully than before.

Answer: lower degree of action manner

A04-07. The timetable is better for this class.

Answer: irregular comparison qualified by goal

A04-08. The service was worse; the later bus arrived later.

Answer: form and function match the target meaning

A05 · Build · Build supported comparisons

Use stated relation, one marker and a clear comparison point.

A05-01. Same closing time: Library A is ___ Library B.

Answer: as convenient as, if closing time is the stated basis

A05-02. Less traffic: The footpath is ___ the road.

Answer: safer than

A05-03. 30 minutes versus 45: The express arrives ___.

Answer: more quickly than the local

A05-04. The coach costs more: The train is ___.

Answer: less expensive than / cheaper than the coach

A05-05. Both checked every step: Mina worked ___.

Answer: as carefully as Leo

A05-06. The second audio is harder to hear: Its sound is ___.

Answer: worse than the first audio's

A05-07. Plan B fits the goal more effectively: It is ___.

Answer: better for this goal

A05-08. Repair: more faster than.

Answer: faster than

A05-09. Repair: as quiet than.

Answer: as quiet as

A05-10. Complete: checked ___ than before.

Answer: less carefully

A06 · Choose · Choose the supported comparison

Choose one best line from evidence, function and basis.

A06-01. Both routes take exactly 20 minutes.

A. Route A is as quick as Route B. B. Route A is quicker than Route B. C. Route A is not as quick as Route B.

Answer: A

A06-02. Train £4; coach £7.

A. The train is more cheaper than the coach. B. The train is cheaper than the coach. C. The train is as cheap as the coach.

Answer: B

A06-03. Maya completes the same typing task in less time than Leo.

A. Maya types more quick than Leo. B. Maya is more quickly than Leo. C. Maya types more quickly than Leo.

Answer: C

A06-04. The cycle path has less traffic.

A. It is safer than the road for this journey. B. It is more safer for this journey. C. It is safer.

Answer: A

A06-05. The rooms have the same measured noise level.

A. A is quieter than B. B. A is as quiet as B. C. A is not as quiet than B.

Answer: B

A06-06. The second plan creates fewer delays and fits the goal.

A. It is gooder. B. It is more better. C. It is better than the first for this goal.

Answer: C

A06-07. The later recording has more noise.

A. Its sound is worse than the earlier recording's. B. Its sound is badder. C. Its sound is more worse.

Answer: A

A06-08. Nora checked only some steps this time but every step before.

A. She checked less careful. B. She checked less carefully than before. C. She was less carefully.

Answer: B

A06-09. Plan A £8; Plan B £12.

A. A is as expensive as B. B. A is more expensive than B. C. A is less expensive than B.

Answer: C

A06-10. Show lower quietness, not equality.

A. The bus is not as quiet as the train. B. The bus is as not quiet as the train. C. The bus is not quiet than the train.

Answer: A

A06-11. Clearly compare action manner.

A. The app is more quickly. B. The app loads more quickly than the old one. C. The app loads more quick.

Answer: B

A06-12. Choose the fair data-supported claim.

A. Bus users are worse people. B. The bus is better. C. The bus is less expensive for this journey; fares are £3 and £5.

Answer: C

A07 · Use · Compare options and recommend one

Use fictional/self-chosen options; do not rank real classmates or invent safety/ability claims.

A07-01. Name two fictional or self-chosen transport/study options and the goal.

Answer: Open response - Two safe options and one basis.

A07-02. Write one accurate -er + than comparison.

Answer: Open response - Licensed form and reference.

A07-03. Write one more/less ... than comparison.

Answer: Open response - One marker and gradable description.

A07-04. Write one as/not as ... as comparison supported by facts.

Answer: Open response - Complete frame and evidence match.

A07-05. Write one comparative adverb sentence.

Answer: Open response - Accurate action-manner function.

A07-06. Use better/worse once and state the goal.

Answer: Open response - Irregular form and qualified evaluation.

A07-07. Write a coherent six-line recommendation; support every relation.

Answer: Open response - At least four accurate patterns, evidence and safe recommendation.

A08 · Check · Diagnose comparison defects

Each has one primary defect; code, repair and explain.

A08-01. This train is more faster than the bus.

Answer: This train is faster than the bus.

A08-02. A is as quiet than B.

Answer: A is as quiet as B.

A08-03. The express arrives more quick.

Answer: The express arrives more quickly.

A08-04. The plan is more better.

Answer: The plan is better.

A08-05. Mina checked less careful.

Answer: Mina checked less carefully.

A08-06. The route is safer.

Answer: The route is safer than the road for this journey.

A08-07. Both take 30 minutes, so A is quicker.

Answer: Both take 30 minutes, so A is as quick as B.

A08-08. Less expensive always means fewer objects.

Answer: Here it compares lower cost; quantity belongs to S7-M19.

A08-09. Leo is worse than everyone.

Answer: Replace personal ranking with a respectful option comparison.

A09 · Check · Use the complete repair route

Follow Diagnose → Cue → Contrast → Retry → Explain/Reveal → Route.

A09-01. Record code, first response, cue, contrast, corrected retry, explanation and route.

Answer: Open response - All six stages and a new decision are visible.

A10 · Retrieve · Reconstruct the comparison system

Cover explanations. Items 8-9 are complete S7-M11 L3 and S7-M15 L2 returns.

A10-01. Explain equal, higher and lower degree before forms.

Answer: Equality is same degree; higher/lower places one option above/below another on a basis.

A10-02. State controlled -er, more/less and irregular pathways without a universal claim.

Answer: Many short targets use -er; many longer targets use more/less; better/worse are irregular; individual words are checked.

A10-03. State as ... as and not as ... as meanings.

Answer: Equality and controlled lower degree respectively.

A10-04. Contrast comparative adjective/adverb.

Answer: A quicker train describes a noun; moves more quickly describes action manner.

A10-05. Repair: more better and more easier.

Answer: better and easier

A10-06. Write one comparison with an explicit basis.

Answer: Open response - Two options, accurate form and basis.

A10-07. Write a four-line supported option comparison.

Answer: Open response - At least three patterns and a clear recommendation.

A10-08. Complete S7-M11 L3: edit intended prohibition 'Members don't have to share the door code'; reject the false claim that external reasons can only use have to in 'Mina must leave early because her bus departs at five'; edit 'New members ought bring water, but it is not a rule'; compare two fictional clubs and write an unseen seven-line guide containing obligation, external/practical necessity, advice, prohibition and no necessity; record external check, code, retry and whether mixed editing plus production both passed.

Answer: Open response - Repairs mustn't/must not and ought to; preserves must/have to overlap; completes guide and external evidence. M11 Retained only if both components pass.

A10-09. Complete S7-M15 L2: choose skill—A interested in cycling, B good at cycling and completes the route quickly, C responsible for cycling; choose relation—A similar to each other in cost, B similar with, C responsible for; repair 'We are keen in choose the safer option'; write a four-line comparison note using interested in/good at, similar to/different from and ready for.

Answer: Open response - Selects B then A; repairs keen on choosing; completes four-line M15 return while M17 form is checked separately.

A11 · Reflect · Reflect on evidence

Confidence routes practice but does not upgrade mastery.

A11-01. Name the decisive clue for one correction.

Answer: Open response - Names relation, basis or function.

A11-02. Record confidence 1-4 and one next route.

Answer: Open response - Both are recorded.

A11-03. When may S7-M17 be Retained?

Answer: Only after delayed L3 mixed editing and externally checked independent transfer both pass after retry.

L0 · Retrieve · L0 — support removed

Complete fresh unsigned items.

L0-01. Same duration: write equality.

Answer: A is as quick as B.

L0-02. Repair more quieter.

Answer: quieter

L0-03. Repair not as reliable than.

Answer: not as reliable as

L0-04. Repair works more careful.

Answer: works more carefully

L0-05. Repair gooder.

Answer: better

L0-06. Write a lower-cost comparison.

Answer: Open response - Accurate less/cheaper form.

L0-07. Write a comparison with explicit basis.

Answer: Open response - Basis is clear.

L0-08. Give a three-line recommendation.

Answer: Open response - Evidence-based and safe.

L1 · Retrieve · L1 — less-signposted return

Complete 1-3 days later without the box.

L1-01. Apps load in four seconds: compare speed.

Answer: They load as quickly as each other.

L1-02. Second map has clearer labels: compare.

Answer: It is clearer than the first.

L1-03. Repair arrives more slow.

Answer: arrives more slowly

L1-04. Repair worser for our goal.

Answer: worse for our goal

L1-05. Write not as ... as from facts.

Answer: Open response - Frame and evidence agree.

L1-06. Write a four-line delayed recommendation.

Answer: Open response - Accurate, supported and safe.

L2 · Retrieve · L2 — mixed return in S7-M19

Retrieve M17 within supplies/quantity planning; quantity is the host target.

L2-01. Both routes take 25 minutes: A quicker; B as quick; C not as quick.

Answer: B

L2-02. Repair more easier.

Answer: easier

L2-03. Repair moves more rapid.

Answer: moves more rapidly

L2-04. Write less ... than in a supplies context.

Answer: Open response - M17 lower-degree form; quantity assessed separately.

L2-05. Express an equality relation in the host context.

Answer: Open response - Accurate M17 frame.

L2-06. Compare two fictional supply plans on cost and speed.

Answer: Open response - Two supported relations.

L2-07. Record M17 code/retry and separate M19 evidence.

Answer: Open response - Evidence streams remain separate.

L3 · Retrieve · L3 — retained-evidence gate

In S7-M23, an external checker verifies unseen editing and production after retry.

L3-01. Edit: A is more faster, but less expensive than B.

Answer: A is faster, but less expensive than B.

L3-02. Edit: Same time, so A is not as quick as B.

Answer: Same time, so A is as quick as B.

L3-03. Edit: moves more quick.

Answer: moves more quickly

L3-04. Write an unseen eight-line sequenced recommendation with equality, higher/lower degree, adjective/adverb comparison, better/worse and evidence.

Answer: Open response - Externally checked independent M17 transfer.

L3-05. Record external check, codes, retries and whether both components passed.

Answer: Open response - Retained only if editing and production both pass.

Module progress check

Complete this after your first attempt and again after feedback.

- ☐ Not yet ☐ Nearly ☐ Secure I can identify equal and unequal relations from evidence.
- ☐ Not yet ☐ Nearly ☐ Secure I can compare qualities and action manners.
- ☐ Not yet ☐ Nearly ☐ Secure I can use controlled equal/lower/irregular frames.
- ☐ Not yet ☐ Nearly ☐ Secure I can compare two transport or study options and support each comparison.

One correction I can explain:

My next retrieval date: _____

This page is intentionally blank.

Superlatives and degree

LEARN → NOTICE → BUILD → CHOOSE → USE → CHECK → RETRIEVE → REFLECT

Your goals

- ☐ I can understand superlatives; much/far/slightly/a little + comparative.
- ☐ I can distinguish comparative vs superlative; large vs small degree.
- ☐ I can recommend one option from three using qualified comparisons.
- ☐ I can explain and retry an error.

Answer: The bridge was repaired by the team.

L0-04. Same-session return 4: Change to present passive: Staff clean the room daily.

Answer: The room is cleaned daily.

L0-05. Same-session return 5: Keep active because the doer matters: Maya discovered the error.

Answer: Maya discovered the error.

L1 · Retrieve · L1 - Retrieve

Complete 1-3 days later without the teaching box.

L1-01. Delayed return 1: Focus on the doer: The team checks / The equipment is checked.

Answer: The team checks the equipment.

L1-02. Delayed return 2: Focus on the process: The team checks / The equipment is checked.

Answer: The equipment is checked.

L1-03. Delayed return 3: Change to past passive: The team repaired the bridge.

Answer: The bridge was repaired by the team.

L1-04. Delayed return 4: Change to present passive: Staff clean the room daily.

Answer: The room is cleaned daily.

L2 · Retrieve · L2 - Retrieve

Complete 7-14 days later inside the named host; keep host and returning evidence separate.

L2-01. Mixed host return 1: Focus on the doer: The team checks / The equipment is checked.

Answer: The team checks the equipment.

L2-02. Mixed host return 2: Focus on the process: The team checks / The equipment is checked.

Answer: The equipment is checked.

L2-03. Mixed host return 3: Change to past passive: The team repaired the bridge.

Answer: The bridge was repaired by the team.

L3 · Retrieve · L3 - Retrieve

Complete 21-35 days later. An external checker verifies mixed editing and independent production after retry.

L3-01. Delayed transfer 1: Focus on the doer: The team checks / The equipment is checked.

Answer: The team checks the equipment.

L3-02. Delayed transfer 2: Focus on the process: The team checks / The equipment is checked.

Answer: The equipment is checked.

L3-03. Delayed transfer 3: Change to past passive: The team repaired the bridge.

Answer: The bridge was repaired by the team.

Module progress check

Complete this after your first attempt and again after feedback.

☐ Not yet ☐ Nearly ☐ Secure I can understand active vs basic present/past passive; integrated time, modality, noun phrase and cohesion choices.

☐ Not yet ☐ Nearly ☐ Secure I can distinguish doer focus vs action/result focus; mixed prior-stage confusables.

☐ Not yet ☐ Nearly ☐ Secure I can create, edit and explain a short process or event report, then complete delayed mixed evidence.

☐ Not yet ☐ Nearly ☐ Secure I can explain and retry an error.

One correction I can explain:

My next retrieval date: _____

My grammar learning record

Modules I have completed:

Something I can now do independently:

A grammar pattern I still confuse:

One correction I can explain clearly:

One example I want to remember:

Learner feedback

Which activity helped you understand the grammar? Why?

Which activity was confusing? What made it difficult?

Where did you notice improvement in your speaking or writing?

What would you change about the book?

One grammar goal for your next cycle:

Stage 7 progress summary

Modules completed:

My strongest evidence:

Patterns needing another return:

A transfer task I completed:
